<a href="#">Joan K. Stout, RN, Research Grant</a> *	<p>The purpose of the Sigma/Joan K. Stout, RN, Research Grant is to advance ongoing evidence-based study by nurse researchers on the impact of the practice of simulation education in schools of nursing and clinical care settings.</p> <p><b>Research Funding</b> The allocation of funds is based upon a research project that is ready for implementation. The proposed research project should be designed to ensure the ongoing practice of nurse-led simulation in improving quality of care in clinical and/or academic settings with the potential for further funding and ongoing research. Funds provided by interest from a research endowment established at Sigma Foundation for Nursing, with a donation by the Hugoton Foundation.</p> <p>Sigma Foundation for Nursing board of directors named the research grant in honor of Hugoton Foundation president Joan K.
