## Employment Rates

## Section 8: Employment Rates

**8.1 College of Health Sciences Employment Rates**

Employment rates are determined through personal contacts with faculty, advisors, and program directors; self-report on End of Program and Alumni Surveys; and public record from Linked In and social media searches. Employment rates are calculated for those who are actively seeking employment, and do not include students who are enrolled in educational programs to pursue a higher degree. For medical students, residency match rates are collected.
