4. Most forms of financial assistance require students to maintain satisfactory progress toward their degree(s). For financial aid purposes, this is measured by the maximum length of your program divided by the number of years the College of Nursing allows students to complete the degree. The following will be used as a guide to determine academic progress for financial aid purposes:

- *Masters Degree* students must complete their degree in *5 (five) years* at a rate of *20% per year*.
- *DNP* students must complete their degree in *5 (five) years* at a rate of *20% per year*.
- *PhD* students must complete their degree in *8 (eight) years* at a rate of *15% per year*.

All quarters are included in this measurement, including quarters of non-enrollment (unless on a recognized Leave of Absence). Unique program enrollments (Anesthesia residency, summer enrollment for doctoral students, etc.) will be taken into consideration.
