Policies and Procedures-Admissions

Transcript Delinquency

Students who are admitted pending successful completion of a course are given a deadline for submitting the transcripts to the Office of College Admission Services. If transcripts are not received by the deadline, the student is notified that they will need an unofficial transcript or grade report at time of registration. After the first registration, all files go to the Registrar's Office and there is continued follow up on all outstanding transcripts. If all official transcripts are not received by Midterm, the student and the Admissions & Progressions Committee are notified. All official transcripts must be received by the end of the quarter following admission. If transcripts are still missing at the end of that quarter, further registration will be denied.
