Faculty Recognition

RECEPTION

Dear Faculty,

I am thrilled to have the opportunity to congratulate the winners of the 2016-2017 Faculty Excellence Awards. I also want to congratulate the faculty members who received other awards, and everyone who was promoted and appointed to senior faculty ranks throughout the University during the past academic year.

Rush University is fortunate to benefit from all of the dedicated and talented faculty members who make significant and lasting contributions to the personal and professional lives of countless patients, families, colleagues and trainees. In the process, they enrich our academic community and beyond in immeasurable ways.

There will be many challenges ahead in academic health care, but I feel truly fortunate to work in such wonderful company. Thank you for joining me in celebrating the accomplishments of the Rush University faculty.

Sincerely,

Thomas A. Deutsch, MD
Provost, Rush University

Faculty Recognition

RECEPTION

Dear Faculty,

It is my great pleasure to welcome you to the seventh annual Faculty Recognition Reception to celebrate the great work of our faculty. Please join me in congratulating the Rush Faculty Excellence Award winners, nominees and all of our faculty members for their exceptional achievements, leadership, academic appointments and promotions.

The hard work and accomplishments of our faculty have led to the ever-growing reputation and image of Rush University. I am proud of our faculty who represent excellence in clinical, education and research endeavors. The service that Rush faculty provide to the institutional, local, regional, national and global communities is extraordinary and extremely impactful.

It is an honor for my office, the Office of Faculty Affairs, to support your professional, career and leadership development, which we provide along with mentoring programs to enhance your skills, knowledge and expertise focusing on faculty satisfaction, diversity and equity. We are here to enrich faculty academic life, cultivate leaders and promote career advancement.

Thank you for your participation in our programs and advocacy of our office. We look forward to the productive and fulfilling years to come.

Sincerely,

Susan Chubinskaya, PhD
Associate Provost, Faculty Affairs, Rush University

FACULTY EXCELLENCE AWARD NOMINEES

Excellence in Clinical Service

Mark S. Cohen, MD
Leslie Deane, MBBS, FRCSC
Sarah Everakes, MD
Rani Ganesan, MD
Michael Hanak, MD, FAAFP

Excellence in Community Service

Shital Shah, PhD
Laura Vasquez, MS, RVT (ARDMS), RT (R) (MR) (ARRT)

Excellence in Education

Thomas Cutting, MBA
Mary E. Johnson, PhD, RN, PMHCNS-BC, FAAN
Dinesh Kalra, MD
Nadine Lerret, PhD, MLS(ASCP)^{CM}
Andrea Madrigano, MD
Joan Ann O'Keefe, PhD, PT

Excellence in Mentoring

Elizabeth A. Baker, MD, MHPE
Animesh Barua, PhD
Louis Fogg, PhD
Paolo Gattuso, MD
Heather Rasmussen, PhD, RD
Sasha Shafikhani, PhD

Excellence in Research

Kerry Ebert, PhD, CCC-SLP
Jochen Reiser, MD, PhD

Joan Ann O'Keefe, PhD, PT

Excellence in Mentoring

Elizabeth A. Baker, MD, MHPE

Louis Fogg, PhD

Excellence in Research

Jochen Reiser, MD, PhD

EXCELLENCE IN CLINICAL SERVICE

Mark S. Cohen, MD

Mark S. Cohen, MD, professor in the Department of Orthopedic Surgery, has been the director of the Section of Hand, Wrist and Elbow at Rush University Medical Center for 24 years, and he currently serves as director of Orthopedic Education in the department. His clinical and research interests focus on fractures and reconstruction of the hand, wrist and elbow, with a special emphasis on minimally invasive surgery. Cohen has special training and expertise in complex elbow conditions including the throwing athlete (Tommy John surgery) and other sports related injuries.

Kalipada Pahan, MD, professor in the Department of Neurological Sciences and Cohen's nominator, shares the following personal story about Cohen:

After a car accident, "I had heterotrophic ossification (extra bone formation) in my elbow, hip and ankle. Nobody wanted to do the surgery to remove the extra bone from my left elbow since it was risky. Fortunately, Dr. Cohen took the challenge. Even after the surgery was done, he constantly advised the occupational therapists who were treating me and followed the updates from them until my hand was normal." Pahan further shares, "Dr. Cohen's desire to take challenges, commitment to care, interpersonal interactions and professional relationships are of the highest caliber."

According to the *U.S. News & World Report*, Cohen is within the top 1 percent of physicians in his specialty in the nation. *Chicago* magazine has consistently ranked Cohen among its Top Doctors in hand and orthopedic surgery since 1997.

He has authored more than 125 medical articles, 56 book chapters, and he has written a textbook on hand and wrist injuries. In addition, he is an editor of *Green's Operative Hand Surgery*, the most widely read and recognized hand and elbow surgery textbook in the world. He has won several research, teaching and achievement awards, and is a member of 16 national and international medical societies and associations.

EXCELLENCE IN CLINICAL SERVICE

Rani Ganesan, MD

Rani Ganesan, MD, has been part of the faculty at Rush in the Department of Pediatrics since 2008. When she first arrived at Rush University Medical Center, Ganesan led the implementation and sustained use of a semistructured rounding tool that continues to be used. It has helped standardize patient care discussion and participation of nursing and families during rounds. This work has been presented at national conferences as a model for including families on rounds.

In 2012, she established the Pediatric Supportive and Palliative Care service line, serving “as medical director, leader and inspiring force,” shares nominator Renee Slade, MD, FAAP, assistant professor, Department of Pediatrics, Rush University. As the director of the service line, Ganesan has worked with a nurse practitioner and a part-time social worker to support more than 200 patients and families with symptom management, end-of-life decision making, and advanced care coordination. The service line is one of three funded in The Coleman Foundation Supportive and Palliative Medicine Collaborative for Pediatric Oncology.

Ganesan also created a palliative care elective for the Pediatric residency program, providing an opportunity for physicians-in-training to develop the skills to deliver difficult news, managing complex conditions and provide counseling for advance directive options.

Valerie Kalinowski, MD, MHA, chief of Clinical Operations and medical director, Pediatric Intensive Care Unit, Rush University Children’s hospital, shared the following in her letter of support for Ganesan: “After discussing a challenging case with Rani, I consistently and unfailingly have more clarity as to how to direct conversations and provide better family centered care.”

Jean M. Silvestri, MD, associate professor, Department of Pediatrics, also wrote a letter in support of Ganesan: “She created an innovative program, collaborates among all members of the health care team, is accountable to our families and staff, and respects family and provider values.”

EXCELLENCE IN EDUCATION

Mary E. Johnson, PhD, RN, PMHCNS-BC, FAAN

Mary E. Johnson, PhD, RN, PMHCNS-BC, FAAN, professor in the Department of Community, Systems and Mental Health Nursing, has been a faculty member in the College of Nursing (CON) for almost 25 years. She has taught across the curriculum from undergraduate nursing students to PhD students. Her teaching experiences range from face-to-face traditional lecture halls, online formats and individualized one-on-one mentoring of Doctor of Nursing Practice (DNP) students. Her teaching focus has been in psychiatric mental health nursing, qualitative research methods, theory development and application, and the DNP project development courses.

Currently, she is the assistant dean and director of specialty education in the College of Nursing. In this capacity, she has assisted in transforming the Master's in Nursing Science programs to a Doctor of Nursing Science specialty curriculum. One of the challenges Johnson faced in her role is how to develop curriculum across the many specialty DNP programs for the scholarly project. In order to understand and enhance the curriculum, she teaches the first of the DNP project courses and acts as an adviser and project chair to many DNP students. This allows her to identify areas where the curriculum is effective and identify areas of improvement.

“Dr. Johnson’s teaching accomplishments include developing courses that initiated our Psychiatric Advanced Practice Nursing Program and guiding multiple PhD projects involving qualitative research methods. In this regard, Dr. Johnson developed national prominence for her expertise in Hermeneutic analysis,” says Kathleen R. Delaney, PhD, PMHNP, FAAN, professor in the Department of Community, Systems and Mental Health Nursing, who wrote a letter of support for Johnson.

Johnson also attends monthly student council meetings and works collaboratively with DNP students. She has advised more than 50 prelicensure students and 32 psychiatric-mental health nursing master’s students.

EXCELLENCE IN EDUCATION

Joan Ann O'Keefe, PhD, PT

Joan Ann O'Keefe, PhD, PT, is an assistant professor in the Department of Cell and Molecular Medicine. She began her teaching career at Rush in the medical gross anatomy and neurobiology courses in Rush Medical College on a part-time basis in 2009. In 2011, she added graduate histology to her teaching and became a core faculty member for Introduction to Neurobiology for the College of Nursing while continuing to teach content for the newly developed integrated curriculum for Rush Medical College. O'Keefe is director for the Neurobiology course for both the Graduate College and the College of Nursing.

O'Keefe teaches in a variety of capacities: course/block director, lecturer, lab director and small group discussion leader. While teaching the histology component of the M1 curriculum, she noted that students struggled with examinations. She then drafted individual summary slides of each laboratory session, providing important features that students needed to know. Consequently, histology grades rose dramatically. O'Keefe was recently accepted into the Mark Lepper, MD, Society of Teachers at Rush Medical College.

O'Keefe ensures that her teaching extends from the classroom into her research. Her main research emphasis is studying fragile X tremor and ataxia syndrome. She received a K01 grant from the National Institutes of Health.

Presently, she is educating and mentoring three Occupational Therapy students in projects that will last throughout the course of their education. Nicollette Purcell, a student whom O'Keefe taught and mentored, emphasized the following in her letter of support: "Despite my lack of research experience, Dr. O'Keefe was thrilled to take me on and immediately began training me."

O'Keefe has educated 10 M1 Rush Dean's Fellowship students, other summer medical students and research associates. She has lectured at UIC's Physical Therapy Program. Most recently, she has been invited to provide an educational grand rounds presentation to the Department of Rehabilitative Medicine at the National Institutes of Health and to be a symposium speaker for the upcoming International Society for Posture and Gait Research World Congress.

EXCELLENCE IN MENTORING

Elizabeth A. Baker, MD, MHPE

Elizabeth A. Baker, MD, MHPE, is an associate professor and vice chair of education in the Department of Internal Medicine and senior associate dean at Rush Medical College. She has been at Rush since completing her residency and chief residency in internal medicine in 1991. She has a master's in health professions education and is currently working on her PhD in curricular studies/medical education at the University of Illinois at Chicago.

Baker began her role at Rush as a core faculty member in the Internal Medicine Residency Program and as the assistant clerkship director in Internal Medicine, eventually serving as the clerkship director for almost 15 years. During that time, she wrote more than 70 letters of recommendation a year for residency applications for students. In 2010, she received the Phoenix Award, which is given to a single faculty member who exhibits the professional and personal qualities the class would like to emulate as physicians.

Baker has led those she mentored to become involved in local and national organizations that end up guiding career trajectories. Elaine Chen, MD, assistant professor in the Department of Internal Medicine, first met Baker as a third year medical student and has considered her a mentor for more than 10 years. Chen says, "I always leave Beth's office feeling energized and more confident in my pursuits with fresh ideas. I have recommended other young faculty to seek mentorship from Beth."

Currently, Baker still works with nine to 64 residents per year in general internal medicine inpatient education. She is the Education Scholars program head for the Rush Education Mentoring Program and participates in the Women Mentoring Program.

Baker received 17 letters of support from colleagues for her mentoring excellence. Anem Ekpenyong, MD, who has known Baker for more than 20 years since her training days, writes in her letter of support, "The trait that I appreciate the most about Beth is her ability to listen. Although she is not shy about sharing her opinions, she never lets her viewpoint or agenda become the focus."

Shanu Gupta, MD, assistant professor of Internal Medicine at Rush Medical College, says, "Dr. Baker connected me with the right people, supported my growth and development through sponsoring conferences, promoting collaborations and encouraging innovation and scholarship." Scott Hasler, MD, summarizes in his letter of support, "as a past winner of the Rush Excellence in Mentoring award myself, I can't imagine more prestigious company to keep than her."

EXCELLENCE IN MENTORING

Louis Fogg, PhD

Louis Fogg, PhD, is an associate professor in the Department of Community, Systems and Mental Health Nursing, and has been a faculty member at Rush since 1987. Fogg has provided his statistical expertise on more than 25 National Institutes of Health-funded studies and is a past-president of the Chicago chapter of the American Statistical Association. He has more than 200 peer-reviewed publications and has written in the areas of clinical trials and experimental design. He is knowledgeable in clinical research methodology and multi-level modeling analyses.

“He has had a role in papers that move the field forward,” says nominator JoEllen Wilbur, PhD, APN, FAAN, professor in the Department of Women, Children and Family Nursing.

Susan Weber Buchholz, PhD, RN, FAANP, professor in the Department of Adult Health and Gerontological Nursing, says in her letter of support, “While mentors typically focus on scholars within a few distinct areas, Dr. Fogg’s influence and work goes across many areas within health care. He provides guidance on multiple research topics with faculty and clinicians in the College of Nursing, as well as the other colleges at Rush University, and at the Medical Center. In addition, he collaborates with researchers and clinicians in Chicago, Illinois, the United States and internationally.”

Fogg has an international reputation as a statistician and methodologist. He has been invited to consult and present throughout the U.S. and the world. He facilitates research grant proposals (more than 50 externally funded studies). He plays a critical supportive role in all phases of grant writing and implementation. At any one time he is co-investigator on eight to 10 federally funded grants, totaling more than \$10 million.

In addition to teaching in formal statistics classes, Fogg initiated a series of workshops for graduate students and faculty throughout the University to familiarize them with modern statistical methods. He serves as co-investigator on many of their future grants, providing methodological and statistical guidance.

He developed a model of Doctorate of Nursing Practice (DNP) research based on the work of Florence Nightingale. This model lays out a blueprint for conducting DNP research, with the aims of improving practice and disseminating those DNP projects that are generalizable to a large number of health care settings.

Over the last calendar year, Fogg has worked with 70 DNP students at Rush on their DNP projects. He has also worked with a small number of master’s-level students who wanted to get their work published.

Diane McNaughton, PhD, APHN-BC, associate professor in the Department of Community, Systems and Mental Health Nursing, says, “His door is always open to those who seek him out for his expertise. He is a champion of novice and seasoned researchers and students alike.”

EXCELLENCE IN RESEARCH

Jochen Reiser, MD, PhD

Jochen Reiser, MD, PhD, is the chair of the Department of Internal Medicine at Rush University Medical Center and the Ralph C. Brown, MD, Professor of Internal Medicine at Rush University. As a world-renowned physician-scientist leader in the field of kidney disease, he has published over 150 papers, many in high-impact journals, including *Nature*, *Science*, *Cell*, and the *New England Journal of Medicine*.

Reiser's work has started new research fields and industry developments, and is significantly advancing new treatments for renal diseases. "His publications continue to make major scientific contributions," says Vineet Gupta, PhD, professor and vice chair for research and innovation in the Department of Internal Medicine.

"He is widely respected at the national and international stage as the leading authority on the role of podocyte injury in glomerular diseases," Gupta says. "He is credited with the discovery and validation of a novel circulating factor — soluble urokinase receptor (suPAR) as a causative agent behind direct podocyte injury, which drives glomerular diseases." Several large clinical studies are underway to define the role of suPAR as both biomarker and risk factor for chronic kidney disease and for Focal Segmental Glomerulosclerosis (FSGS).

Reiser and Gupta have developed a podocyte cell-based HTS assay for the discovery and development of kidney-specific therapeutics. This is used to screen a chemical library and identify novel small molecules that show protection of podocytes from damage by various agents.

In 2005, his group followed up on the discovery that a TRPC6 mutation can cause FSGS; they found additional mutations and defined the interaction of TRPC6 with the slit diaphragm, a discovery that lay ground for mechanosensation at the kidney filter membrane. Further discoveries were made in Reiser's laboratories, such as TRPC channel members 1 and 5 in podocyte foot processes, and the role of cathepsin L in podocyte as a new drug target in kidney disease.

Reiser directs a National Institutes of Health (NIH)-funded research laboratory in biomedical investigation of the kidney. He is the principal investigator on two NIH grants and cooperating principal investigator on another three. He is the recipient of a grant from Guangzhou University, which supports the creation of a research center under his direction for the detection and validation of cardio-renal biomarkers.

Reiser is a member of prestigious professional societies including the American Society for Clinical Investigation, the American Clinical and Climatological Society and the Association of American Physicians. In 2016, he received the Franz Volhard Award of the German Society of Nephrology for his wide contributions to medicine and nephrology. Omar Lateef, DO, chief medical officer at Rush University Medical Center, says, "Dr. Reiser's knowledge base is incredible. He represents our profession's best hope for the future."

Syed Shah, MD

Re-Appointed Member
Internal Medicine Test Writing Committee
American Board of Internal Medicine

Christine Sharp, MS, RD, LDN, CNSC

Chair, Membership
Chicago Academy of Nutrition and Dietetics

Kern Singh, MD

Chair, Spine Program Committee
Annual Meeting
American Academy of Orthopaedic Surgeons

Diane Sowa, MBA, RD, LDN

State Regulatory Representative
Illinois Academy of Nutrition and Dietetics

Kerstin Stenson, MD, FACS

Head and Neck Surgery Education Committee
American Academy of Otolaryngology-
Head and Neck Surgery

Humanitarian Committee
American Head and Neck Society

Panelist, Educational Book Expert Panel
Scientific Program Committee
American Society for Clinical Oncology

EXTERNAL AWARDS

2016-17 Leadership Positions

Rick Sumner, PhD

President-Elect
American Association of Anatomists
Secretary-Treasurer
Association of Anatomy, Cell Biology Neurobiology
Chairs
President
International Society for Bone Morphometry
President
Orthopaedic Research Society

Barbara Swanson, PhD, RN, FAAN

Co-Chair
Emerging and Infectious Diseases Expert Panel
American Academy of Nursing

Christy Tangney, PhD, FACN, CNS

Chair, Oral Session
Nutrition and CardioMetabolic Health
Annual Meeting Experimental Biology
Chair, Scientific and Education Programs Oversight
Committee
American Society of Nutrition

Annabelle Volgman, MD, FACC, FAHA

Co-Chair and Judge, Scientific Sessions
2017 Young Investigator Awards Competition:
Basic and Translational Science
Cardiovascular Disease in Women Committee
American College of Cardiology
Chair, Obesity Strategically Focused Research Network
Oversight Advisory Committee
American Heart Association
Chair, Phase 2 Review Panel
Phase 1 and Phase 2 Obesity Network Review Panel
Clinical Cardiology Committee-Women in Cardiology
American Heart Association
Chair, Oversight Advisory Committee
Obesity Strategically Focused Research Network

Markus Wimmer, PhD

Secretary, Orthopaedics Implant Section
Orthopaedic Research Society
Director
Rush Arthritis and Orthopedics Institute

Adam Yanke, MD

Head Team Physician
Windy City Bulls

EXTERNAL AWARDS

Professional Awards and Honors

Abde Abukhdeir, PhD

Lynn Sage Scholar
Lynn Sage Foundation

Neelum Aggarwal, MD

Fellow
American Medical Women's Association

Robert Barkin, MBA, PharmD

Overseas Fellow
Royal Society of Medicine

Lisa Barnes, PhD

Dr. Steve Whitman Research Award
Health and Medicine Policy Research Group

Thomas Bleck, MD, MCCM, FNCS

Honorary Membership
Neurocritical Care Society

Lifetime Achievement Award
Society of Critical Care Medicine

Joel Block, MD

Alpha Omega Alpha Alumni Achievement
Washington University School of Medicine

Rakhee Bowker, MD

Frederick M. Kenny Memorial Award
Travel Award, Diversity in the Research Workforce
Midwest Society for Pediatric Research

Marie Teresa Brown, MD, FACP

John Tooker Evergreen Award
Quality Champion
American College of Physicians

Peter Butler, MHSA

Health Care Manager of the Year
American College of Healthcare Executives

Asokumar Buvanendran, MD

Clinical Excellence Award
American Society of Anesthesiologists

Clinical Excellence Award
American Society of Regional Anesthesia and Pain
Medicine

Clinical Excellence Award
West Virginia Interventional Pain Society

Richard Byrne, MD

Paul Bacy Award
Chicago Neurosurgery Review

Elizabeth Carlson, PhD, RN

Marie L. O'Koren Alumni Award -
Innovation in Leadership
Birmingham School of Nursing
University of Alabama

Demetra Castillo, MAdEd, MLS(ASCP)^{CM}

Educator of the Year
American Society for Clinical Laboratory Science

Susan Chubinskaya, PhD

Fellow, International Orthopedic Research
International Combined Orthopedic Research Societies

Women's Leadership Award
Orthopedic Research Society

Brian Cole, MD, MBA

Inaugural Dr. Steven Gitelis Inspiration Award
AlloSource

Best Clinical Paper
French Arthroscopy Society

Honorary Member
National Athletic Trainers' Association

EXTERNAL AWARDS

Professional Awards and Honors

Craig Della Valle, MD

Best Poster Award
Mid-America Orthopaedic Association
First Place
Research Society Midwest Resident Research
Symposium
Orthopaedic Research and Education Foundation

XinQi Dong, MD, MPH

Edward W. Busse Award
World Congress of Gerontology and Geriatrics

Sumeet Dua, MD

Certificate of Merit
Cum Laude
Radiology Society of North America

Jennifer Earvolino, MD

Elected as Fellow
American College of Physicians

Alejandro A. Espinoza Orías, PhD

Best Basic Science Article Award
*Arthroscopy: The Journal of Arthroscopic and
Related Surgery*

Richard Fessler, MD

Legends of Neuroscience Award
ABC Hospital, Centro Medico, Mexico

George Fitchett, DMin, PhD

Outstanding Colleague Award
National Association of Catholic Chaplains

Maribeth Flaws, PhD, MLS(ASCP)^{CM}, SM, SI

Tanner Shaughnessy Merit Award
Illinois Society for Microbiology

Deborah Gardiner, MS, RN

Fellow
American College of Healthcare Executives

Andrew Garman, PsyD

Excellence in Healthcare Leadership Education
Excellence in Leadership Development,
MS-HSM Program
Commission on Accreditation of Healthcare
Management Education

Steven Gitelis, MD

Achievement Award
American Academy of Orthopaedic Surgeons

Michael Hanak, MD, FAAFP

Delegate, American Academy of Family Physicians
American Medical Association

Stevan Hobfoll, PhD

Distinguished Scientist Lecturer
American Psychological Association

Clifford Kavinsky, MD, PhD

Master Fellow
Master Interventionalist
Society for Cardiovascular Angiography and
Interventions

Ruth Kleinpell, PhD, RN

Lifetime Achievement Award
National Organization of Nurse Practitioner Faculties

Sally Lemke, MS, RN, WHNP-BC

Jonas Salk Health Leadership Award
March of Dimes

Nadine Lerret, PhD, MLS(ASCP)^{CM}

Early Career Leadership Fellowship
Association of American Medical Colleges

Voices Under 40 Award

American Society for Clinical Laboratory Science

EXTERNAL AWARDS

Professional Awards and Honors

Steven Lewis, MD

Elected Trustee
Council of Delegates
World Federation of Neurology

Masako Mayahara, PhD, RN

Pinnacle Award
Exceptional Nurse Leaders
Power of Nursing Leadership

Patricia McCarthy, PhD

Award for Continuing Education
Meritorious Poster Award
Brittle Bones: Osteogenesis Imperfecta and Hearing Loss
Annual Meeting
American Speech-Language-Hearing Association

Joshua Melson, MD, MPH

Top Reviewer Award
Gastrointestinal Endoscopy
American Society of Gastrointestinal Endoscopy

Jonathan Myers, MD

Recognition of Excellence Award
Society of American Gastrointestinal and Endoscopic Surgeons

Denis Nam, MD, MSc

Clinical Practice Award
Current Concepts in Joint Replacement
Orthopaedic Research and Education Foundation

Shane Nho, MD, MS

Best Basic Science Article Award
Arthroscopy

Shaila Pai-Verma, MD

Fellow
American College of Physicians

Keyur Parekh, MBBS

Magna Cum Laude
Radiological Society of North America

Kyle Popovich, MD, MS

Fellow
Infectious Diseases Society of America

Marie-France Poulin, MD

Best Case Presentation
The Continuum of Care - III: Nightmare Cases - I Need Your Help!
Congenital Heart Disease and Structural Heart Disease Symposium

Jochen Reiser, MD, PhD

Franz Volhard Award
German Society of Nephrology

Beverley Robin, MD, CHSE

Second Place, Program Innovation
Craniopagus Conjoined Twins: Optimizing Delivery and Resuscitation through Interprofessional in Situ Simulation
Society for Simulation in Healthcare

Joanne Schupbach, MS, MA, CCC-SLP/A

Honors of the Association
Illinois Speech-Language-Hearing Association

Kern Singh, MD

Best Poster Award
International Society for the Advancement of Spine Surgery

Rick Sumner, PhD

Fellow
American Association of Anatomists

Bobby Tajudeen, MD

Best Video Award
Unilateral Resection of Planum Meningioma with Intraoperative Molecular Imaging
Fall Film FESStival
American Rhinologic Society

EXTERNAL AWARDS

Professional Awards and Honors

David Vines, MHS, RRT, FAARC

Education Specialty Practitioner of the Year
American Association of Respiratory Care

Accepted as Fellow
American College of Chest Physicians

JoEllen Wilbur, PhD, APN, FAAN

SAGE Award
College of Nursing
University of Illinois at Chicago

Kim Williams, MD

Master Fellow
American College of Cardiology

Master Fellow
American Society of Nuclear Cardiology

Markus Wimmer, PhD

Best Paper Award
International Combined Meeting of the Orthopaedic
Research Societies

HONORARY LECTURES AND KEYNOTES

Neelum Aggarwal, MD

Invited Panelist

Addressing the Talent Gap:

How to Attract, Retain and Promote Minorities

Diversity and Inclusion and Life Sciences Symposium

Center for Healthcare Innovation

Invited Speaker

The Heart Brain Connection

Women's Brain Health Symposium

Emory University

Invited Speaker

Pride and Prejudice: Setting the Agenda for Women's Health

Annual Meeting

Federation of Canadian Women Physicians

Invited Panelist

Gender Bias Under the Microscope: Women in Science

Women in Medicine and Science Symposium

Rosalind Franklin University

David Ansell, MD, MPH

Invited Speaker

Doctors, Health Inequities and the ACA Repeal:

Training the Next Generation of Physician Advocates

Annual Conference

American College of Rheumatology

Keynote Speaker

Health Equity is a Quality Issue — Doctors, Hospitals and the Elimination of Health Disparities

Integration Quality Meeting

Association of American Medical Colleges

Invited Speaker

How Inequality Kills:

Doctors, Hospitals and the American Death Gap

National Caucus on Arthritis and Musculoskeletal

Health Disparities

Invited Speaker

The Metropolitan Chicago Breast Cancer Taskforce:

Uniting to End Breast Cancer Mortality Disparity in Chicago

NYU Langone Medical Center

Laura and Isaac Perlmutter Cancer Center

Alpha Omega Alpha Visiting Professorship

How Inequality Kills: Doctors, Hospitals and Premature

Mortality in America

The Hippocratic Oath and the Four Obligations of Physicians

University of Missouri

Kelly Baron, PhD, MPH

Visiting Lecturer

Circadian Rhythms and Health

Kent State University

Pete Batra, MD

Honorary Lecturer

Endoscopic Balloon Sinuplasty in Current Practice

Endoscopic Endonasal Resection of Sinonasal Neoplasms

Maximal Medical Management of Chronic Rhinosinusitis

Panelist

Postoperative Care of CRS Patients and Management of Recurrence

8th Riyadh International Functional Endoscopy Sinus

Surgery Course

Honorary Lecturer

Above and Below Frontal Sinus Technique

Granulomatosis with Polyangiitis

Inferior Turbinate Surgery – Indications and Results

Sinus Surgery for Headache

Topical Antifungal Therapy

Panelist

Challenges in Sinonasal Malignancy

Advanced Rhinology 2016:

Endoscopic Surgery and Allergy

Honorary Lecturer

Complications of Endoscopic Sinus Surgery

Endoscopic Endonasal Optic Nerve Decompression

Workup of the Failed Functional Endoscopic Sinus

Surgery Patient

Panelist

Challenging Cases

RhinoForum 2016

HONORARY LECTURES AND KEYNOTES

David Bennett, MD

Speaker
Lunch Briefing
Congressional Members and Staff, Capitol Hill

Elizabeth Berry-Kravis, MD, PhD

Invited Speaker
*Targeted Treatments for Fragile X Syndrome:
Modifying the Translational Pathway*
Invited Lecture Series
Geisinger Clinic

Invited Speaker
*Targeted Treatments for Fragile X Syndrome:
Modifying the Translational Pathway*
Annual Research Seminar
Autism Research Center
Purdue University

Invited Speaker
Emerging Therapies for Niemann-Pick Type C
Rare Disease Day Conference
Boler-Parseghian Center for Rare and Neglected
Diseases
University of Notre Dame

Visiting Professorship
*Niemann-Pick Type C and Scientific Serendipity:
Can We Capitalize?*
Visiting Professor Series
Pathology
Rush Medical College

Thomas Bleck, MD, MCCM, FNCS

Keynote Speaker
Status Epilepticus in 2016
Annual Mumbai Conference
Subarachnoid Hemorrhage
Indian Society of Critical Care Medicine

Joel Block, MD

Speaker
Visiting Professor
Arthritis Foundation Lectureship
The First Colorado Rheumatism Society

Lecturer
Osteoarthritis
State of the Art Clinical Symposium
American College of Rheumatology

Lecturer
ACR Maintenance of Certification Update
Program Directors' Conference
American College of Rheumatology

Lecturer
Platelet Rich Plasma and OA: Does it Work?
American College of Rheumatology

Moderator
*Transforming the ABIM MOC Program and Its Impact on
Rheumatologists*
Annual Scientific Meeting
American College of Rheumatology

Lecturer
OA: Where Are We and Where Are We Going?
Colorado Arthritis Foundation

Chair
*Adiposity as a Driver of Arthritis Through Inflammatory
Mechanisms*
European League of Associations of Rheumatology

Lecturer
*Osteoarthritis:
Evidence-Based Approaches for Improving Joint Pain*
Pri-Med

Lecturer
The Biomechanical Basis of OA: Implications for Care
School of Medicine
University of Colorado

Lecturer
OA: What's Biomechanics Got to Do With It?
Division of Rheumatology
Managing Osteoarthritis: can we Delay Progression?
Medicine Grand Rounds
Warren Alpert Medical School
Brown University

Executive Board
*The Role of the Scholarly Journal in Rehabilitation
Awareness, Rehabilitation 2030: a Call for Action*
World Health Organization

HONORARY LECTURES AND KEYNOTES

Beth Bolick, DNP, PPCNP-BC, CPNP-AC, FAAN

Invited Speaker

Health Workplace Culture: Got Workplace Bullying? How to Prevent and Promote Civility in the Work Environment
Annual Congress

American Association of Nurse Anesthetists

Keynote Speaker

Starting the Conversation to Address Incivility and Bullying in Healthcare

Gillece Lecture Series

Lurie Children's Hospital

Invited Speaker

Culture of Civility and Respect: A Healthcare Leader's Role
Annual Meeting and Conference

Society of Pain Management Nurses

Invited Speaker

Starting the Conversation to Address Incivility and Bullying in Healthcare

Webinar

Texas Organization of Nurse Executives

Marie Teresa Brown, MD, FACP

Invited Speaker

Joy in Practice

16th International Health Workforce Collaborative

American College of Physicians

Invited Lecturer

*Touching Where It Hurts:
Bedside Medicine in a Technical Age*

Eisele Lecturer

Annual Meeting

American College of Physicians

Invited Speaker

Diagnostic Error and Physician Burnout

Annual Meeting

American Hospital Association

Evelyn Pinz Invited Lecturer

Practice Wisely Improve Medication Adherence

Grand Rounds

Department of Internal Medicine

Ohio State University

Keynote Address

Practicing Wisely

Midwest Region

Society of General Internal Medicine

Isabel Castrejon, MD

Lecturer

Physician and Patient Estimates of Global Status are More Likely to be Discordant in Osteoarthritis Than in Rheumatoid Arthritis

Lecturer

The Euler Outcome Measure Library, an Evolutional Database of Validated Pros:

Use and Dissemination in the First Two Years

Annual European Congress of Rheumatology (EULAR)

Lecturer

PROs: Advantages of Measuring from the Patient Perspective

Scientific Committee

Rheumatoid Arthritis Annual Symposium

Spanish Society of Rheumatology

Cathy Catrambone, PhD, RN, FAAN

Invited Keynote Speaker

Global Perspectives and Nursing Research, Nursing Research and Evidence Based Practice:

The Keys to Quality Patient Care

Geisinger Health System

Keynote Speaker

Global Advisory Panel on the Future of Nursing and Midwifery

International Nursing Research Congress

Sigma Theta Tau International

Keynote Speaker

Nursing and Midwifery: Transforming Leadership, Education, Practice and Research

The Virginia Henderson Global Nursing E-Repository

Sigma Theta Tau International

Invited Keynote Speaker

The United Nations Sustainable Development Goals:

Implication for Nursing

Third European Regional Conference

Sigma Theta Tau International

HONORARY LECTURES AND KEYNOTES

Susan Chubinskaya, PhD

Invited Speaker

GF, PRP, and Other for Cartilage Repair

17th Congress

European Federation of National Associations of Orthopaedics and Traumatology

Invited Speaker

The Difference Between OA and Ageing

13th World Congress

Invited Speaker

Course on Subchondral Bone Edema, The Chicken or the Egg: Subchondral Bone and Cartilage Repair

International Cartilage Repair Society

Invited Speaker

Innovative Approaches to Post-Traumatic Osteoarthritis

International Combined Orthopedic Research Societies

Brian Cole, MD, MBA

Honorary Lecturer

Meniscus Allograft Transplantation

R. Webster Crowley, MD

Keynote Speaker

Illinois Conference

Annual Brain Injury Association

Rupel Dedhia, MD

Beverly Talluto Preceptor Speaker

Interprofessional Education: Ensuring Student Readiness

College of Pharmacy

Chicago State University

Invited Speaker

Physician Heal Thyself:

Promoting Resiliency While Reducing Burnout

Annual Meeting

Pri-Med Midwest

Kathleen Delaney, PhD, PMH-NP, FAAN

Guest Speaker

Psychiatric-Mental Health Nurses as Leaders in Mental Health Transformation

Barbara Jonas Psychiatric-

Mental Health Nursing Lecture

New York University

Craig Della Valle, MD

Presidential Guest Speaker

Prevention, Diagnosis and Treatment of Early Postoperative

Periprosthetic Joint Infection after Total Hip Arthroplasty

Annual Meeting

The British Hip Society

Grand Rounds Speaker

Prevention, Diagnosis and Treatment of Periprosthetic Joint

Infection

Grand Rounds

Massachusetts General Hospital

Seema Desai, PhD

Invited Lecturer

Community Update on Aging in HIV

Video Panel of Experts, HIV and Aging

Conference on Retroviruses and Opportunistic

Infections

International Foundation for Alternative Research

XinQi Dong, MD, MPH

Keynote Speaker

Confucius vs. Einstein: Who Is a Better Gerontologist?

International Association of Gerontology and Geriatric Medicine

World Congress of Gerontology and Geriatrics

Kerry Ebert, PhD, CCC-SLP

Invited Discussant

Workshop, Language and Literacy Development in

Early Dual Language Learners

National Institutes of Health

Erin Emery-Tiburcio, PhD

Keynote Speaker

Building Bridges: Critical Partnerships in Managing Late Life Health

18th Annual Summer Institute

Center for Applied Behavioral Health Policy

Arizona State University

HONORARY LECTURES AND KEYNOTES

Robyn Golden, LCSW, MA

Panelist

Perspectives on Coordination Across the Spectrum of Caregivers, Providers, Services, and Supports:

Collaboration, Communication and Cooperation

Workshop Presenter

Supporting Community Living and Participation for Older Adults and People with Disabilities: Strengthening the Workforce and Community Infrastructure

National Academies Forum on Aging, Disability and Independence

Jennifer Goldman, MD, MS

Keynote Speaker

Atypical Parkinsonisms:

Clinical Phenotype and Manifestations

Proteinopathies: PD, Dementia and Tauopathies:

The Role of Neuroimaging, Developing World Program

International Parkinson Disease and Movement

Disorder Society

Stevan Hobfoll, PhD

Invited Address

Resilience Caravans and Intervention

Asian Congress of Health Psychology

Keynote Address

Caravan Passageways and the Creation of Trauma

Resilience: Applications to Schools and Youth Crises and Attacks

European School Psychology Center for Training

Keynote and Workshop

Psychosocial Support to Emergency Service Responders

Emergency Services Training

Government of Iceland

Keynote Address

Resilience and Vulnerability in the Stress Process:

Our Trains Run on Both Tracks

International Congress of Psychology

Keynote Address

Thriving or Surviving in the Workplace:

Conservation of Resources and Resource Utilization

Workshop

Strategies for Resource Intervention to Aid Engagement

Italian Congress of Applied Psychology

Workshop

Balancing Work and Home Stress for Medical Staff

John H. Stroger, Jr. Hospital of Cook County

Webinar Lecturer

Mass Casualty Intervention with Children

National Advisory Committee on Children and Disaster

United States Department of Health and Human Services

Invited University Lecturer

War and Terrorism; Impact on the Self and Society

LEAD Graduate School Lecture Series

University of Tubingen

Diane Howard, PhD, MPH

Chair

Induction Address

Association of University Programs in Health

Administration

Rebecca Hunter, PhD

Keynote Speaker

The Impact of Stress on Health:

How to Recognize and Manage Symptoms

Stress Less Workshop

Chicago Women's Health Exchange

Meenakshi Jolly, MD

Seminar Lecturer

State of PROs in Lupus

Hong Kong Society of Rheumatology

Seminar Lecturer

Changing Model of Care in Lupus

Singapore Rheumatology Association

Tan Tock Seng Hospital

Lecturer

Why are Health Outcomes Measurements Important in Medicine

Internal Medicine Grand Rounds

Tuen Mun Hospital

HONORARY LECTURES AND KEYNOTES

Carolyn Jones, MD, PhD

Visiting Professor
New Advances in Prenatal Noninvasive Testing
Parkview Hospital

Niranjan Karnik, MD, PhD

Lori Roscetti Memorial Lecturer
Building Service and Care in the Practice of Medicine
Gold Humanism Honor Society
Rush Medical College

Paul Kent, MD

Keynote Speaker
Lessons from Pediatric Oncology
National Conference
Asian Pacific American Medical School Association

Invited Speaker

Pediatric Cancer
Chicago Bulls College Prep

Invited Speaker

What We Can Learn from Henrietta Lacks
Annual Illinois Math and Science Academy
Rush University Medical School

Invited Speaker

*Pediatric Cancer – From the Front Lines –
a Survivor and a Doctor*
Yorkville High School

Ruth Kleinpell, PhD, RN

Keynote Speaker
Defining Outcomes in an Academic Medical Center
National University of Singapore

Stan Lapidus, MS

Presenter in Israel
Interprofessional Teams in Health Care
Israel Ministry of Health — Department of Nutrition
Ram Bam Medical Center — Department of Geriatrics
Schneider Children's Medical Center - Department of
Social Work

Omar Lateef, DO

Keynote Speaker
Clinicians as Improvement Leaders
International Conference
Arab Health Care

Anne-Marie Malfait, MD, PhD

Grand Rounds/Seminar Presenter
Osteoarthritis Pain: Mice, Molecules, Mechanisms
Departments of Orthopaedic Surgery and Radiation
Oncology
Albert Einstein College of Medicine

Lecturer

Scientific Breakthroughs in Osteoarthritis
Annual Meeting
American College of Rheumatology

Lecturer

Modelling Osteoarthritis Pain in Mice
First Annual Meeting
Korean Society for Osteoarthritis and Cartilage Repair

Lecturer

*A Small Aggrecan Fragment Causes Osteoarthritis Pain
Through TLR2*
Gordon Research Conference on Cartilage Biology
and Pathology

Lecturer

Osteoarthritis Joint Pain: When Cartilage Hurts
Annual Meeting
Matrix Biology Society of Australia and New Zealand

Lecturer

The Neurobiology of Osteoarthritis Pain
31st Annual Research Meeting
Orthopaedic Association

Organizer

Pre-Congress Workshop
Osteoarthritis Pain
Osteoarthritis Research Society International

Lecturer

Unraveling the Neurobiology of OA Pain
Oregon Health and Science University
Shriners Hospital

HONORARY LECTURES AND KEYNOTES

Clark McKown, PhD

Invited Speaker

Social and Emotional Learning:

A Policy Vision for the Future

Social-Emotional Learning: A Future of Children Event

Brookings Institution and Princeton

Woodrow Wilson School

Invited Speaker

Promises and Perils of Assessing Character and Social and Emotional Learning

Workshop on the Development of Character

National Academy of Sciences

James Mulshine, MD

Webinar Panelist

Former Vice President Biden's

"Cancer Moonshot" Initiative

Howard University

Prema Nanavaty, MD

Lecturer

An Updated Look at Interstitial Lung Disease

Educational Lecture Series

Department of Internal Medicine

West Suburban Medical Center

T. Celeste Napier, PhD

Panelist

Rotary Club Chicago

Panelist

Summit to Combat Heroin and Opioid Addiction

Panelist

The Dependent Brain: A Candid Discussion About the Effects of Recreational and Prescription Drugs

The Brain Research Foundation

Jennifer Orozco, MMS, PA-C, DFAAPA

Invited Keynote Speaker

What is a PA?

PA Student Society

Rush University

Carlos A. Q. Santos, MD, MPHS

Invited Lectures

Use of Large Observational Data in Transplant Infectious Diseases Research

Northwestern Transplant Outcomes Research

Collaborative

Northwestern University

Jonathan Brady Scott, MS, RRT-ACCS, FAARC

Invited Faculty

Mechanical Ventilation:

Advanced Critical Care Management Course

American College of Chest Physicians

Keynote Address

Today ... For Your Tomorrow, Illinois Pre-Health Day

DePaul University

John Segreti, MD

Invited Lecturer

All Things Infection: All You Need to Know, Diagnosis of Infection: Strategies to Isolate the Bug, Symposium C

Antibiotic Stewardship in Orthopaedic Surgery: Principles and Practice

Annual Meeting

American Academy of Orthopaedic Surgery

Invited Panel Expert

Epidemiology and Prevention of CDIs

Microbe Meeting

American Society of Microbiology

Syed Shah, MD

Workshop

Peer Teaching in Preclerkship Curriculum

Regional Meeting, Central Group on Education Affairs

American Association of Medical Colleges

HONORARY LECTURES AND KEYNOTES

Najia Shakoor, MD

Symposium Presenter
Biomechanical Factors That Impact Movement in Osteoarthritis
American College of Rheumatology

Invited Symposium Lecturer
Minimal Footwear Use in Knee OA
American Society of Biomechanics

Rick Sumner, PhD

Keynote Speaker
Implant Fixation and Interface Imaging
Biomaterials, Biomechanics and Bio-Imaging in Orthopaedics Research Interest Group
Orthopaedic Research Society

Plenary Speaker
Bone Regeneration and Implant Fixation
XXVII Congresso Brasileiro de Anatomia
Sociedade Brasileira de Anatomia

Vincent Traynelis, MD

Volker K. H. Sonntag Lecturer
American Association of Neurological Surgeons

Annabelle Volgman, MD, FACC, FAHA

Invited Presenter
AFib Anticoagulation: Jumping from Risk Calculator Tools to Pharmacologic Options (Control#: 16947) in a Core Curriculum entitled Core Curriculum: Decisions on AFib: From Prevention to Cure
Scientific Sessions

Invited Presenter
Women Have Different Symptoms Than Men: CON (Control#: 7928)
Scientific Entitled Debates: Is There Really a Sex Difference in CV Presentation, Care and Outcomes?
Scientific Sessions
American College of Cardiology

Expert Advisor
Expertise in Atrial Fibrillation
Science to Science Meeting
American Heart Association

Invited Presenter
Women and Atrial Fibrillation: What Doctors Can Do About the Higher Risk of Stroke
Cardiology Grand Rounds
Massachusetts General Hospital

Speaker
Women and Heart Disease
Healthy Heart for Stellar Women
WomenHeart

James M. Williams, PhD

Invited Speaker
Learn, Practice and Teach
White Coat Ceremony
University of Medicine and Health Sciences

Markus Wimmer, PhD

Keynote Address
The Influence of Mo on the Fretting Corrosion Behavior of CoCr-Alloys vs. TiAl6V4
Fourth Institute of Biomaterials, Tribocorrosion and Nanomedicine
Research Symposium
University of Illinois

James Wyatt, PhD

Invited Lecturer
Circadian and Homeostatic Modulation of Sleep and Neurobehavioral Functions: Basic Findings and Clinical Applications

Faculty Recognition

RECEPTION

2017-18

Teaching Academy Series

All Rush University faculty are invited to participate in the 2017-18 Teaching Academy Series. The Teaching Academy Series will be held every third Tuesday of the month from noon to 1 p.m. in Room 994 of the Armour Academic Center. Lunch will be provided.

Please see the tentative presentation topics below.

Adding a Health Equity Lens to Your Academic Scholarship Work

Best Practices for Classroom Management

Budget Justifications for Research Funding

Creating an Effective Workshop

Creating and Presenting Captivating Educational Materials

Everyday Bias: Identifying our Biases to Create a Better University

Maximizing Rush Library Resources

Navigating Challenging Interactions: Frames, Face and the Floor

Strategies for Teaching Students to Write

The Neuroscience of Substance Abuse: From Experimentation to Addiction

The Non-Science Components of a Grant Proposal

Voice Care for Health Care Providers?

Dates and Presenters to be confirmed

For more information or to RSVP

Contact the Office of Faculty Affairs at faculty_affairs@rush.edu

The information found in the Reception Program is a compilation of content that was provided by various departments at Rush University Medical Center; it was reviewed and incorporated based on particular criteria; it is only as accurate as original sources.
