Subject: New Restrictions to AAC Building

Rush University

COVID-19 Update

To: All Rush University
Subj: New Restrictions to AAC Building
Date: March 19, 2020

The continued spread of novel coronavirus in Chicago and the ongoing increase in cases under investigation at Rush University Medical Center has necessitated additional screening of patients in clinics on the first floor of Armour Academic Center (AAC).

Given the clinical services expansion to the academic building, unauthorized individuals cannot enter AAC for any reason effective immediately.

To protect our community, all Rush University students, faculty and staff must now learn, teach, and work remotely.
