

College of Health Sciences Curriculum Committee

The College of Health Sciences Curriculum Committee will convene as needed to review and approve the following:

1. All new course additions to a program curriculum
2. All changes in courses in a program curriculum
3. All deletions of courses in a program curriculum

Representatives from each department appointed by their department chairman will serve on the committee. The usual length of tenure is three academic years. Terms of appointment for committee members will be staggered with one third of the membership changing each year. For the purposes of the committee, the year begins on September 1.

Course descriptions and assigned credit hours must be reviewed by the College of Health Sciences Curriculum Committee before publication in the University Catalog. After review by the Committee and any suggested revisions are made, all course additions, changes or deletions will be forwarded to the Dean for approval.

New course additions and course changes should be submitted to the Curriculum Committee by May 1 for Fall quarter courses, September 1 for Winter quarter courses, December 1 for Spring quarter courses and March 1 for Summer quarter courses. The Committee will meet on a need only basis.

Please use attached forms and submit course syllabi where requested.

Subsequent to Committee review, all forms will be forwarded to the Dean for final approval.
