

WARREN W. PIETTE, MD

BIOGRAPHICAL SKETCH

In August 2007 Warren Piette joined the faculty of Rush University Medical Center as a professor of Dermatology, senior attending, and director of the CTCL Clinic. He is board certified in Dermatology, Hematology and Internal Medicine and specializes in general dermatology, CTCL, connective tissue disorders and rheumatology. In addition to his position at Rush, Dr. Piette is Chair of the Division of Dermatology at Cook County Hospital in Chicago.

Dr. Piette received his undergraduate degree from the Texas A&M University and his MD from the University of Texas Southwestern Medical School. He completed residencies in both Internal Medicine and Dermatology at Parkland Memorial Hospital in Dallas. Prior to his dermatology training, Dr. Piette completed a Hematology Fellowship at Parkland as well.

After beginning his professional and academic career in 1982 as an assistant professor in the Department of Dermatology at the University of Iowa, College of Medicine, Dr. Piette then achieved the rank of a full professor with tenure. He later served as vice-chair of the Department of Dermatology and residency program director from 1998 to 2004.

Dr. Piette is a fellow of the American Academy of Dermatology and a member of the Society for Investigative Dermatology, the Association of Professors of Dermatology and the American Society of Hematology. He has authored or co-authored nearly 100 publications, including more than 40 papers in peer-reviewed journals and over 40 book chapters. He has conducted several television and radio interviews about skin diseases.

He has an ongoing research interest in patients with vasculitis, microvascular thrombosis, cutaneous lymphomas, hematologic associations with skin disease, and connective tissue diseases.

C. Abstracts

1. Argenyi ZB and Piette WW: Cutaneous angiomylipoma. Presented at the December 5-6, 1986 meeting of the American Society of Dermatopathology. *J Cut Pathol* 13: 434, 1986.
2. Piette WW, Burken RR and Ray TL: Intraepidermal neutrophilic IgA dermatosis: presence of circulating pemphigus-like IgA antibody specific for monkey epithelium. Presented at the October 30-31, 1986 meeting of the Central Region of the Society for Investigative Dermatology and American Federation for Clinical Research. *Clin Res* 34: 991A, 1986.
3. Piette WW: Evaluation of medical conditions affecting cutaneous surgery. Presented at the April 29-May 3, 1987 meeting of the American Society for Dermatologic Surgery.
4. Piette WW, Burken RR and Ray TL: Intraepidermal neutrophilic IgA dermatosis: presence of circulating pemphigus-like IgA antibody specific for monkey epithelium. Presented at the May 4-6, 1987 meeting of the Society for Investigative Dermatology. *J Invest Dermatol* 88: 512, 1987.
5. Green SG and Piette WW: Successful treatment of hypertrophic lupus erythematosus. Presented at the July 15-17, 1987 Summer Session of the American Academy of Dermatology.

6. Piette WW and Stone MS: A cutaneous sign of IgA-associated small dermal vessel leukocytoclastic vasculitis in adults (Henoch-Schönlein purpura). Presented at November 11-13, 1987 meeting of the Central Region of the Society for Investigative Dermatology. *Clinical Research* 35: 924A, 1987.
7. Argenyi Z, Burken RR and Piette W: Mycosis fungoides with extensive sarcoid-like reaction. Presented at the annual meeting of the American Academy of Dermatology, San Antonio, Texas, December 5-10, 1987.
8. Piette WW and Stone MS: A cutaneous sign of IgA-associated small dermal vessel leukocytoclastic vasculitis in adults (Henoch-Schönlein purpura). Presented at April 27-May 1, 1988 meeting of the Society of Investigative Dermatology, Washington, D. C.
9. Smith R, Argenyi Z, Piette W and Casale TB: Histologic studies of late cutaneous responses (LCR) to codeine (C) and *Alternaria* (A). Presented at the February 24-March 1, 1989 meeting of the American Academy of Allergy and Immunology, San Antonio, Texas.
10. Piette WW, Walker KE, Strauss RG and Koerner TAW: Membrane lipid alterations in vivo following 8-MOP administration for extracorporeal photochemotherapy. Presented at May 2-5, 1990 National Meeting of the Society for Investigative Dermatology. *Clin Res* 38:672A, 1990.
11. Randels MJ, Strauss RG, Lampson LK, Demeulenaere R, Wieland MJ, Piette WW and Koerner TAW: Safety of extracorporeal photopheresis. *J Clin Apheresis* 5:170-171, 1990. Meeting of the American Society for Apheresis, March 1990, San Francisco, CA.
12. Piette WW and Stone MS: A cutaneous sign of IgA-associated small dermal vessel leuko-cytoclastic vasculitis in adults (Henoch-Schönlein purpura) (abstract and full page table) in Sober AJ and Fitzpatrick TB: 1990 *The Year Book of Dermatology*, Mosby-Year Book, Inc, 346-347, 1990.
13. Koerner TAW, Walker KE, Strauss RG, Lin L, Piette W and Wieseahn G: Effect of 8-methoxypsoralen and UVA irradiation on the composition of platelet and lymphocyte lipids. Presented at Joint Congress of International Society of blood Transfusion and American Association of Blood Banks, November 10-15, 1990. *Transfusion*, accepted.
14. Wieland M, Randels MJ, Strauss RG, Thiede VL, Kapelanski DP, Hunsicker LG and Piette WW: Photopheresis: A promising therapy for intractable cardiac allograft rejection. Presented at the American Society for Apheresis. *J Clin Apheresis* 7:42-43, 1992.
15. Piette W, Shasby DM, Kealey P and Olson J: Retiform purpura is a sign of severe acquired protein C deficiency and risk of progression to purpura fulminans in sepsis and disseminated intravascular coagulation. Poster session, American Federation Clinical Research Meeting, Washington, DC, April 30-May 3, 1993. *Clin Res* 41:253A, 1993.
16. Raife TJ, Lager DJ, Madison KC, Piette WW, Howard EJ, Sturm MT, Chen Y and Lentz SR: "Expression of functional thrombomodulin by human keratinocytes correlates with squamous differentiation". Poster Session, American Society of Hematology Meeting, St. Louis, MO, December 3-7, 1993. *Blood* 82 (Suppl 1):152a, 1993.
