Faculty Recognition

RECEPTION

Dear Faculty:

I am delighted to congratulate the winners of the 2017-2018 Faculty Excellence Awards. I also applaud all of the nominees, as well as the faculty members who received other awards and those who were promoted and appointed to senior faculty ranks during the past academic year.

At Rush, we're fortunate to have an amazing group of dedicated and talented faculty members who make significant and lasting contributions to the personal and professional lives of countless students, patients, families and colleagues. Because of you, our University is able to carry out its mission.

There will be many challenges ahead in academic health care, but Rush University is well-positioned for success thanks to faculty who work daily to overcome these challenges. I feel truly fortunate to work in such wonderful company.

Thank you for joining me in celebrating the accomplishments of our faculty.

Sincerely,

Thomas A. Deutsch, MD
Provost, Rush University

Faculty Recognition

RECEPTION

Dear Faculty:

It is my great pleasure to welcome you to the eighth annual Faculty Recognition Reception. Please join me in congratulating this year's Rush Faculty Excellence Award winners, nominees and all faculty members on their exceptional achievements, leadership, academic appointments and promotions.

The hard work and accomplishments of our faculty have led to the ever-growing reputation and image of Rush University. I am proud of our faculty. They represent excellence in clinical, education, community mentoring and research endeavors. The service that faculty at Rush provide to the institutional, local, regional, national and global communities is impressive.

The Office of Faculty Affairs is honored to support your professional, career and leadership development.

Sincerely,

Susan Chubinskaya, PhD
Vice Provost, Office of Faculty Affairs, Rush University

FACULTY EXCELLENCE AWARD NOMINEES

Excellence in Clinical Service

Therese Gallagher, DNP, APRN, FNP-BC, CNL

Kelly Roehl, MS, RDN-AP, CNSC

Excellence in Community Service

Molly Bathje, PhD, OTR/L

Gina Lowell, MD, MPH

T. Celeste Napier, PhD

Excellence in Education

Kristin Al-Ghoul, PhD

Kathleen Delaney, PhD, PMH-NP, FAAN

Katie Kompoliti, MD

Nell Lurain, PhD

Andrea Madrigano, MD

Thomas Shannon, PhD

Nicole Siparsky, MD, FACS

Amy Winston, AuD, CCC-A

Excellence in Mentoring

Edie Chan, MD

Cynthia Comella, MD

Joyce Corsica, PhD

Wrenetha Julion, PhD, MPH, RN, FAAN

Rebecca Ozelie, DHS, OTR/L, BCPR

Sarah Song, MD, MPH

Excellence in Research

Vineet Gupta, PhD

FACULTY AWARD RECIPIENTS

Excellence in Clinical Service

Therese Gallagher DNP, APRN, FNP-BC, CNL

Kelly Roehl, MS, RDN-AP, CNSC

Excellence in Community Service

Molly Bathje, PhD, OTR/L

Excellence in Education

Kathleen Delaney, PhD, PMH-NP, FAAN

Excellence in Mentoring

Cynthia Comella, MD

Joyce Corsica, PhD

Excellence in Research

Vineet Gupta, PhD

EXCELLENCE IN CLINICAL SERVICE

Therese Gallagher

Therese Gallagher, DNP, APRN, FNP-BC, CNL, is an assistant professor in the College of Nursing's Department of Women, Children and Family Nursing, and a family nurse practitioner who received her clinical nurse leader certification when she began teaching in the clinical nurse leader program at Rush University.

In 2015, Gallagher established the Rush University College of Nursing Sue Gin Health Center, a faculty-practice, nurse-managed, primary care clinic and wellness center located within the Oakley Square Apartments complex on the Near West Side of Chicago. Prior to the opening of the clinic, the largely uninsured population at Oakley Square Apartments often used emergency rooms for their primary care. At the clinic, Gallagher joins with another nurse practitioner and Rush nursing students to provide primary care, deliver preventive screenings and promote health education.

“Residents were not using the clinic at first due to mistrust of health care settings and providers,” says Gallagher’s nominator, Wrenetha A. Julion, PhD, MPH, RN, FAAN, professor and chairperson, Department of Women, Children and Family Nursing. “Therese took active steps to establish trusting relationships with community residents and encourage their involvement in the health center. She sought the perspectives of community residents.”

The Sue Gin Health Center now serves approximately 600 residents in 247 apartments. “Under Terry’s leadership, the Sue Gin Health Center has partnered with more than 15 local community organizations — such as the YMCA, Chicago School of Psychology, American Lung Association and the Museum of Science and Industry — to bring programs and services to Oakley Square residents,” says Angela Moss, PhD, APRN-BC, RN, assistant professor, Department of Community, Systems and Mental Health Nursing.

Additionally, Gallagher is a nurse practitioner at the school-based health centers at Richard T. Crane Medical Prep and the Orr Academy High School. She volunteers at the Franciscan House of Mary and Joseph, a 257-bed homeless shelter on Chicago’s West Side, and oversees an interprofessional, student-led clinic run by the Rush Community Service Initiatives Program.

“Her work is not only highly innovative, but it also demonstrates the high level of respect and regard she holds for the community,” Julion says.

EXCELLENCE IN CLINICAL SERVICE

Kelly Roehl

Kelly Roehl, MS, RDN-AP, CNSC, is an advanced-level dietitian at Rush University Medical Center, an instructor in the College of Health Science's Department of Clinical Nutrition and a member of the adult critical care and nutrition support team. Roehl joined the Rush family in 2007 as a master's student and returned in 2010 after working as a consulting dietitian.

Roehl's clinical practice is primarily focused on two areas: nutrition support for patients in the neuroscience intensive care unit and the ketogenic diet as a treatment for intractable epilepsy.

Roehl works with other dietitians to ensure the best care is provided to the inpatient population. She rounds daily as part of the interprofessional neuroscience intensive care unit team to provide essential nutrition support for critically ill patients. Her patient-centered approach leads to successful implementation of the ketogenic diet.

"She practices at the highest level, combining the latest evidence and critical thinking skills to provide paramount nutrition care for her patients," says Yimin Chen, PhD, RD, LDN, assistant professor, Department of Clinical Nutrition.

Roehl is a member of Rush's dietetic internship acceptance committee, as well as a preceptor for three major rotations, including enteral nutrition, neurology and critical care. During these rotations, Roehl instructs interns on how to incorporate advanced-level and critical care skills into practice, which sets the program apart as a leading dietetic internship. She has received the Best Preceptor award at Rush in three of the past six years.

Roehl participates in the Chicago Area Society for Parenteral and Enteral Nutrition, most recently holding the role of immediate past president. She remains actively involved in the planning and execution of chapter events.

She also participates in the American Society for Parenteral and Enteral Nutrition, or ASPEN. She recently completed a two-year, co-chair responsibility on the committee for Self-Assessment, which is a tool offered to help multidisciplinary nutrition support clinicians prepare for the exam to become a certified nutrition support clinician. Roehl remains an active member of the abstract review committee, helping to determine quality and acceptance of research abstracts and presentations for ASPEN's national conference.

In addition, she is an active member of the Academy of Nutrition and Dietetics, or AND, participating in its Dietitians in Nutrition Support practice group and serving as an editor for the quarterly, peer-reviewed publication *Support Line*. In 2016, Roehl was selected to be the lead author on the first AND practice paper focusing on the ketogenic diet for the treatment of epilepsy, which is shaping the understanding and implementation of ketogenic diet therapy for registered dietitian nutritionists across the country.

Roehl has presented research on ketogenic diet therapy at several national and international multidisciplinary conferences. She was recently selected to be a speaker at the fall 2018 Global Symposium on Ketogenic Diet Therapies in Jeju, South Korea.

EXCELLENCE IN COMMUNITY SERVICE

Molly Bathje

Molly Bathje, PhD, OTR/L, is an assistant professor in the College of Health Sciences' Department of Occupational Therapy. In 20 years as an occupational therapist, she has worked in inpatient psychiatry, acute care medicine, outpatient pediatrics and long-term care with individuals who have varying abilities and impairments. Her interest in advocacy stems from her daily exposure to people with different abilities and challenges.

“Dr. Bathje is a leader who is making significant contributions in efforts to transform health care so that people with disabilities receive excellent health care services,” says her nominator, Sarah Ailey, PhD, RNC, professor, Department of Community, Systems and Mental Health Nursing.

For the past eight years, Bathje has participated as a member of the Adults With Intellectual and Developmental Disabilities committee at Rush, which focuses on improving the patient experience of adults with intellectual disabilities. She is involved with the Special Friends Mass, which is offered monthly through her church and is designed for people with intellectual disabilities and their families who aren't able to participate in the regular mass. They modify the liturgy and environment to support and celebrate participants who are differently abled.

Bathje has taught volunteers in the Trinity Volunteer Corps, an organization that promotes volunteerism for adults with intellectual disabilities, and is involved with the Fabretto Children's Foundation, which supports education programs in Nicaragua. She has also been involved with Path to Academics Community and Employment, or PACE, a postsecondary education program designed to meet the transitional needs of young adults with intellectual and developmental disabilities. Bathje facilitated a PACE student internship at the College of Health Sciences.

In 2016, Bathje collaborated with colleagues to obtain a conference grant from both the Agency for Healthcare Research and Quality and the Working for Inclusive and Transformative Healthcare Foundation to fund a conference for Partnering to Transform Healthcare With People With Disabilities, a collaboration between Rush and the University of Illinois at Chicago focused on the disparity of health outcomes in people with disabilities. The conference resulted in several ongoing work groups that include a national representation of professionals and self-advocates, including a work group led by Bathje that focuses on employment of people with disabilities in health care settings.

Bathje participates in Back on My Feet, a national organization that uses the power of running to combat homelessness by providing housing, job skills and employment opportunities. Bathje's running team in Chicago, which includes students at Rush, runs with individuals from St. Leonard's Shelter on Chicago's Near West Side three times a week to establish routine and provide support.

Bathje was the Illinois Occupational Therapist of the year in 2015 and a nominee for Rush's 2017 Robert J. Clapp Diversity Leadership Award.

EXCELLENCE IN EDUCATION

Kathleen Delaney

Kathleen Delaney, PhD, PMH-NP, FAAN, is a professor in the College of Nursing's Department of Community, Systems and Mental Health Nursing. She earned a PhD from the College of Nursing in 1984 and has taught all levels of nursing — from the bachelor's level to doctoral students.

"Kathleen has a way of conceptualizing ideas and communicating to students," says nominator Susan Breitenstein, PhD, RN, FAAN, associate professor, Department of Community, Systems and Mental Health Nursing. "She is pragmatic in her teaching, with an emphasis on preparing students to deliver comprehensive and quality care."

Delaney is the 2018 recipient of the Annie W. Goodrich Distinguished Lectureship Award given by the Institute of Living in Hartford, Connecticut and received the 2016 Rush University College of Nursing Distinguished Alumni Award.

For the past 20 years, Delaney's work at Rush has focused on the College of Nursing's Psychiatric Mental Health Nurse Practitioner program, an online competency-based curriculum with innovative learning activities to teach critical skills. The program is ranked No. 1 in the country in *U.S. News & World Report's* Best Graduate School rankings released this year. Delaney's teaching in the program focuses on doctoral projects. In the last three years, students in the program have had a 100 percent pass rate on the National Certification Exam.

Delaney has acted as a consultant for the development of psychiatric mental health nurse practitioner programs in six nursing colleges throughout the country, including Michigan State University and the University of Texas Health Science Center at Houston.

Delaney implemented the GNE Demonstration Project, which focuses on increasing advanced practice nurses in primary care. She is the key nursing faculty member involved in a collaboration with Rush's Department of Psychiatry to launch a community psychiatry fellowship providing psychiatrists and nurse practitioners with training in community settings.

She was the co-principal investigator on the Rush University Life Course Screening, Brief Intervention and Referral to Treatment program, which used funding from the Substance Abuse and Mental Health Services Administration to train more than 300 students from 2015-17. "It was Kathy's knowledge and skill that allowed us to rapidly scale this education and training program across the University," says Niranjana Karnik, MD, PhD, professor, Department of Psychology.

In addition, Delaney is also the principal investigator and project director on the Innovation in Academic Practice partnerships, an advanced nursing education workforce grant funded through Health Resources and Services Administration in 2017 to develop innovation in nurse practitioner training with the underserved.

Delaney has been active in the development of psychiatric mental health nursing competencies, particularly as a member of the American Nurses Association Scope and Standards for Psychiatric Mental Health (PMH) Nursing (2014) and the National Organization of Nurse Practitioner Faculties Task Force, which developed DNP Competencies (PMH rep), and then on the committee to develop specialty PMH DNP competencies.

Delaney was elected president of the International Society of Psychiatric Nurses and is a well-respected leader in the American Psychiatric Nursing Association.

EXCELLENCE IN MENTORING

Cynthia Comella

Cynthia Comella, MD, a professor in Rush Medical College's Department of Neurological Sciences, has been a member of the Rush community for more than 30 years. She is an academic neurologist with expertise in the treatment of movement disorders, using a variety of treatment interventions for Parkinson's disease. She was recently named Rush's Leslie Nan Burrige Endowed Faculty Scholar in Parkinson's Disease Research.

Comella is the main mentor for fellows in the Section of Movement Disorders. She has mentored approximately 40 trainees across several fields, including Rush medical students, residents, movement disorder fellows, PhD students in physiology and physical therapy, junior neurologists and mid-level faculty.

"When I was an assistant professor, she offered to take a back seat on an NIH grant we were working on together and allow me to serve on the steering committee," says Deborah Hall, MD, PhD, professor, Department of Neurological Sciences and Comella's nominator. "This selfless act allowed me to develop some skills that I needed while she continued to guide me."

"I have enjoyed the mentorship of many excellent and capable physicians, scientists and educators at Rush, and I can say without hesitation that Dr. Comella is the best," says Avram Frain, MD, Department of Neurological Sciences, who has spent the last 10 years training at Rush. "I first met Dr. Comella as a resident while rotating through her clinic. Despite a busy caseload, she made a concerted effort to teach me at least one relevant point about each patient and made time to answer my questions."

Comella was instrumental in starting the Parkinson's study group mentoring committee, which she chaired from 2006-10, implementing organized mentorship services and opportunities.

Nationally, she has mentored through her work at the American Academy of Neurology, or AAN. She has served on several committees and was the chair of the Education Committee from 2009-15.

"During her term as chair, she led the development of numerous innovative teaching courses at our meetings and established a highly successful eLearning platform that grew to include numerous programs and resources," says A. Gordon Smith, MD, FAAN, professor and chairperson of neurology at Virginia Commonwealth University Health and current chair of the Education Committee, who credits his career progress to Comella's mentorship.

Comella is the director of the Women in Leadership Program at the AAN and conducts small group mentoring sessions, formal mentor pairings and panel discussions. Her research interests include the effect of exercise on Parkinson disease and the sleep disorders associated with Parkinson's disease. She is author or co-author on more than 200 peer-reviewed manuscripts, chapters and reviews related to movement disorders.

EXCELLENCE IN MENTORING

Joyce Corsica

Joyce Corsica, PhD, associate professor in Rush Medical College's Department of Behavioral Sciences, has been the director of Clinical Training for the clinical psychology internship at Rush since 2006. She is also the associate chair of Professional Development in the department, directing faculty mentorship efforts for professional development and career advancement.

"As a former resident and postdoctoral fellow at Rush who trained under Dr. Corsica, I am honored to represent the overwhelming and enthusiastic support for this nomination she has received from her former interns," says Megan Hood, PhD, associate professor, Department of Behavioral Science and Corsica's nominator.

In her 16 years at Rush, Corsica has mentored more than 100 doctoral residents, 16 postdoctoral fellows and 10 junior faculty members. Her students, residents and postdoctoral fellows have gone on to secure their top choice for their next position, pass their licensure exam on the first try and secure scientist-practitioner positions at high level institutions worldwide. Her mentees have gone on to focus on research, teaching and clinical work, and frequently take on leadership and mentorship roles themselves.

"Even after nine years as her colleague, she is still the first person I turn to when I need guidance," says Nicole Heath, PhD, assistant professor, Department of Behavioral Sciences. "I have complete confidence that the vast majority of the trainees and assistant professors in our department share this perspective. Despite her extensive experience in academia and her seniority in the department, she has always treated me as an equal and has created a caring environment where I and other mentees are treated with the utmost respect."

Corsica's mentees have been the most frequently hired faculty members at Rush, with a total of 13 hired (including Hood) after completing their training. Her trainees have also gone on to become successful leaders at other institutions, including Northwestern and Loyola, and have produced hundreds of publications, demonstrating substantial impact in the clinical and health psychology field.

"During my internship year, I saw that, despite Dr. Corsica's multiple responsibilities, she always had an open-door policy," says Shawn N. Hondorp, PhD, ABPP, clinical health psychologist, Division of Psychiatry and Behavioral Medicine, Preventive Cardiology and Surgical Weight Loss, Spectrum Health System. "My desire to continue to learn from Dr. Corsica was the number one reason I chose to stay at Rush for my postdoctoral fellowship."

"Her excellence is apparent in so many ways," Hood says, "but most notably in the fact that she inspires her mentees to want to become excellent mentors themselves, further expanding the number of people who will benefit from her influence."

EXCELLENCE IN RESEARCH

Vineet Gupta

Vineet Gupta, PhD, is the vice chair for Research and Innovation, a professor in Rush Medical College's Department of Internal Medicine, director of the Section of Research within the Division of Hematology/Oncology and the director of the Drug Discovery Center.

Gupta is a leader in developing novel mechanism of action small molecules as therapeutics for autoimmunity, cancer and kidney diseases, targeting integrins and other cellular receptors. "Many discoveries coming out of his laboratory have enhanced the recognition of Rush in the eyes of the global research community," says Alan Landay, PhD, professor, Department of Microbial Pathogens and Immunity.

Gupta has been studying integrin CD11b/ITGAM for more than 15 years. In the past, targeting integrins with blocking agents had been the primary strategy for reducing leukocyte influx. Gupta and his lab recognized that integrin activation could also be a pharmacologically targetable methodology and may overcome the limitation associated with the anti-integrin agents.

Gupta's lab developed novel small molecules that selectively activate CD11b/CD18 in vitro and in vivo, and used them to prove that integrin activation — by transiently enhancing leukocyte adhesion to inflamed endothelium — also reduces their extravasation and inflammatory injury. His studies found that CD11b activation seems to regulate TLR pathways.

Gupta's work was published in the *Journal of Clinical Investigation* in 2017, highlighted in *Nature Reviews Nephrology* and selected as one of the three top papers in rheumatology at the Annual American College of Rheumatology meeting in 2017.

His lab's current work focuses on understanding the changes that accompany integrin activation. They plan to initiate a phase I clinical trial of their lead compound (LA1) in 2018. Their unpublished research shows that LA1 can modulate tumor infiltration of tumor-assisted macrophages, which is a novel immuno-oncology therapeutic paradigm that has shown to reduce tumor growth in multiple mouse models.

Additionally, Gupta's laboratory helped define the role of integrins $\alpha V\beta 3$ and $\beta 1$ in proteinuric kidney diseases, discovering how these integrins modulate function of a key kidney cell, the podocyte. They helped establish that de-activation of integrin $\beta 1$ in podocytes is a key factor that leads to podocyte damage and showed that integrin $\beta 1$ agonists have therapeutic efficacy in vivo.

In contrast, activation of $\alpha V\beta 3$ in podocytes results in significant cellular injury and loss, suggesting blocking $\alpha V\beta 3$ may be a more promising approach for that integrin in podocytes. In addition, Gupta and his collaborators have developed and described a novel podocyte cell-based high throughput screening assay for the discovery and development of novel kidney-specific therapeutics.

Gupta has published multiple articles in high-impact journals, has been an inventor on more than 40 patents and patent applications and has mentored more than 45 students and fellows in his laboratory during the last several years.

"Dr. Gupta has been continuously funded by the NIH and other external foundations, and is routinely invited to present nationally and internationally," says Jochen Reiser, MD, PhD, Gupta's nominator and chairperson, Department of Internal Medicine. "His research findings undoubtedly will transform the fields of autoimmunity and immuno-oncology."

FACULTY RECOGNITION RECEPTION HONOREES

Congratulations on your appointments and promotions.

The following is a list of new professors named this past academic year.

Professors

Edward Barker, PhD

Microbial Pathogens and Immunity
Rush Medical College

Jennifer Goldman, MD, MS

Neurological Sciences
Rush Medical College

David Gurka, MD

Internal Medicine
Rush Medical College

Deborah Hall, PhD

Neurological Sciences
Rush Medical College

Sanda Predescu, PhD

Internal Medicine
Rush Medical College

Steven Rothschild, MD

Preventive Medicine
Rush Medical College

Theodore Saclarides, MD

Surgery
Rush Medical College

R. Jeffrey Snell, MD

Internal Medicine
Rush Medical College

Scott Sporer, MD, MS

Orthopedic Surgery
Rush Medical College

Christy Tangney, PhD

Preventive Medicine
Rush Medical College

Ulku Turba, MD, FSIR

Diagnostic Radiology and Nuclear Medicine
Rush Medical College

Richard J. Wiet, MD

Otorhinolaryngology Head and Neck Surgery
Rush Medical College

FACULTY RECOGNITION RECEPTION HONOREES

Congratulations on your appointments and promotions.

The following is a list of new associate professors named this past academic year.

Associate Professors

Xun Ai, MD

Physiology and Biophysics
Rush Medical College

Judith Badner, MD, PhD

Psychiatry
Rush Medical College

Adriana Bermeo-Ovalle, MD

Neurological Sciences
Rush Medical College

Paul Casey, MD, FACEP

Emergency Medicine
Rush Medical College

David Cimbaluk, MD

Pathology
Rush Medical College

Casey Gashti, MD

Internal Medicine
Rush Medical College

Scott Hasler, MD

Internal Medicine

Sarah Peterson, PhD, RD, CNSC, LDN

Chair
Dietitians in Nutrition Support Dietetic
Practice Group
Academy of Nutrition and Dietetics

Yanina Purim-Shem-Tov, MD, MS

Elected Councilor
American College of Emergency Physicians
Invited Member
Emergency Department Operations Study Group
President
Immediate Past President
Board of Directors
Illinois College of Emergency Physicians

EXTERNAL AWARDS

2017-18 Leadership Positions

Anthony Romeo, MD

President
American Shoulder and Elbow Surgeons

Kate Rowland, MD, MS, FAAFP

Chair
Education Committee
Family Medicine Midwest
Board of Directors
Illinois Academy of Family Physicians

Charlotte Royeen, PhD, OTR/L, FAOTA

Board of Trustees
Kaiser Permanente School of Allied Health
and Sciences

Sasha Shafikhani, PhD

Organizing Committee Member and Session Co-Chair
17th Global Conference
Diabetes Global

Madhu Soni, MD, FAAN

Executive Council
Alliance for Clinical Education
Chair
Undergraduate Education Subcommittee
American Academy of Neurology

Anna Spagnoli, MD

Executive Board
Association of Medical School Pediatric Department
Chairs

Rick Sumner, PhD

President-Elect
American Association of Anatomists
President
Past President
Orthopaedic Research Society

Christy Tangney, PhD, FACN, CNS

Executive Board
Medical Nutrition Council
American Society of Nutrition

Alexandra Vardouniotis, MS, MLS(ASCP)CM SBB

Immediate Past President
Chicago Society for Clinical Laboratory Science

Co-Chair

Student Bowl Committee
Board Member at Large
Program Chair
PACE Administrator
American Society for Clinical Laboratory Sciences
Illinois

David Vines, PhD (c), MHS, RRT, FAARC, FCCP

Chair, Judicial and Ethics Committee
Secretary Executive Committee
Vice-Chair, Simulation Examination Committee
National Board of Respiratory Care

Monnie Wasse, MD, MPH

President
American Society of Diagnostic and Interventional
Nephrology

JoEllen Wilbur, PhD, RN, FAAN

President
Board of Trustees
Midwest Nursing Research Society
Advisory Council
National Institutes of Nursing Research
National Institutes of Health

Nicole Williams, MD

Executive Board
Project Exploration
Committee Member
Health Braintrust
Second District Congressional Black Caucus
State of Illinois

Markus Wimmer, PhD

Secretary
Implants Section
Device Forum Representative
Orthopaedic Research Society

EXTERNAL AWARDS

Professional Awards and Honors

Neelum Aggarwal, MD

Honor Medical Society
Alpha Omega Alpha

Inspirational Physician Award
American Medical Association

Exceptional Mentor Award
American Medical Women's Association

Steven Aks, DO

Outstanding Service Award
American College of Medical Toxicology

Bernard Bach, Jr., MD

Robert E. Leach Sports Medicine Leadership Award
Hall of Fame
American Orthopaedic Society for Sports Medicine

Lisa Barnes, PhD

Pioneer Award
Advanced Training Course Frontiers in Aging and
Regeneration Research
National Institutes of Health

Thomas Bleck, MD, MCCM, FNCS

Fellowship
American Thoracic Society
Lifetime Achievement Award
Society of Critical Care Medicine

Brinda Bradaric, PhD

Service Award
Society for Neuroscience Chicago Chapter

Susan Breitenstein, PhD, PMHCNS-BC, RN

Fellow
American Academy of Nursing

Faculty Recognition

RECEPTION

2018-19

Teaching Academy Series

All Rush University faculty are invited to participate in the 2018-19 Teaching Academy Series, which is held every third Tuesday of the month from noon to 1 p.m. in Room 994 of the Armour Academic Center. Lunch is provided.

The following is a tentative schedule of presentation topics:

July 17, 2018

Quiet Power: the Key to Understanding Workplace Interactions

Presented by Kate Webster, PhD

Aug. 21, 2018

Leaders vs. Managers: Understanding and Leveraging Distinctions

Presented by Janet Shlaes, PhD, MBA
and Manish Shah, MBA, MS

Sept. 18, 2018

Changes in Health Care Landscape

Presented by Peter Butler, MHSA

Oct. 16, 2018

Ethical Challenges in Clinical Teaching Environments

Presented by David Banayan, MD

Nov. 20, 2018

Dealing With Difficult People

Presented by Janet Shlaes, PhD, MBA,
and Manish Shah, MBA, MS

Dec. 18, 2018

Humanities, Humanism and Justice in Health Care Education

Presented by Jay Behel, PhD

Jan. 15, 2019

Personalized Time Management

Presented by Susan Buchholz, PhD, RN, ANP-BC,
FAANP

Feb. 19, 2019

Mindfulness Meditation for Faculty

Presented by Patricia Normand, MD

March 19, 2019

Strategic Planning:

Putting Together a Business Plan

Presented by Joan Kurtenbach, MPH

April 16, 2019

Giving Feedback to Trainees

Presented by Beverley Robin, MD

May 21, 2019

How to Promote a Learning Environment for All Students

Presented by Greg MacVarish, MA

June 18, 2019

Striking the Right Balance: How Thoughtful Use of Graphics Can Elevate Your Presentation

Presented by Kim Sareny
