Introduction
This guide will assist you with self-enrollment process for Duo two-factor authentication used for Rush Remote Access.

Duo will prompt you to enroll the first time you log into MyApps.rush.edu for secure remote access.

Important: Please review document to identify preferred authentication method before beginning enrollment to prevent session timeout and user lockout.

Enter your Rush Network ID and Password, select “Log On”

Select “Start Setup” to begin enrollment for your preferred two-factor authentication device type.

Please contact the Rush Help Desk at ext. 2-HELP (2-4357) or help@rush.edu for any issues or questions.
