

Rush University
PA Program
Information Packet
2022-2023 Application Cycle

Accreditation

Rush University Accreditation Status

Rush University received its initial accreditation from the Higher Learning Commission (HLC) of the North Central Association of Colleges and Schools (formerly the North Central Association of Colleges and Schools, Commission on Institutions of Higher Education) in 1974. In its accreditation review, the HLC assesses institutions' academic quality and educational effectiveness with an emphasis on institutional structures, processes, and resources.

Rush University's most recent accreditation review was in 2019, and received continuing accreditation status through 2029.

Rush University PA Program Accreditation Status

All PA programs are accredited by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). Additionally, all Illinois PA programs must maintain approval from the Illinois Board of Higher Education (IBHE) to enroll students.

The IBHE approved the Rush University College of Health Sciences Master of Science in Physician Assistant in October 2009.

The Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) has granted Accreditation-Continued status to the Physician Assistant Program sponsored by Rush University. Accreditation-Continued is an accreditation status granted when a currently accredited program complies with the ARC-PA Standards.

Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be March 2024. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy.

Rush University PA Program National Certification Board Scores

Graduation Class	2015	2016	2017-1	2017-2	2018	2019	2020	2021
Number of 1st Time Takers	27	28	32	30	29	29	28	29
First Time Pass Rate	100%	100%	94%	100%	100%	100%	93%	100%
National Pass Rate	96%	96%	97%	97%	98%	93%	95%	Pending

The program's overall first-time taker pass rate is 98%

The program's overall PANCE pass rate is 100%

General Information About the PA Profession

As defined by the American Academy of Physician Assistants (AAPA), PAs are nationally certified, state-licensed health professionals who practice medicine as members of a team with physicians and other health care providers. PAs are vital members of the health care team who demonstrate excellence in problem-solving ability, communication skills, and clinical judgment. PAs work in all health care specialties and areas such as hospitals, clinics, operating rooms, and the outpatient setting. PAs also work in public sector health care areas, such as the prison system and the military.

For more information about the PA profession, go to www.aapa.org

The scope of a PA's responsibilities varies according to their practice setting. Generally, PAs have comprehensive patient care responsibilities including, but not limited to conducting physical exams, ordering and interpreting diagnostic tests, diagnosing illness, developing and monitoring treatment plans, prescribing medications, providing patient education and preventive counseling, performing procedures, and assisting in surgery. PAs work collaboratively as integral members of the health care team in the care of patients.

After successfully completing an accredited PA program, all graduates must take a comprehensive exam provided by the National Commission on Certification of Physician Assistants (NCCPA). Once a PA passes the PA National Certifying Exam (PANCE), they may apply for licensure according to individual state guidelines. Each state has a practice act, which outlines legislative rules for PA practice. See an individual state's practice act or contact the state PA association for more information regarding practice in each state.

For specific questions regarding the national PA board exam, visit: www.NCCPA.net

For more information about state specific PA licensing and regulation requirements, visit:

<https://www.aapa.org/advocacy-central/state-advocacy/state-laws-and-regulations/>

PA Career Opportunities, Job Outlook, and Salary

Job prospects for the PA profession are very strong. In 2021, the US News and World Report ranked the PA profession as the #1 best job. The US Bureau of Labor Statistics expects PA jobs to increase by 31% from 2019 to 2029, much faster than average for all occupations, making it one of the top 10 professions for future job growth in the next 10 years. PA salaries are competitive, and PA job security is excellent. According to the AAPA, in 2020, over 150,000 certified PAs are practicing medicine in the U. S. The US Bureau of Labor Statistics reports a median national salary for all PAs of \$112,260. The median salary for a new graduate with less than one year of experience is \$90,500.

For more information regarding the job profile and salary outlook for the PA profession, go to:

The U.S. Bureau of Labor Statistics: www.bls.gov/ooh/healthcare/physician-assistants.htm

The American Academy of Physician Assistants: www.aapa.org/

For More Information about the Physician Assistant Profession

The American Academy of Physician Assistants (AAPA) – The national professional society for PAS. Their website offers useful information for individuals interested in a career as a PA.

The AAPA also offers current information regarding state regulations and practice laws for PAs. Information by state is available at:

<https://www.aapa.org/advocacy-central/state-advocacy/state-licensing/>

The Student Academy of the American Academy of Physician Associates (SAAAPA) – A great site for current and prospective PA students with useful and current information related to being a PA student and the PA profession, at:

<https://www.aapa.org/about/aapa-governance-leadership/student-academy/>

The Illinois Academy of Physician Assistants (IAPA) – the state organization representing PAs in Illinois, IAPA offers great resources for practicing PAs and interested applicants at:

About the Rush University PA Program

The PA Program is designed to provide students with an outstanding education in preparation for a career as a PA with a foundation for leadership and service. Graduates are granted a Master of Science in Physician Assistant Studies degree.

Our 30-month curriculum is innovative and unique, with enhanced rotations that maximize clinical training and patient care experiences. Rush University Medical Center offers extensive resources and settings to provide students with an excellent educational experience.

- The 12-month didactic phase uses lecture, case-based discussions, and skills labs training to prepare students for clinical rotations.
- Our unique, 18-month clinical phase prepares students to practice as generalists while providing an extended immersion in a specific area of clinical practice. Students complete 12 months of core rotations and then progress to 6 months of advanced rotations.
 - Current areas of advanced clinical training include cardiothoracic surgery, orthopedics, vascular surgery, emergency medicine, pediatrics, behavioral health, internal medicine, primary care, pulmonary and critical care medicine, interventional radiology, urology, neurosurgery, geriatrics, and physical medicine and rehabilitation.

Reasons to attend the PA program offered at Rush University include:

- Rush University is a top tier academic medical center located in the heart of the Medical District of Chicago
- Rush University Medical Center has outstanding clinical facilities, including a 376-bed hospital building, known as the Tower, which opened in 2012, and the Midwest Orthopedics at Rush building, which opened in 2010.
- The 2018 U.S. News & World Report's "America's Best Hospital" issue ranked Rush University Medical Center among the top 50 hospitals in 7 Adult Medicine specialties and #2 in the Chicago Metro area.
- For the 3rd time, the Leapfrog Group has named Rush University Medical Center among the top hospitals in the country for quality, safety, and efficiency.
- Rush University has a nationally recognized record of preparing outstanding health care professionals in medicine, nursing, and the allied health fields.
- The Rush PA Program ranks 46th in the nation according to U.S. News & World Report in 2019.
- The Rush PA Program ranked "Best Practice Training Opportunities" and 13th overall by [Intelligent.com](https://www.intelligent.com/).
- Rush University offers a unique Teacher-Practitioner model, which integrates patient care, research, and service into the teaching-learning process.
- The PA faculty are dedicated to providing our students with the best training and education possible.
- Small class sizes of approximately 32 students and low student-faculty numbers provide individualized attention and enhance the student learning experience.
- The PA students at Rush University are an integrated group in the hospital training system.
- Our graduate's first-time PANCE pass rate consistently exceeds the national average.

PA Program Mission, Vision and Goals

Mission Statement

The Rush University PA Program mission is to educate advanced healthcare providers to practice evidence-based medicine with competence, professionalism, and compassion driven by academic excellence and service to diverse communities

Program Vision

The Rush University PA Program strives to be a national leader in educating exceptionally qualified PAs to transform clinical and professional practice.

Goals

The goals of the Rush University PA Studies program are:

- Prepare PAs to practice interprofessional, patient-centered care
- Promote leadership, service, and advocacy to the profession
- Provide enhanced training opportunities to students in various areas of clinical practice
- Prepare PAs who use evidence-based methods to plan, develop, and deliver high quality, cost-effective healthcare
- Promote an environment of diversity, equity, inclusion, and cultural humility

In addition to maintaining these values, the PA Program is committed to fulfilling the mission, vision, and values of the College of Health Sciences and Rush University Medical Center.

Admission Selection Criteria 2022-2023 Application Cycle

Temporary Changes to the Program's Admissions Standards for 2022-2023 Cycle:

- We will accept passing grades taken in a Pass/Fail system for any course taken from May to December 2020.
- We will accept passing grades taken in a Pass/Fail system for up to 2 required, prerequisite courses taken from May to December 2020. Candidates must have letter grades for 4 of the 6 required courses.
- Candidates are encouraged, but not required, to complete the CASPer assessment. CASPer information is available at: <https://takecasper.com/>. Taking the CASPer assessment is **not** a requirement for admission for 2022-2023.
- We will accept virtual shadowing hours completed from 2020 to the present.
- All interview sessions will be held virtually.

Requirements for Admission to the PA Program

Admission to the PA program is extremely competitive. The program bases its admissions decisions on the following: candidates' general and science course GPA, type and quality of prior health care experience, experience working with or shadowing PAs, leadership and community service activities, professionalism, communication skills, letters of reference, and personal statement quality. The following are specific admissions requirements to keep in mind.

1. **A bachelor's degree from an accredited college or university before enrollment into the program.**
Candidates can begin applying in their senior year of college, provided that they successfully graduate by the program's start date in May. Candidates must have their bachelor's degree before enrolling into the program.
2. **A minimum grade point average (GPA) of 3.0 on a 4.0 scale for both total and science GPAs.**
The higher a candidate's GPAs, the more competitive the application. GPAs of 3.3 or higher in both total and science GPAs are competitive. GPAs of 3.5 or higher for both total and science GPAs are highly competitive.
3. **Documented hands-on, direct patient contact experience in a healthcare setting, accrued within seven years of application submission.**
A minimum of 1,000 hours of direct patient contact experience as a paid employee is required at the time of application submission. Having more than 1,500 hours is competitive, and more than 2,500 hours is highly competitive. Experience collaborating with PAs, Nurse Practitioners, or physicians is highly competitive.
4. **A completed application submitted to the Central Application Service for Physician Assistants (CASPA).** The following items are submitted directly to CASPA:
 - a. **Official transcripts from every U.S. college or university attended.** For coursework completed outside the United States, candidates need to submit an international course evaluation from either World Education Services (WES, <https://www.wes.org/>) or Education Credential Evaluators (EEC, <https://www.ece.org/>).
 - b. **Letters of Reference.** We require three letters of reference. We recommend references be from educators, PAs, MDs, or other professionals that candidates have worked with who can speak to medical skills, academic performance potential, commitment to service, and leadership capacity. At least one reference should be from a physician, PA, or other health professionals, and one should be from a college or university instructor. Personal references from family and friends are not competitive for admission to the program. Refer to CASPA for instructions on completing the online evaluation.
 - c. **Personal statement.** This statement should describe why the candidate wants to be a PA.

5. The following **prerequisite courses** must be completed with a grade of “C” or higher. Human Anatomy, Human Physiology, Biochemistry, and Microbiology must be taken within seven years of planned matriculation in the program. If a candidate plans to start the program in 2023, these courses must be taken by the Summer 2016 term or later.

Prerequisite	Minimum Semester Credit Hours	Minimum Quarter Credit Hours
Human Anatomy	3	4
Human Physiology	3	4
OR a two-course sequence combined Human Anatomy & Physiology course	5 combined	7 combined
Biochemistry	3	4
Microbiology (with lab preferred but not required)	3	4
Psychology or equivalent course work in the behavioral sciences	3	4
Statistics	3	4

6. While not a requirement for admission, **leadership and/or community service** are highly valued and will contribute to the competitiveness of a candidate’s application.
7. Final admissions decisions are based on an **interview** with members of the PA program faculty and other university faculty and leaders. Candidates who are invited for an admissions interview must complete a supplemental application and pay a \$40 supplementary fee. Information regarding this supplement is provided with an interview invitation.
8. All applicants must meet the minimum requirements to perform the essential functions of a PA. **See the Technical Standards sheet, pages 19-20, for more information.**
9. Admission is contingent upon successful completion of a health assessment, criminal background check, and drug screening processes before matriculation. Information regarding this requirement is discussed during interviews.
10. Applicants with coursework or a bachelor's degree conferred outside of the United States must submit a course equivalence evaluation by either World Education Services (WES) or Education Credentials Evaluators (ECE)
11. TOEFL scores – if English is not a candidate’s native language, they are required to take the TOEFL before applying to the program. Please review the Rush College of Health Sciences policy on the TOEFL, at: <https://www.rushu.rush.edu/college-health-sciences/about-college/information-applicants/toefl-international-applicants>, for more information.

Due to the highly competitive nature of the application process, meeting posted admission criteria does not guarantee candidates a program interview.

The program admits one class per year. Attendance in the program is on a full-time basis only.

The program does not offer advanced standing, accept transfer credits, or waive any prerequisite or other admission requirement, regardless of a candidate’s previous professional or academic experience.

The PA program admits students into the class on a rolling basis, which means we accept candidates to the class at each interview session. Under a rolling admissions process, it is possible to fill all seats in the class before the admission cycle closes. It is to the applicant’s advantage to fulfill and submit all application materials as early as possible.

Regarding prerequisite course requirements, please note the following:

- We do not make any course acceptance decisions without a CASPA application on file. If we have any questions regarding a course's eligibility to meet our requirements, we will contact the candidate after reviewing the completed CASPA application. Candidates may be asked to provide the program with a copy of the official course syllabus, course catalog description, and a copy of the lecture topic outline. It is a good idea to keep all undergraduate course materials prior to applying to PA school.
- We accept courses taken at any U.S., regionally accredited 2- and 4- year college or university of higher education, including online courses offered through such programs.
 - We do not accept coursework taken through non-degree-granting programs.
 - Courses taken at nationally accredited institutions are evaluated towards admissions eligibility on a case-by-case basis.
 - Advanced placement and CLEP courses are not accepted towards meeting prerequisite course requirements.
 - For all prerequisite coursework taken at a non-U.S. or Canadian degree-granting institution, a WES or ECE evaluation is required at the time of application submission.
- Candidates must have four of the six prerequisite courses completed at the time of application in order to be eligible for review. If a candidate has outstanding prerequisites, they must be completed with a grade of "C" or higher before the start of the program.
 - **Note:** If a candidate has only taken one of a 2-course sequence Human Anatomy/Human Physiology course to fulfill prerequisite requirements, they are missing both human anatomy and human physiology courses.
 - We do not accept combined Organic & Biochemistry courses. Biochemistry must be a stand-alone course.
- Candidates must complete all course work with a minimum final grade of a "C" or higher by the program start date. Acceptance offers to candidates with outstanding prerequisites are conditional, pending successfully completing all course requirements. If a candidate does not complete all prerequisite courses before the program start date, they forfeit their seat in the class.
- Below is a list of the minimally expected content for the program's prerequisite courses. If a prerequisite course includes these topics, it should fulfill the program's admission requirements:
 - **Human Anatomy** – covers the structure and function of the major human organ systems. Includes the musculoskeletal, nervous, circulatory, respiratory, digestive, urinary, endocrine, and reproductive systems.
 - **Human Physiology** – discusses basic biochemical principles, including cytology, histology, immunology, and the function and interaction of the major organ systems of the human body.
 - **Biochemistry** – discusses the relation of molecular structures to the functional processes of living organisms, such as kinetics, enzymatic reactions, metabolic pathway functions, and the genetic code. Includes the structure of amino acids, nucleotides, lipids, and sugars and their corresponding macromolecular structures, such as proteins, nucleic acids, cell membranes, and polysaccharides.
 - **Microbiology** – covers the biology of microorganisms - bacteria, fungi, protozoa, and viruses - that impact human health. The course covers the identification, physiology, control, host defense, and the relationship of microorganisms to health and disease.
 - **Psychology/Behavioral Sciences** – covers the major principles of behavioral science, including factors influencing behavior, personality, and mental processes, and the science of psychological investigation. A wide range of courses related to human behavior and psychosocial dynamic are acceptable towards meeting this requirement.
 - **Statistics** – discusses statistical reasoning and methodologies. Content should include methods for data analysis, correlation and regression, sampling and experimental design, basic probability theory, normal and binomial distributions, hypothesis testing, and confidence intervals for means, proportions, and regression parameters. A wide range of courses that address statistical methodologies are acceptable towards meeting this requirement.

Additional Factors for Admissions Consideration

Rush University and the PA Program are committed to creating a class environment that mirrors our diverse community and supports access and inclusion among our students. While all candidates must meet posted minimum admissions criteria, candidates with any of the following factors indicated on their CASPA application are given priority consideration towards an admissions interview and is reviewed on a case-by-case basis:

- Military veterans
- Persons from an underrepresented minority group in the healthcare sciences*
- Persons from economically disadvantaged backgrounds
- First person to attend a higher education training program in their family
- Current students in the Rush University Bachelor of Health Science Program who meet any of these additional factors criteria and who receive endorsement from a Health Science Program faculty member.

* Rush University currently defines URM in the healthcare sciences as Black/African American, Hispanic/Latin, Native American, and Hawaiian/Pacific Islander.

Frequently Asked Questions

1. Will you screen my qualifications for admissions eligibility before I apply to the program?

Unfortunately, we do not offer individualized pre-admissions counseling. We also cannot make any admissions eligibility decisions without your official CASPA record on file. Please review all our application information carefully to determine their admissions eligibility before applying to the program. We can address any questions you may have regarding our admissions standards by phone or email.

2. How will I know if my healthcare experience is acceptable for admission to the program?

We do not define “eligible” types of healthcare experiences (HCE). Every application is weighed on its own merits depending on how you describe your activity and interaction with patients, PAs, physicians, and the larger healthcare team. Your application should clearly and briefly describe your HCE. Please provide succinct details regarding the nature of your experience, your roles and responsibilities, and your interactions with PAs and other providers in the health care setting. Do not assume that your title sufficiently describes your duties and responsibilities. Be concise and descriptive. Documenting your experience helps the admissions committee understand your accomplishments and level of preparedness for PA school.

Review the HCE description on Page 7. The more you exceed the criteria described, the more competitive your application.

3. Are there any other factors to consider when I look for health care experience?

Yes, some additional factors include:

- a. The experience should entail working with PAs, nurse practitioners, and/or physicians in a health care setting as much as possible.
- b. Health care experience must be within seven years prior to application to the program, from 2016 and later. Health care hours accrued before 2016 are not considered towards admission to the program.
- c. Health care hours attained while in a clinical training program – for example, patient contact hours during nursing or medical school – **do not** count towards the requirement.

4. Is working with or shadowing PAs required for admission?

No. However, working with or shadowing PAs will give you an understanding of a PA's role on the health care team. It is to your advantage to have work or shadowing experience with PAs prior to applying to PA school.

5. Does the PA program offer applicants assistance in finding clinical work or shadowing experience?

No. We cannot help candidates find clinical experience.

6. Once I submit all of my application materials, how long before I hear if I will receive an interview?

It can take up to 12 weeks after receipt of your verified application to be notified of your interview status in the program.

7. Do you give preference to Illinois residents?

No. Rush University is a private institution and residency status is not a factor of consideration in admission decisions or tuition costs.

8. How competitive is admission to the program?

Extremely. To give you an idea, in the 2021-2022 application cycle, we received 2,850 applications and reviewed over 2,000 applications for a final class size of 32 students. Only 1% of applicants are offered a seat in the class. Successful applicants who enter the program always significantly exceed our posted admissions criteria.

9. What is the profile of the typical successful applicant to the Rush University PA Program?

The enrolled student profiles for the past five years are listed below by year of planned graduation.

Class of 2019	Class of 2020	Class of 2021	Class of 2022	Class of 2023
Starting Class Size: 30 Students	Starting Class Size: 30 Students	Starting Class Size: 30 Students	Starting Class Size: 30 Students	Starting Class Size: 29 Students
Female: 25 Male: 5 Median Age: 25 Years	Female: 21 Male: 9 Median Age: 27 Years	Female: 25 Male: 5 Median Age: 26 Years	Female: 19 Male: 11 Median Age: 25 Years	Female: 21 Male: 8 Median Age: 25 Years
URM in Medicine: 3%	URM in Medicine: 3%	URM in Medicine: 7%	URM in Medicine: 17%	URM in Medicine 21%
Median GPA Total: 3.50 Median GPA Science: 3.51 Median GRE Score: 309 Median Healthcare Hours: 2,000	Median GPA Total: 3.42 Median GPA Science: 3.37 Median GRE Score: 309 Median Healthcare Hours: 2,600	Median GPA Total: 3.53 Median GPA Science: 3.50 Median GRE Score: 310 Median Healthcare Hours: 3,520	Median GPA Total: 3.50 Median GPA Science: 3.29 Median GRE Score: 309 Median Healthcare Hours: 4,286	Median GPA Total: 3.50 Median GPA Science: 3.5 GRE not required Median Healthcare Hours: 4,972
Attrition: 1/3% Deceleration: 2/7% Graduation: 97%	Attrition: 2/7% Deceleration: 0 Graduation: 93%	Attrition: 0 Deceleration: 1/3% Graduation: 97%	Attrition: 4/13% Deceleration: 2/9% Graduation: Pending December 2022	Attrition: 0 Deceleration: 0 Graduation: Pending December 2023

URM = underrepresented minority. Rush University currently defines URM in medicine as Black/African American, Hispanic/Latin, Native American, and Hawaiian/Pacific Islander.

The program as an overall 95% graduation rate.

10. What types of healthcare experience (HCE) do successful applicants to the program have?

The clinical experiences of enrolled students include, but are not limited to, the following: MA, CNA, EMT, PCT, Clinical Research Coordinator, Scribe, Athletic Trainer, ER Tech, Nurse, Paramedic, Sonographer, Respiratory Therapist, and Dietitian. All successful applicants have extensive hours and document working with or shadowing PAs, Nurse Practitioners, and MDs.

11. What is the purpose of the third-year clinical rotations?

The third-year rotations are an opportunity for students to refine their patient care skills through an immersive clinical experience. The additional six months give students more patient management experience, enhanced clinical knowledge, and greater confidence prior to graduation. These advanced practice rotations set Rush's PA Program apart from others.

12. Will I be taking classes with other students at Rush?

Yes. As part of the core curriculum, several classes are co-taught with students from different College of Health Sciences programs. Also, Rush offers an interprofessional learning course for all students from all programs during their first year in the program.

13. Will I be on rotation with students from other programs?

Yes. During clinical rotations, you will function as a member of a health care team. In many rotations, you will be working alongside other learners from several health care disciplines, as well as learners from other institutions.

14. Where are clinical rotation sites located?

We provide our students with a wide variety of experiences in various types of clinical settings, including hospitals, outpatient clinics, and private practices. All students are required to complete some rotations outside of Rush. We consider a 90-mile drive from our campus to be a local rotation area.

15. Can I work while completing the PA program?

No. The PA program is an intensive, full-time curriculum. The rigorous class and study schedule needed to succeed in the program makes working at an outside job impossible at any time during the program. For this reason, students in the program also cannot participate in any student work-study programs.

16. Can I attend the Rush PA Program on a part-time basis?

No. We do not offer a part-time or decelerated curriculum.

17. Does Rush offer a bachelor's degree in PA?

No. Rush University's program is an entry-level master's program. You must have a bachelor's degree prior to enrolling into the program.

18. Does Rush University have student housing?

The university does not have on-campus housing, however there are many housing options available in the city. For more information, contact the Office of Student Life and Engagement at (312) 942-6302 or visit the Rush University website, here <https://www.rushu.rush.edu/rush-experience/student-services/student-life-and-engagement>

19. Do you accept transfer students? Do you offer advanced standing to students based on prior educational or professional experience?

No. The PA program curriculum must be completed in its entirety at Rush. We do not offer advanced standing or transfer credits into the program, regardless of your prior educational or work experience.

20. When do classes begin?

We admit one class of students annually. Classes start in May of each year and new students cannot enroll in the program once the class has started.

21. Are your graduates employed? Are your graduates well prepared to pass the PANCE?

All graduates have reported working as PAs. 30% of our graduates have been employed at Rush after graduation.

22. Are your graduates well prepared to pass the PANCE?

Yes. The program has a 98% first time taker pass rate on the PANCE, and an overall 100% pass rate for all graduates.

Thank you for your interest in the Rush University PA Program!

Academic Year 2022-2023 Curriculum

Program Year 1- Core Didactic Curriculum Courses

Term I – Summer

Semester Hours

PHA 510	Human Physiology	2
PHA 511	Human Anatomy	4
PHA 512	History & Physical Examination	3
PHA 513	PA Professionalism and Practice I	2
PHA 514	Clinical Medicine I	4
PHA 515	Diagnostic Methods	1

Term II – Fall

Semester Hours

PHA 520	Principles of Clinical Pharmacology I	3
PHA 521	Research & Statistics	2
PHA 522	Diagnostic Reasoning I	2
PHA 523	PA Professionalism and Practice II	2
PHA 524	Clinical Medicine II	6
PHA 525	Principles of Advanced Practice I	2

Term III – Spring

Semester Hours

CHS 605	Ethics in Health Care	2
PHA 530	Principles of Clinical Pharmacology II	3
PHA 532	Diagnostic Reasoning II	2
PHA 533	PA Professionalism and Practice III	2
PHA 534	Clinical Medicine III	6
PHA 535	Principles of Advanced Practice II	2
PHA 536	Emergency and Surgical Medicine	2

Total Credit Hours for Program Year 1:

52

Program Year 2 – Clinical Curriculum Courses

Second Year Rotations Sample Sequence - Individual Rotations Will Vary

Term I – Summer	Rotation Duration	Semester Hours
PHA 581 Family Medicine	4 weeks	4
PHA 582 Internal Medicine I	4 weeks	4
PHA 583 Internal Medicine II	4 weeks	4
PHA 584 General Surgery I	4 weeks	4
Term II – Fall	Rotation Duration	Semester Hours
PHA 585 General Surgery II	4 weeks	4
PHA 586 Women's Health	4 weeks	4
PHA 587 Pediatrics	4 weeks	4
PHA 588 Behavioral Health	4 weeks	4
Term III – Spring	Rotation Duration	Semester Hours
PHA 589 Long Term Care/Geriatrics	4 weeks	4
PHA 590 Emergency Medicine	4 weeks	4
PHA 591 Elective I	4 weeks	4
PHA 592 Elective II	4 weeks	4
Total Credit Hours for Program Year 2:		48

Program Year 3 – Advanced Clinical Curriculum Courses

Term I – Summer	Rotation Duration	Semester Hours
PHA 593 Advanced Clinical Practice I	15 weeks	15
PHA 595 Master's Research Project I	15 weeks	1
Term II – Fall	Rotation Duration	Semester Hours
PHA 594 Advanced Clinical Practice II	15 weeks	15
PHA 596 Master's Research Project II	15 weeks	1
3rd Year: Total Semester Credits		32
PA Program Total Credits for 30 Months		132

The Rush University PA Program's Commitment to Service

Rush University is in the Medical District of Chicago, a major metropolitan area representing some of the nation's most diverse and medically underserved populations. Since its inception, the PA Program has committed to advancing Rush's community service initiatives.

Rush has a long-standing connection to the community through its Community Engagement and the Rush Community Service Initiatives Program (RCSIP).

RCSIP provides students with a resource for community-based volunteer experiences throughout the Chicago area. RCSIP projects give students valuable experience by serving the underserved and disenfranchised, and fostering collaboration with community representatives, Rush faculty, and fellow students from various programs.

The following is a brief list of some the RCSIP activities in which PA students participate.

Clinical Programs

Franciscan House of Mary & Joseph

2022-2023 Estimate of Costs

The PA Program charges a flat tuition fee, by term, based on the 30-month curriculum. There are no additional fees associated with attending Rush.

Tuition for the 2022-2023 academic year is \$102,360. The total tuition amount is evenly divided across each term of the program, equal to \$12,795 per term. There are no additional fees to attend Rush University.

Estimated cost information is provided for planning purposes only.

For more information about financial aid, visit <https://www.rushu.rush.edu/rush-experience/student-services/office-student-financial-aid>. Individual financial need is based on personal preferences and circumstances.

To determine your specific financial aid needs, speak with a representative in the Office of Financial Aid at: **(312) 942-6256**, or email them at: financial_aid@rush.edu.

Estimated Costs	First Year	Second Year	Third Year
Books, Equipment, and Supplies	\$2,400.00	\$250.00	\$250.00
Student Memberships	\$110.00	\$50.00	\$50.00
Miscellaneous Expenses	\$300.00	\$300.00	\$300.00
Tuition:	\$38,385.00	\$38,385.00	\$25,590.00
ESTIMATED TOTALS:	\$41,195.00	\$38,935.00	\$26,190.00

**** Note all costs are subject to change without notice; tuition is subject to change at a rate of 2-5% annually.**

PA Program Scholarships

Rush University and the College of Health Sciences offer limited scholarship awards to incoming students in the PA program, and award amounts vary annually. In 2021, the College of Health Sciences awarded over \$255,000 in scholarships to incoming PA students, benefiting more than one-third of the class. The following is a list of the PA Program's scholarships:

PA Program Scholarship - a merit- and need-based scholarship to offset the cost of tuition. Total award amount is approximately \$150,000 annually. Merit is determined by undergraduate performance, and need is determined by FAFSA.

CHS Diversity Scholarship - a College of Health Sciences award to promote diversity recruitment for all programs. Award amount is equivalent to the total cost of tuition and is divided among eligible candidates. This scholarship is awarded based on need and meeting underrepresented minority (URM) in healthcare requirements. Rush University currently defines URM in healthcare as Black/African American, Hispanic/Latin, Native American, and Hawaiian/Pacific Islander.

Grainger Scholarship - a competitive scholarship award to promote leadership and service. Successful awardees must design a community service project that aims to aid an underrepresented or underserved community in the Chicago area. With the guidance of faculty and institutional leaders, awardees will implement and collect outcomes data on their project. Scholarship application information is provided upon admission to the program. The award amount is \$40,000 to two to three incoming students annually.

For more information regarding scholarships, contact the College of Health Sciences Admissions Office at chs_admissions@rush.edu.

For information regarding general financial aid options, contact the Office of Financial Aid at: financial_aid@rush.edu or **(312) 942-6256**.

College of Health Sciences Technical Standards

The following are the universal technical standards that apply to all clinical training students in the Rush University College of Health Sciences. These standards apply to all students enrolled in the PA Program.

PA Program Technical Standards:

Rush University is committed to diversity and to attracting and educating students who will make the population of health care professionals representative of the national population.

Our core values — ICARE — Innovation, Collaboration, Accountability, Respect and Excellence, translate into our work with all students, including those with disabilities. Rush actively collaborates with students to develop innovative ways to ensure accessibility and creates a respectful accountable culture through our confidential and specialized disability support. Rush is committed to excellence in accessibility; we encourage students with disabilities to disclose and seek accommodations.

The following technical functions are required of all students enrolled in the Physician Assistant Program.

Acquire Information:

- Acquire information from demonstrations and experiences in courses such as lecture, group, and physical demonstrations.
- Acquire information from written documents and computer systems (e.g., literature searches & data retrieval).
- Identify information presented in accessible images from paper, slides, videos with audio description, and transparencies.
- Identify information presented in images from paper, slides, videos, and transparencies.
- Recognize and assess patient changes in mood, activity, cognition, verbal, and non-verbal communication.

Use and Interpret:

- Use and interpret information from assessment techniques/maneuvers.
- Use and interpret information related to physiologic phenomena generated from diagnostic tools.

Motor:

- Possess psychomotor skills necessary to provide or assist in holistic Physician Assistant care and perform or assist with procedures and treatments.
- Practice in a safe manner and appropriately provide Physician Assistant care and assessment in emergencies and life support procedures and perform universal precautions against contamination.

Communication:

- Communicate effectively and sensitively with patients and families.
- Communicate effectively with faculty, preceptors, and all members of the healthcare team during practicum and other learning experiences.
- Accurately elicit information including a medical history and other information to adequately and effectively evaluate a population's, client's or patient's condition.

PA Program Technical Standards, continued:

Intellectual Ability:

- Measure, calculate, reason, analyze, and synthesize data related to diagnosis and treatment of patients and populations.
- Exercise proper judgment and complete responsibilities in a timely and accurate manner according to the “program name” role.
- Synthesize information, problem solve, and think critically to judge the most appropriate theory, assessment, or treatment strategy.

Behavioral:

- Maintain mature, sensitive, effective relationships with clients/patients, families, students, faculty, staff, preceptors and other professionals under all circumstances.
- Exercise skills of diplomacy to advocate for patients in need.
- Possess emotional stability to function under stress and adapt to rapidly changing environments inherent to the classroom and practice settings.

Character:

- Demonstrate concern for others, integrity, accountability, interest, and motivation are necessary personal qualities.
- Demonstrate intent and desire to follow the Rush University and Physician Assistant Code of Ethics.

All students in the PA Program must meet the technical standards delineated above, with or without accommodation.

Upon reviewing the technical standards, a student who needs accommodation(s) to engage in the program fully should contact the Office of Student Disability Services for assistance. All communications with the Office of Student Disability Services are confidential.

The Office of Student Accessibility Services may be reached at: <https://www.rushu.rush.edu/office-student-accessibility-services>.

Given the clinical nature of our programs, time may be needed to implement accommodations. Accommodations are never retroactive; therefore, timely requests are essential and encouraged.

Thank you for your interest in the Rush University PA Program!
