Shipment - dry Ice Shipment - Batched	\$256.50	\$282.15	\$307.80	+courier charges
Long-term -80C Storage (per specimen per year)	\$1.48	\$1.63	\$1.78	
Long-term LN2 Storage (per specimen per year)	\$1.70	\$1.87	\$2.04	

*Annual Administration Fee / Study

An annual administration fee will be assessed on June 1 for each study conducted in the previous 12 months. This fee only pertains to studies enrolling participants for multiple visits throughout the year.

Process	Description
PK TIER 1	Example: Single spun plasma at multiple time points (charge per time point)
PK TIER 2	Example: Cells from CPT tubes fixed in methanol
PK TIER 3	Example: Stored plasma, DBS, and PBMCs from whole blood.
TISSUE TIER 1	Example: The addition of simple reagent such as PBS or "aliquotting" tissues into multiple vials
TISSUE TIER 2	Example: Tissue fixed in formalin followed by transfer to ethanol
TISSUE TIER 3	Example: Multiple tissues and multiple processes (price may vary)
SAMPLE TIER 1	Example: Whole Saliva, urine, CVL - aliquot and label only
SAMPLE TIER 2	Example: CVL processed into fluid + single dry (or wet) cell pellet
SAMPLE TIER 3	Example: CVL processed into fluid + cryopreserved cells (CLN)
