College of Nursing

Student Health and Safety Records

General information

Who needs to process the Health & Safety form and why?

Students planning to register for a NRS 503, NRS 541P, or NRS 600P course must request a check of their Health & Safety records to verify that they are complete and current for the quarter(s) of practicum.

The Health & Safety form must be completed **prior** to registering. A **new** validated Health & Safety form is required for **every quarter** that you register for the courses specified. A student **will not** be permitted to register for these courses without a valid Health & Safety form submitted to the Office of the Registrar.

IMPORTANT: All licensed RNs (Illinois & out-of-state) must notify the College of Nursing immediately if there is any change in their license status. Failure to do so may result in suspension/dismissal from the program.

Directions

1. Complete PART A of the Health & Safety form.
2. Bring this form to Queen E. Flowers (1080 Armour) or fax to (312) 942-3043. Anesthesia students should bring this form to Vevlyn Rogers (1061 Armour) or fax to (312) 942-8157.
3. If records are in order, a validated Health & Safety form will be returned to the student. (Students who have discrepancies will be required to resolve them before a validated Health & Safety form will be issued.)
4. Submit Health & Safety form to Office of the Registrar (440 Armour). Fax: (312) 942-2310.
