

EAR DAY 2020

Department of Communication Disorders & Sciences Rush University and
Chicago Chapter of the Acoustical Society of America

February 14, 2020

Armour Academic Building, Lecture Hall 976

(RSVP to [Jeri-Lynn Williams@rush.edu](mailto:Jeri-Lynn_Williams@rush.edu) by February 7)

- 9:30 – Coffee and light breakfast
- 9:50 – Introduction & Welcome – [Valeriy Shafiro](#) - Rush University Medical Center
- 10:00 – Electrophysiology of the human superior temporal sulcus during speech processing
[Kirill Nourski](#) – University of Iowa
- 10:20 – Early data from a prospective randomized trial of intracochlear electrocochleography during cochlear implant surgery
[Karl Doerfer](#) – Medical College of Wisconsin
- 10:40 – Ipsilateral cochlear implantation in the presence of observed and irradiated vestibular schwannomas
[Matthew Urban](#) – Rush University Medical Center
- 11:00 – Discussion
- 11:15 – 11:25 Break
- 11:25 – It's rough getting old: Stories of aging from the cochlea
[Sumit Dhar](#) - Northwestern University
- 11:45 – Musicians and NIH: What happens when the noise is your life?
[Kate Dunckley](#) – Rush University Medical Center
- 12:05 – Noise annoyance and affective response in adverse listening conditions
[Alex Francis](#) – Purdue University
- 12:25 – Characteristics of the child, parent and provider speech during telepractice vs. in-person intervention
[Maria Kondaurova](#) - University of Louisville
- 12:45 – Discussion
- 1:00 – 2:00 Lunch
- 2:00 – Why are some words on the NU-6 easy to recognize while other words are hard to recognize?
[David Pisoni](#) - Indiana University
- 2:20 – Listening effort associated with misperceptions and confusions in speech perception by individuals with cochlear implants
[Matthew Winn](#) - University of Minnesota
- 2:40 – Are there real-world bimodal benefits?
[Aaron Moberly](#) – Ohio State University
- 3:00 – Environmental sound recognition in adults with sensorineural hearing loss and impact of cochlear implantation [Michael Harris](#) – Medical College of Wisconsin
- 3:20 – Discussion
- 3:35 – 3:45 Break
- 3:45 – Incorporating the speech perception test battery in the hearing aid clinic: The benefits to the patient, the clinician & the practice
[Alejandra Ullauri](#) – Chicago Hearing Care
- 4:05 – Finding what matters: Insights from an auditory test battery
[Valeriy Shafiro](#) - Rush University Medical Center
- 4:25 – Afterthoughts of a Fulbright trip to Brazil
[King Chung](#) – Northern Illinois University
- 4:25 – General Discussion
