

# RUSH UNIVERSITY

## FACULTY HANDBOOK

# 2018

## Foreword

The *Faculty Handbook* is comprised of two parts: Part One-- the Rules for Governance, which addresses content concerning the administration, organization, powers and responsibilities of the officers, faculty and students of the colleges; and Part Two -- resources available at the University and policies relevant to faculty.

## Introduction

The *Faculty Handbook* is intended to serve as a guide with respect to the resources and services available to the faculty. It does not constitute a contract of employment and the University reserves the right to add, amend, delete or deviate from any specifications herein at any time. The *Handbook* provides a summary of those aspects of University governance of particular interest to faculty. If you need to review procedures such as college governance documents, planning of new programs, grievances, or other contractually binding processes, please refer to the full text of applicable policies. Compliance policies and procedures, while of critical importance, are not included in this document, but are available under the [Policies and Procedures page](#).

This edition of the *Rush University Faculty Handbook* contains policies and procedures pertinent to faculty at Rush University as of January 2018. Revisions to the *Faculty Handbook* will be undertaken periodically. The *Handbook* will be available only online as a PDF. Rush University faculty members are responsible for checking the [Faculty Affairs Webpage](#) to keep abreast of alterations and additions to the *Handbook*. Changes to the *Handbook* will be included as promptly as possible so that the University community has the most current description of policies and procedures available at all times.

It is my hope this edition of the *Faculty Handbook* will aid your work within Rush as we endeavor to help our faculty capitalize on the richness of the many disciplines that we encompass.

Thomas A. Deutsch, MD  
Provost, Rush University

## **TABLE OF CONTENTS**

### **Foreword**

### **Introduction**

### **A. Rush History**

### **B. Mission, Vision and Strategic Plan**

### **C. Core Values, Educational Philosophy and Student Objectives**

## **PART ONE**

### **RULES FOR GOVERNANCE OF RUSH UNIVERSITY**

#### **Article I: The University**

##### **Section 1. Purpose**

##### **Section 2. Governance**

##### **Section 3. Formation and Structure**

##### **Section 4. Administration**

- a) President
- b) Provost
- c) Deans

#### **Article II: Faculty Organization and Conditions**

##### **Section 1. Faculty**

- a) Active Faculty
- b) Faculty with Pending Appointments
- c) Adjunct Faculty
- d) Lecturer
- e) Full-time Faculty; Part-time Faculty; Visiting Faculty
- f) Emeritus Faculty

##### **Section 2. Terms and Conditions of Faculty Appointment, Reappointment, and Promotions**

- a) Faculty Qualifications
- b) Academic Functions of Faculty
- c) Compensation and Employment
- d) Terms of Appointment to Rank
- e) Joint Appointments
- f) Active Faculty Appointment
- g) Promotions and Tenure
- h) Leaves of Absences
- i) Termination, Suspension and Appeals

- j) Grievance

**Article III: Students**

**Section 1. Students**

**Section 2. Student Representation**

**Article IV: Privileges and Responsibilities of the Faculty and Students**

**Section 1. Privileges and Responsibilities**

- a) Academic Freedom
- b) Expression of Public Opinions
- c) Interference with University Community

**Article V: Amendments to the Rules for Governance**

**Section 1. University Rules for Governance**

**Section 2. College Policies and Procedures**

**PART TWO**

**CHAPTER 1: PRIVILEGES AND RESPONSIBILITIES OF THE FACULTY**

**A. Other Duties and Responsibilities of Faculty**

- 1. Policy on Faculty Qualifications
- 2. Professional Conduct
- 3. Conflict of Interest
- 4. Use of Computer Device and Media Controls
- 5. Security
- 6. Travel and Employee Reimbursement
- 7. Contract Review and Approval

**B. Research Policies and Procedures**

- 1. Office of Research Affairs
  - i. Clinical Research Administration
  - ii. Innovation & Technology Transfer
  - iii. Research Regulatory Operations
  - iv. Sponsored Programs Administration
  - v. Institutional Animal Care and Use
  - vi. Technologies Supporting Research

## **A. History**

Founded in 1972, Rush University has expanded from one college and fewer than 100 students to four colleges and more than 2,500 students. The University includes Rush Medical College, the College of Nursing, the College of Health Sciences and the Graduate College.

Offering more than 30 [unique degree or certificate options in medicine, nursing, allied health and biomedical research](#), Rush is a small, private university integrated within [Rush University Medical Center](#) in Chicago, Illinois.

Rush University is known for its practitioner-teacher model, [translational research](#), nurturing academic environment and focus on [community](#) and global health.

Based on rankings in the most recent edition of *U.S. News & World Report's* "America's Best Graduate Schools," Rush University is a top-ranked university with an exclusive health science focus.

Rush University is accredited by the Higher Learning Commission, a regional accrediting agency that accredits degree-granting post-secondary educational institutions. In its accreditation process, HLC assesses the academic quality and educational effectiveness of institutions and emphasizes institutional structures, processes, and resources. Clinical programs are accredited by discipline specific accrediting organizations. The accreditation status of the University and its discipline specific programs can be found on the [Institutional Research, Assessment, and Accreditation](#) Website under the [accreditation link](#).

## **B. Mission, Vision, and Strategic Plan**

### **Mission**

Rush University provides outstanding health sciences education and conducts impactful research in a culture of inclusion, focused on the promotion and preservation of the health and well-being of our diverse communities.

### **All Rush University students are expected to:**

- Demonstrate critical inquiry and reasoning required by their respective professional disciplines
- Communicate in an effective and respectful manner in the practice of their profession
- Demonstrate scholarship and understanding of research principles
- Integrate ethical principles in professional activities
- Collaborate within interprofessional teams by practicing leadership
- Integrate information technology to improve healthcare outcomes
- Demonstrate the ability to work effectively in a diverse and global society

## **Vision**

The Rush learning community will be the leading health sciences University, committed to transforming health care through innovative research and education.

## **Strategic Plan**

The University strategic plan has three main strategic goals. Rush University will become the following:

1. The premier University for health care delivery and health sciences **education**
2. The national leader in health sciences scholarship and **discovery**
3. A model for a vibrant and dynamic University **experience**

Rush University will foster a progressive culture that encourages innovation and collaboration in health care delivery and health sciences education. Rush University will educate students to be innovators and leaders throughout their careers. Research and education are fundamental components of Rush University and constitute strategic differentiators of Rush in this time of rapid change in the world of health care. Rush University will develop and sustain transformative programs of discovery that improve the health of our communities.

Rush University will be known for a vibrant experience and culture that promotes development, communication, collaboration, diversity and inclusion, and a just and ethical culture. The Rush University experience and culture will be the cornerstones on which our graduates, faculty and staff build their careers, and it will differentiate Rush University from other institutions.

## **C. Core Values, Educational Philosophy, and Student Objectives**

### **Core Values**

Rush University's core values are innovation, collaboration, accountability, respect and excellence. These I CARE values guide the efforts of Rush University students, faculty and researchers.

### **Philosophy of General Education**

Undergraduate programs at Rush University prepare entry-level professionals for various roles in health care. The University regards its role in the formation of these individuals seriously, and strives to provide an environment where knowledgeable, informed and literate students are ready to take their place, not only in the health care arena, but also as citizens of the world. The faculty believes that professional education is based on a foundation of general education, which forms the basis for life-long learning and prepares the graduate as practitioner with a social conscience. Students are expected to enter Rush University with foundations in humanities and philosophy, arts, and physical and behavioral sciences. Students are admitted to Rush University with a general education sufficient to lay the groundwork for developing excellent written and verbal communication skills, critical thinking abilities, cultural sensitivity, high ethical standards, and an inquiring mind.

**PART ONE**  
**RULES FOR GOVERNANCE**  
**OF**  
**RUSH UNIVERSITY**  
**Approved May 26, 2017 by University Council (Chair, James M. Williams, PhD)**

**ARTICLE I: THE UNIVERSITY**

**Section 1. Purpose**

The University is organized and operated exclusively for educational, scientific and charitable purposes within the meaning of Section 501(3) of the Internal Revenue Code of 1986, as amended (or the corresponding provision of any future United States Internal Revenue Law), and not for financial gain. Through its colleges, Rush University offers academic degrees and certificate options in medicine, nursing, allied health and biomedical research.

**Section 2. Governance**

- a) These Rules for Governance address certain matters concerning the administration, organization, powers and responsibilities of the officers, faculty and students of the colleges. They are reviewed at least every ten years by the University Council of the faculty and adopted by the Board of Governors (hereafter referred to as the “Board”) acting upon the advice of the faculty as transmitted by the provost and the president of the University.
  - i. The Board of Governors is an autonomous governing board of the University that provides governance and control over the affairs and operations of the University, including oversight for the University’s financial and academic policies and practices in accordance with the Board’s legal and fiduciary responsibilities. When acting on matters having to do with academic policy and organization of a college(s), the Board shall rely upon the advice of senior representative body(ies) of the faculty as conveyed to the dean(s), provost, and president.
- b) The University Council shall serve as the senior representative body of the faculty and is constituted to represent the University faculty and advise the provost and deans regarding: (i) the organization, function, and coordination of educational and research resources, services and activities among the various units of the University; (ii) adequacy of University facilities and infrastructure; (iii) effectiveness of University support services (e.g., student services, technology, information systems, etc.); (iv) faculty grievance process; and (v) amendments to the Rules for Governance.
- c) Each college shall organize a senior representative body to be elected by the active faculty members in the college (See Article II, Section 1) in such a manner that all categories of rank and major departments of faculty are represented. The senior representative body shall:
  - i. Serve in an advisory capacity to the dean on matters of the college;

- ii. Organize standing committees, establish committee charges, and delineate procedures for election and/or appointment of members to college and University standing committees; and
  - iii. Draft policies and procedures consistent with these Rules for Governance upon consultation with the University Council. Once approved in accordance with the process established in the college's policies and procedures, the policies and procedures shall become part of these Rules after approval by the University Council, provost, president and the Board.
- d) The faculty of each college shall hold at least one regular meeting during the academic year on a date it shall determine in accordance with the college's policies and procedures. Special meetings of the faculty of any college at which only the specific items on the agenda shall be discussed may be called by the president, provost, dean of the college, or upon receipt by the dean of an appropriate petition of the faculty in accordance with the college's policies and procedures. Each college shall establish in its policies and procedures the number and dates of its faculty meetings, the number of members constituting a quorum, and regulations governing the calling and conduct of special meetings.
- e) The parliamentary authority for the Rules for Governance shall be the current edition of *Robert's Rules of Order Newly Revised* and used by the University Council and all of its standing committees.

### **Section 3. Formation and Structure**

Rush University was founded in 1972. The term University refers to all offices, colleges, and other institutions involved with its academic programs. The term college refers to any existing or subsequently established college that has an organized faculty and student body for implementation of academic programs at the University. A college's "policies and procedures" shall be consistent with and operationalize the University Rules for Governance.

- a) Colleges may elect to organize as departments, programs, sections, or divisions in accordance with the policies and procedures of each respective college.
  - i. Colleges may change the name of a department/program/division/section in accordance with its policies and procedures.
  - ii. Each department shall have a designated department chairperson. The qualifications, responsibilities, mechanisms for appointment and removal, and the term of office for department chairpersons shall be defined in the policies and procedures of each college.
  - iii. Each college shall establish in its policies and procedures regular department/program/division/section review at least every five (5) years including evaluation of the quality of the department's/program's/division's/section's activities. The periodic review should consist of at least three components: a review of the
    - (1) Department/program/division/section objectives;

- (2) Department/program/division/section activities; and
  - (3) Department/program/division/section chairperson, including evaluation by active faculty in the department. The senior representative body and dean of the college are to be notified that a review is to be carried out and shall receive a report of the review.
- b) A college and/or a department/program/division/section within a college may be created or eliminated only upon the approval of the Board as transmitted through the president and provost upon recommendation of the senior representative body.
- i. A college and/or department will not be construed as being “eliminated” for purposes of this section if the functions in that unit are shifted to another unit (e.g., college, department/program/division/section) in the University.

#### **Section 4. Administration**

- a) The president is the chief executive officer of the University. The president is appointed by and serves at the discretion of the Board for the supervision, management and governance of the University and for interpreting and carrying out Board policies.
- b) The provost is the chief academic officer of the University. The provost is appointed by and serves at the discretion of the president for the operations and administration of the University and its colleges and for all academic and research planning and programs. The provost may develop senior administrative positions for unspecified terms to fulfill University-related functions and they will serve at the discretion of the provost.
- c) The deans serve as the chief administrative and academic officers of their respective colleges. College deans report to the provost and serve at the discretion of the president for the administration of the educational and academic research programs of their respective college. The college dean shall: (i) be responsible for developing and implementing academic, financial, and, where applicable, clinical strategies to promote competitive educational, research and clinical programs of the highest caliber; (ii) define the responsibilities for the professional and academic work of the college departments; (iii) recruit and develop an outstanding academic administrative leadership team including chairpersons, key faculty, and senior administrators; (iv) call meetings of the faculty at such times as they or the senior representative body may deem necessary; (v) provide consultation and recommendations concerning faculty appointments and promotions and for student admissions, evaluation, and progression; and (vi) serve as the agent of communication for all official business of the college.
  - i. Each college dean shall be appointed by the Board, upon the nomination of the president from candidates recommended by a dean’s Search Committee. The dean’s Search Committee shall be appointed by the president and the senior representative body of the college.
    - 1. Members of the dean’s Search Committee appointed by the president will include: one member of the Board; faculty from each of the other colleges not seeking a dean, one of whom may be a dean;

department chairpersons from the college seeking a dean; one student from the college seeking a dean.

2. Members of the dean's Search Committee appointed by the senior representative body of the college seeking a dean will include two active faculty from each a senior and a junior rank.
3. Ex-officio members of the Search Committee may be appointed by the president. The president shall appoint the chair of the Search Committee from among its members. The chair of the Search Committee shall present the final recommendation(s) of the Search Committee to the president.

## **ARTICLE II: FACULTY ORGANIZATION AND CONDITIONS**

### **Section 1. Faculty**

- a) **Active Faculty:** Each college shall be made up of duly appointed members, whose assignments are made in one or more faculty roles, including instruction, research, clinical, and/or administrative (institutional) service. Active faculty may have the right to cast votes in faculty meetings and elections depending on college rules. All active faculty may serve on a senior representative body (if elected or appointed) and standing committees (if elected or appointed). Active faculty shall include the ranks of professor, associate professor, assistant professor and instructor.
- b) **Pending Faculty:** a temporary designation that shall be reserved only for newly recruited faculty members who are awaiting their formal appointment. Pending faculty appointments are not active faculty rank.
- c) **Adjunct Faculty:** Adjunct faculty of each college shall include individuals who provide instruction (or teach) on a specific topic or for a single course. They may hold academic rank titles of adjunct professor, adjunct associate professor, adjunct assistant professor, or adjunct instructor. Adjunct faculty is not an active faculty rank.
- d) **Lecturer:** Lecturers are Rush employees who, through tested experience, are qualified to participate in educational programming. Lecturer is not an active faculty rank.
- e) **Full-time Faculty:** Any faculty who is employed by Rush University Medical Center as .90 FTE or above. **Part-time Faculty:** Any faculty who is employed by Rush University Medical Center as anything under a .90 FTE. **Visiting Faculty:** Shall include those individuals who hold faculty appointments at another institution who are appointed for a limited term of up to one year, subject to reappointment. They may hold academic rank titles of visiting professor, visiting associate professor, visiting assistant professor, or visiting instructor; however, visiting faculty are not active faculty.
- f) **Emeritus Faculty:** Each college may establish the appointment process and rights of emeritus faculty in its policies and procedures. Emeritus faculty are not active faculty.

## **Section 2. Terms and Conditions of Faculty Appointment, Reappointment, and Promotions**

- a) **Faculty Qualifications:** Qualified faculty members, including adjunct faculty, shall be identified primarily by their credentials. Faculty shall possess an academic degree relevant to their faculty role and services. Faculty members who teach shall possess an academic degree at least one level above the level at which they teach, except in programs for which terminal degrees are granted or when equivalent or tested experience are established as faculty qualifications. When tested or equivalent experiences are used to determine faculty qualifications, criteria used to define those qualifications are determined by the college pursuant to well-defined policies, procedures and documentation that demonstrate when such experiences are sufficient. A college may prescribe additional criteria for faculty in its policies and procedures.
- b) **Academic Functions of Faculty:** Each college shall establish the functions and responsibilities of its faculty in its policies and procedures. Such functions may include but are not limited to: (i) establishing requirements and policies for the college's educational and academic research programs; (ii) participating substantially in the development, implementation and evaluation of the curriculum; (iii) establishing expectations of student and program performance; (iv) initiating appropriate action based on assessment of student learning and program outcomes; (v) establishing policies for faculty appointments and promotions; and (vi) overseeing student life that relates to the educational process.
- c) **Compensation and Employment:** Academic faculty appointments (both active and non-active) do not carry with them a right to employment or compensation.
- d) **Terms of Appointment to Rank:**
  - i. Each college shall develop procedures and requirements for appointment and promotions to rank.
  - ii. A faculty member's letter of appointment from the provost shall include a statement defining the distribution of efforts, compensation (if applicable) and responsibilities, as reviewed with the department chairperson. The distribution of efforts, compensation (if applicable) and responsibilities shall be reviewed on an annual basis.
  - iii. The term of appointment for instructors shall be no greater than two (2) years. For assistant professors, the term of appointment shall be no greater than three (3) years.
  - iv. For associate professors and professors, the letter of appointment shall include a statement whether the position is tenured (i.e. granted for an indeterminate length of time) or non-tenured. If the position is non-tenured, the term of appointment must be stated.
  - v. An initial appointment as an adjunct faculty member shall be for a term of up to one (1) year and may be renewed for terms of up to three (3) years. To be appointed as adjunct faculty above the rank of instructor, the adjunct faculty member must currently or previously have attained at least that academic rank at another university or college.

- vi. Appointments and reappointments to the visiting faculty of a college shall be for terms of one (1) year or less, subject to reappointment.
  - vii. At the end of each term of a non-tenured appointment, the department chairperson may choose to (1) terminate the faculty appointment; (2) reappoint the faculty for another term commensurate with the rank; or (3) recommend promotion to a higher faculty rank. Should the department chairperson elect to terminate a faculty appointment as described above, appropriate notice must be given to the faculty member as required by Section 2.i.iii. Faculty shall receive regular formal feedback from their department chair or dean on their performance and progress toward promotion, rank, and, if relevant, tenure.
  - viii. All recommendations for faculty appointments, reappointments and promotions for assistant professor or below shall originate with the department chairperson and shall be presented to the college dean for transmission with a recommendation to the senior representative body of the college. Upon approval by the senior representative body of the college, the dean will forward a recommendation for approval to the provost.
  - ix. All recommendations for faculty appointments, reappointments and promotion for associate professor or professor shall originate with the department chairperson and then reviewed for approval by the appropriate faculty committee on senior faculty appointments and promotions of the college in accordance with its policies and procedures. Upon approval, the dean will make a recommendation to the senior representative body. Upon approval by the senior representative body, the dean will forward a recommendation for approval to the provost.
- e) Joint Appointments: A faculty member may hold joint appointments at Rush University, but there may be only one “home” or primary appointment and both appointments must be at the same rank. Whenever possible, faculty shall be appointed in the college and the department representing the primary professional-academic disciplines and/or activities of the faculty member. Specific terms and conditions of the joint appointment shall be agreed to by the two department chairpersons, approved by the dean or deans if the appointment is in two colleges, and, if needed, by the provost. In the instance of joint appointments, a faculty member’s performance review will be conducted by the primary “home” in consultation with the secondary “home.”
  - f) An active faculty appointment at another academic institution is not permitted except upon prior approval of the college dean.
  - g) Promotions and Tenure. Tenure assures the academic freedom essential to an atmosphere conducive to the free search for knowledge and the attainment of excellence in the University. Tenure also reflects and recognizes a faculty member's value to the institution, as evidenced by professional performance and growth. Faculty members are integral to the educational and research programs of the University; they are the community of scholars who create institutional stability and an ongoing commitment to excellence. Tenure is granted for a faculty member’s achievements, not years in rank, and is based primarily on the faculty member’s performance in teaching,

service, research, clinical service, achievements in scholarship, and commitment and contributions to the University. Tenure is granted by the University to a faculty member to provide a status of continuing senior faculty rank. A college may or may not participate in tenure. The rules and standards for promotion and tenure are defined and established at the college level and specific rules and processes for promotion are developed by the dean and faculty of each college and incorporated into the college's policies and procedures. Promotions must be initiated by the primary college or department. Tenure in a college applies to the college of the primary appointment. Tenure ceases upon the termination of a faculty appointment for cause as set forth in Section 2.i.ii. of these Rules and as set forth in a college's respective rules and regulations. Tenure always ceases upon resignation, or retirement from the faculty of the University, or death of a faculty member. Tenure is never gained *de facto* through length of service, failure on the part of the University to provide notice, or other indirect means.

h) Leaves of Absences

- i. The faculty of each college shall determine procedures governing leaves of absence of its members, with or without salary (in the case of employed faculty member), in accordance with Medical Center policies. Leaves of absence for employed faculty, other than scholarly leaves, shall be governed by the Medical Center's policies on leaves of absence. For faculty not employed by the Medical Center, leaves of absence must be approved the department chairperson and college dean. Non-scholarly leaves of absence for faculty who are salaried include any leave of absence that does not have a scholarly basis. Such a leave of absence may be for reasons covered by federal or state law or local ordinance. See Medical Center's policies and procedures on leaves of absence.
- ii. Scholarly leaves of absence are granted for the purpose of improving a faculty member's professional and academic development. Scholarly leaves of absence are not automatic and may be granted only with the approval of the department chairperson and the final approval of the dean. The leave may be granted to a faculty member who has an appointment that would continue after the leave was completed and who intends to return to the college. Additional procedures for administering scholarly leaves of absence shall be defined by the respective college.

i) Termination, Suspension and Appeals

- i. Faculty appointments may be terminated by (i) non-renewal of the specified term of appointment; (ii) retirement; (iii) acceptance of resignation; (iv) termination consequent to a college, department, or program elimination; (v) termination for inability to perform the essential functions of the faculty position; or (vi) discharge for cause. A college may establish additional criteria for termination or transfer to emeritus status in its policies and procedures.
- ii. The department chairperson, with the approval of the dean, may suspend or discharge a faculty member for cause as outlined below. Suspension is temporary withdrawal of specified faculty responsibilities, with or without salary,

as deemed appropriate by the respective department chairperson or dean. Discharge is termination of one's faculty appointment and, if applicable, employment. Cause for discharge or suspension from the faculty shall consist of any or all of the following:

1. Failure to carry out assigned teaching, research, administrative or service responsibilities and duties;
  2. Serious and/or repeated violation of Medical Center, University, college or departmental bylaws, rules, policies, procedures and/or standards of conduct;
  3. Violation of generally accepted standards of professional ethics;
  4. Material breach of the faculty member's appointment letter and any other agreements the faculty member has with the University and/or Medical Center;
  5. Conviction of a crime deemed to (a) render the faculty member unfit to discharge their professional responsibilities and duties or (b) place at risk the safety, security or reputation of the Medical Center or University;
  6. Temporary or permanent loss of professional licensure or certification necessary to discharge the faculty member's responsibilities and duties;
  7. Professional incompetence; or
  8. Conduct that is prejudicial to the best interest of the University or Medical Center as determined by the dean and approved by the provost.
- iii. When a faculty member with a non-tenured appointment is recommended for non-reappointment, instructors will be notified in writing by the department chairperson at least three (3) months prior to the expiration of the appointment. Assistant professors will be notified at least six (6) months prior to expiration. Non-tenured associate and full professors will be given notice of at least twelve (12) months prior to expiration of the appointment. Nonrenewal of an appointment made according to these Rules for Governance is not grievable.
- j) Grievance. The Faculty of each college shall determine procedures governing grievances of its members. Decision with regard to discharge for cause may be appealed to the University Council when the cause of discharge is outside the purview of human resources (e.g. denial of faculty rank promotion). A request for review must be submitted in writing to the chair of the University Council no later than fourteen (14) calendar days following the final decision of the appropriate college's senior representative body. The request should describe how the college's senior representative body's policies and procedures were not followed. The University Council shall initiate a review of the decision of the college's senior representative body within thirty (30) days. Such review will be limited only to a determination of whether the college's senior representative body followed its own procedures in reviewing the grievance. The University Council shall not under any circumstances reconsider the merits of the grievance. The University Council shall provide its recommendation to the

provost. Its review and recommendation shall be limited to: (1) overturning the decision of the college's senior representative body when there has been failure to follow applicable procedures specifying grounds; (2) affirming the decision of the college's senior representative body specifying grounds; or (3) remanding the grievance to the college's senior representative body for further consideration, specifying grounds. The recommendation of the University Council shall be conveyed to the provost who shall issue a final decision in writing. The provost's decision will be conveyed to the college's senior representative body and the faculty member. If the provost remands the grievance to the college's senior representative body, it shall initiate a review within thirty (30) days.

## **ARTICLE III: STUDENTS**

### **Section 1. Students**

- a) There shall be two categories of students in Rush University: those enrolled and registered for Rush degrees or certificate programs and those enrolled for studies that do not lead to a degree or certificate.
- b) Only students from degree or certificate programs, in good standing, are eligible to hold office and serve on committees, or otherwise vote in plenary affairs of the students or faculties.
- c) The process for determining academic status and grounds for dismissal shall be made known in writing to the students. Each college shall establish an appeal mechanism for student-related grievances. The determination of the status of a student in a college shall be made by the dean of the college with the advice of the appropriate committee within each college.
- d) A degree or certificate student candidate who holds a faculty appointment may participate in academic matters in either role as long as there is no conflict of interest as determined by the dean of the college.

### **Section 2. Student Representation**

- a) A student representative government may be organized from the student body of each college. Such a representative body shall be organized in a manner so as to provide appropriate representation for all students in that student body.
  - i. The members of a student representative body shall serve as the designated representatives for the students in matters between the student bodies, faculty and administrative officers of the college and University.
- b) A Rush University Student Representative Council may be organized and, if so, should be constituted equally from among the students of each college. If a college has an established student representative body, its delegates to such a council shall be the chairperson and members of the body. If no such student representative body exists, delegates to such a council shall be selected by a student body in such a manner as to

provide appropriate representation for all students in that student body. A council shall elect its own chairperson annually.

- i. The members of a Rush University Student Representative Council shall serve as the designated representatives for all students in matters among student bodies, faculty and administrative officers of the University.

## **ARTICLE IV: PRIVILEGES AND RESPONSIBILITIES OF THE FACULTY AND STUDENTS**

### **Section 1. Privileges and Responsibilities**

- a) Academic freedom: It is the policy of Rush University to maintain and encourage full freedom within the law for inquiry, discourse, teaching, research and scholarly activity and to protect faculty and students against influences that would restrict the exercise of these freedoms. Such freedom requires free expression, intellectual honesty, respect for the academic rights of others, and openness to change. Freedom of expression does not include unlawful activity, activity that threatens or endangers the safety of others, or obstruction of the normal operations of the University. It is the responsibility of all members of the University to maintain channels of communication which will foster a climate favorable to the freedom of expression.
- b) Faculty and students of the University who express public opinions on public issues must clearly represent themselves and not the University or Rush University Medical Center, in whole or in part, unless that opinion has been authorized by the president or the provost.
- c) Willful and persistent interference with members of the University community in the performance of their normal duties and activities must be regarded as unacceptable obstruction of the essential processes of the University.

## **ARTICLE V: AMENDMENTS TO THE RULES FOR GOVERNANCE**

### **Section 1. University Rules for Governance**

- a) A proposal for amendment to these Rules for Governance may be initiated by any of the following: a petition signed by at least twenty-five percent (25%) of active faculty of a college; by the president; by the provost; by any college dean; or by a majority vote of the University Council. All such proposals shall include a written explanation for the proposed change and proposed language to be added, deleted, or changed accordingly. With the exception of amendments proposed by the University Council, the proposal for amendment shall be submitted by the initiating parties to the University Council for its review. Thereafter, the University Council shall approve or disapprove the amendment, stating the reason for disapproval, or return the proposal to the initiators with recommendations for revision and resubmission.
- b) Amendments approved by the University Council shall be submitted to the provost for review and approval prior to a vote of the faculty. If approved by the provost, he/she

shall submit the amendment to a vote of the active faculty by a secret ballot at any regularly or specially called faculty meeting or secret ballot using available and current technology. Each respective college may define “active faculty” in their rules and regulations specific to who may vote on any amendments to the Rules for Governance.

- c) Each amendment must be approved by a simple majority of the faculty voting in such an election.
- d) The University Council shall submit the faculty-approved amendment(s) to the president, who will submit the amendment(s) to the Board for final approval.

## **Section 2. College Policies and Procedures**

- a) Each college’s senior representative body should develop a mechanism for amending its own policies and procedures.
- b) Thereafter, the amendments shall be transmitted to the University Council, provost, the president, and the Board for final approval.

## **PART TWO**

### **CHAPTER 1: PRIVILEGES AND RESPONSIBILITIES OF THE FACULTY**

#### **A. Other Duties and Responsibilities of Faculty**

##### **1. Policy on Faculty Qualifications**

#### **QUALIFIED FACULTY POLICY AND PROCEDURES**

##### **PHILOSOPHY**

Rush University is committed to providing high quality education through faculty who have appropriate expertise in the subjects they teach. Accordingly, Rush University will only engage faculty members who have demonstrated expertise in the subject matter they teach and are able to effectively communicate knowledge in that subject to Rush University students.

##### **PURPOSE**

The purpose of this policy is to define the qualifications and the procedures and documentation required to demonstrate faculty are sufficiently qualified to engage in the educational process at Rush University.

##### **POLICY**

###### **Section 1: Overview**

- Faculty qualifications must be reviewed for each faculty member on an individual basis to determine if a faculty member meets the qualification guidelines set by the Higher Learning Commission and any other applicable state, federal, and/or accrediting agency or industry standards. Faculty refers to all faculty members, lecturers, adjunct faculty, clinical and research supervisors, and all other instructional staff members.
- Primarily, qualified faculty members are identified based on their credentials as set forth below.
- Secondly, qualified faculty members may be identified based on their tested experience as explained below.
- Documentation is required to demonstrate a faculty member is qualified.

###### **Section 2: Using Credentials to Determine Qualified Faculty**

Credentials refers to the degrees that faculty have earned and related scholarly and professional engagement. When using credentials to determine if faculty are qualified to teach, the following are the minimal credentials required.

### *Undergraduate Programs:*

- Faculty teaching in Rush University undergraduate programs must hold a master's degree or higher in the discipline or subfield of the course(s) they teach. If a faculty member holds a master's degree or higher in a discipline or subfield other than that in which he or she is teaching, the faculty member must have either a minimum of 18 graduate credit hours in the discipline or subfield in which they teach or sufficient tested experience.

### *Graduate Programs:*

- Faculty teaching in Rush University graduate programs must hold the highest degree (i.e., a terminal degree) in the discipline they teach. Additionally, faculty members must have evidence of their engagement in the discipline through research, scholarship or achievement appropriate for the graduate program.

## **Section 3: Using Tested Experience to Determine Qualified Faculty**

Tested experience may substitute for earned credential requirements or portions thereof. Tested experience refers to in-depth experience outside of the classroom in real-world situations relevant to the discipline in which the faculty member is teaching. Teaching experience in the discipline does not equate to tested experience.

Tested experience must be evaluated on an individual basis. When using tested experience to determine if a faculty member is qualified to teach, the following minimum qualifications must be met before tested experience can be considered.

### *Minimum Qualifications*

- If teaching in an occupational/professional field that requires licensure or registration, faculty must hold a current license/registration in good standing relevant to the course(s).
- A minimum of two years of full-time professional experience relevant to the course(s) taught.
- All faculty must meet minimum requirements (e.g., clinical and instructional experience and educational experience/credentials) set by applicable programmatic accrediting agencies, state boards or other applicable standards related to the program.

### *Demonstrating Tested Experience*

Tested-experience is determined by: substantial graduate-level academic coursework and/or methodologic training in the discipline; demonstration of the breadth and depth of experience outside of the classroom in real-world situations relevant to the discipline; demonstrated competence in the discipline; and ability to teach. The following may also be considered when

evaluating tested experience: scholarly publications, presentations, professional engagement, consulting work, honors, awards, continuing education, industry certifications, demonstrated record of research, demonstrated experience that directly correlates with learning outcomes of the course(s). Equivalence and/or appropriateness regarding any of the degree requirements in relation to qualifications are approved by the dean and department chairs of each college.

## **PROCEDURES**

### **Section 1: Faculty Qualifications Review Process and Approval**

Faculty qualifications must be reviewed prior to a faculty appointment and on an ongoing individual basis to ensure faculty meet the qualification requirements for courses they teach pursuant to the above policy.

#### *Appointment Procedure*

- Before appointment, each faculty candidate must be evaluated to ensure the candidate meets the faculty qualification requirements set forth in the above policy.
- This initial evaluation will be completed by the department chairperson, program director or designated committee and then sent to the dean of the college and the provost for final approval prior to hire.
- Supporting documentation that the faculty candidate is qualified must be on file in the Office of Faculty Affairs.

#### *New Teaching Assignment*

- When a faculty member is assigned to teach a course for which her/his qualifications were not previously evaluated, the faculty member's qualifications must be evaluated and approved prior to being assigned or re-assigned as the course instructor.
- This initial evaluation will be completed by the program director and then sent to the department chairperson and/or dean and provost for final approval prior to the faculty member being assigned as the course instructor.
- Supporting documentation that the faculty member is qualified must be on file in the Office of the Dean.

### **Section 2: Documentation**

Faculty candidates and faculty are responsible for ensuring Rush University has their official transcripts, evidence of their licensure and/or certification and any other documentation which supports their faculty qualifications.

### *Documentation Requirements*

- Transcripts. Only official transcripts of degrees and academic course work will be accepted.
- Certification/Licensure. Legible photocopies of all occupational licenses and/or certificates applicable to the course(s) taught must be provided. Licensures and certifications must be current and verifiable with the appropriate regulatory body.

*Tested Experience Documentation Requirements*. To validate tested experience the following documentation requirements apply.

- Letters Demonstrating Expertise. Letter from former/current employers must be written on official letterhead and signed by an official representative of the employer. The letter should include length of employment, job responsibilities, interpersonal skills, and competence of job duties. Letters of reference will be accepted only if the identity of the person issuing the letter can be verified. The letter should detail the nature and scope of the faculty member's area of expertise and the nature of the relationship with the author of the letter.
- Other Documentation. Other documentation used to support faculty qualifications must be in an original format, legible copy and/or verifiable (e.g., publications, awards, etc.).

**Of note:** A curriculum vitae (CV) or resume (without additional evidence) is insufficient to document tested experience (e.g., work experience listed on a resume is insufficient, must have three letters demonstrating expertise/letters of reference or other evidence to verify work experience).

## **2. Professional Conduct**

Professional behavior, ethics and integrity are expected of each individual faculty member of Rush University. This code is a statement of the guidelines for professional and personal behavior of the faculty in all dealings with students, colleagues, staff, patients, families, and friends and other health professionals, employees, vendors, government agencies, society and among themselves, in order to promote the quality of education, research, patient care, safety, trust, integrity and honesty.

In addition, the faculty member has responsibility to maintain his/her own professional and personal well-being and a reputation for truth and honesty. Additionally, all faculty must follow Medical Center and department and college-specific policies and standards, including, but not limited to, the Code of Conduct for Rush University Medical Center.

To view the Master Policy-Code of Conduct for Rush University Medical Center, search under Human Resources Policy type, Code of Conduct category at <http://inside2.rush.edu/policies>.

## **3. Conflict of Interest**

The Comprehensive Policy Statement Regarding Conflicts of Interest is applicable to the Rush Board of Trustees, corporate officers, employees, faculty, students and members of Rush’s medical, nursing, professional and technical staffs. All must use their best efforts and judgment to avoid any influences that could compromise their patient care, their research, their business transactions, their educational efforts, their professional conduct, their objectivity or their integrity.

Conflicts of interest are defined as circumstances that create a risk that professional judgments or actions regarding a primary interest will be unduly influenced by a secondary interest. Conflicts can be more or less severe. The severity of a conflict depends on: (1) the likelihood that professional decisions made under the relevant circumstances would be unduly influenced by a secondary interest; and (2) the seriousness of the harm or wrong that could result from such influence. Under certain limited circumstances a conflict may be allowed to continue if such conflicts cannot otherwise be eliminated, the likelihood of undue influence is minimized, and the relationship is appropriately managed to reduce the risk of possible harm.

The Comprehensive Policy Statement Regarding Conflicts of Interest is subdivided to address the specific nature of institutional conflicts, clinical conflicts and research conflicts. In addition, Rush’s Relationships with Vendor and Referral Source Guidelines (the “Vendor Guidelines”) provide supplemental detail with respect to certain conflicts addressed in this document. To view the Master Policy-Conflicts of Interest and Commitment, search under Human Resources Policy type, Code of Conduct category at <http://inside2.rush.edu/policies>.

#### **4. Use of Computer Device and Media Controls**

Work stations, mobile devices, and fixed or portable media are used at Rush to support patient care, student services, research, academic, and business operations. In all cases, only Rush-owned and managed devices, or approved personally-owned or vendor-owned devices, may be used to intentionally access and store sensitive Rush information from Rush networks and information systems. This policy establishes a set of security controls to protect information processed on these devices. Additional information on the policy may be found under the Operational Policy type, Information Technology category on the [Policies and Procedures page](#).

#### **5. Security**

Rush Security is committed to providing services to ensure that students, potential students, visitors, faculty and staff are and feel safe/secure while on the Rush campus. They provide preventative patrols of the buildings, garages and campus areas. There is an evening campus shuttle (Night Run) to provide faculty, staff and students safe transport to various locations on/off campus. When the shuttle is not available, upon request security staff can accompany individuals to and from their cars or places on campus. Rush security is available to provide response to emergency calls. Additionally, Rush has blue light boxes available throughout

campus. These are emergency response towers strategically located so individuals can call in an emergency throughout campus. These emergency call boxes are yellow towers with a blue light on top of each device. Contact (312) 942-5678 for any security inquiry or need.

RU-Alert is the University's mass notification system. As of late 2017, students are automatically enrolled in this system with their email and emergency phone number. To update, verify and modify your contact information go to the [RU Alert Website](#).

Rush Security maintains and posts Clery Report information. This report details security, safety and crime information for our campus. Additionally, the up-to-date criminal activity log is maintained in the security office in the Tower LL1502, Security Office.

## **6. Travel and Employee Reimbursement**

The purpose of the Travel and Other Expense Policy is to provide employees and faculty with specific guidelines covering travel and other business expenses as well as the documentation required to substantiate requests for reimbursement of those expenses. The travel and employee reimbursement policy may be found under the Operational policy type, Billing/Finance category on the [Policies and Procedures page](#).

## **7. Contract Review and Approval**

Rush has policies concerning the signing of agreements and contracts. Legal review of arrangements and contracts governed by this policy is an important step in ensuring compliance with legal requirements. Communication with the Office of Legal Affairs early in the planning process is important to facilitate the review and approval of arrangements and contracts. The Contract Review and Approval policy may be found under the Operational Policy type, Legal Issues category on the [Policies and Procedures page](#).

## **B. Research Policies and Procedures**

### **[Office of the Vice Provost for Research](#)**

#### **1. [Office of Research Affairs](#)**

The Office of Research Affairs (ORA) exists to partner with faculty and staff as they seek funding, propose clinical studies, establish collaborations, steward funds, submit grants, negotiate industry contracts, and secure patents and licensing agreements. The ORA is headed by Rush's chief research administrator, and has organizational reporting

responsibilities to the Office of the Provost (associate provost for research), and the Office of Medical Affairs (vice president & principal business officer) at Rush.

The ORA is comprised of six distinct service divisions:

- i. [Clinical Research Administration](#)
- ii. [Innovation & Technology Transfer](#)
- iii. [Research Regulatory Operations](#)
- iv. [Sponsored Programs Administration](#)
- v. [Institutional Animal Care and Use](#)
- vi. [Technologies Supporting Research](#)

Specific details for these divisions follow below:

i. [Division of Clinical Research Administration](#)

The clinical research administration division (CRAD) within the Office of Research Affairs facilitates the financial and operational aspects of clinical research across Rush. In addition, it partners and supports the [Cancer Clinical Trials Office](#), which focuses on oncology clinical research.

The division sets the strategic vision for clinical research administration and provides leadership to ensure the enterprise has the following:

- Well-funded leading-edge research in key therapeutic areas
- Engaged principal investigators and research teams that are audit-ready
- Efficient study start-up that sets the pace for academic medical centers in the Chicagoland area
- Effective execution of clinical research-related activities
- Preferred status with key industry sponsors

This division supports investigators in the following ways:

- Research Contracts
  - Contract negotiation in partnership with the Office of Legal Affairs
    - Confidentiality disclosure agreements
    - Clinical trial agreements
    - Sub-award agreements
    - Service Agreements
    - Professional service agreements for research
  - Synchronization (“sync”) process
- Clinical research core support, such as the following:
  - [Clinicaltrials.gov](#) application support

- Quarterly new hire training session
- Monthly continuing education sessions
- Regulatory coordinator support\*
- Research nursing support\*
- Research coordinator support\*
- Clinical research finance support
  - Coverage analysis development
  - Medicare submissions for investigational devices
  - Budget development and negotiation\*
  - Industry sponsor invoicing

*\*These resources are limited but growing.*

**Rush University Cancer Clinical Trials Office:** A division of the Cancer Center that has strong relationships with Clinical Research Administration is the Rush University Cancer Clinical Trials Office. It encompasses functions similar to the Clinical Research Core, but on a larger scale and is focused on adult hematology/oncology clinical research only across the institution. It consists of a regulatory team, a research nurse team, a research coordinator team, and an ancillary services team. Together, under the direction of the director, they currently conduct about 200 trials across the Cancer Center. Their focus is on pharmaceutically sponsored trials phases I through IV.

#### **ii. Division of Innovation & Technology Transfer**

The Division of Innovation and Technology Transfer (I&TT) is responsible for managing the intellectual property assets generated by research and educational activities at Rush. The I&TT division seeks to guide technologies through the various stages of the commercialization process by providing services that include evaluation, protection, marketing, and licensing of intellectual property.

The I&TT division protects faculty interests while advancing discoveries toward commercial development. A high-performance team with a broad range of subject matter expertise provides a full suite of support services to ensure that Rush inventions reach their fullest potential. The I&TT division assists Rush faculty by:

- Evaluating research results and inventions for patentability and navigating it through the patenting process
- Protecting intellectual property while protecting academic priorities, interests and values
- Effectively transferring discoveries and inventions from the laboratory into commercial development
- Helping form collaborations with industrial partners for new sources of research sponsorship

- Negotiating, structuring and executing license agreements and other relevant technology transfer related agreements to ensure the development and commercialization of Rush technologies
- Helping with startup formations by facilitating access to the entrepreneurial ecosystem that includes mentoring, incubators and accelerators as well as investor network

The I&TT division is passionate about its role at Rush and continues to endeavor to see Rush has a strong impact on the next generation of biomedical technologies that will improve patient lives.

### iii. [Division of Research Regulatory Operations](#)

The ORA supports a Division of Research Regulatory Operations (RRO) that has primary responsibility for stewarding Rush's regulatory responsibilities as imposed by sponsors, other institutions, as well as community, local, and federal government agencies. The division has responsibility to oversee the administrative effectiveness and responsiveness of regulatory committees at Rush including, among others, the IRB, IACUC, DURC, Biosafety, and data safety monitoring activities. Monitoring general laboratory safety is also within the purview of the RRO division. Rush's institutional biosafety officer is a member of the RRO division staff. Additional details of the key RRO regulatory groups can be found below, throughout this document, and at the hyperlink above.

#### [Biological Safety Program](#)

Since 1997, Rush University Medical Center has operated an Institutional Biosafety Committee (IBC) to review all research activities involving recombinant or synthetic nucleic acids as required by the *NIH Guidelines for Research Involving Recombinant or Synthetic Nucleic Acid Molecules* (rev. 2016) and by university policy RA-IBC-001. This 11-member committee has cross-representation from the Institutional Animal Care and Use Committee (IACUC) and from the division of Environmental Health and Safety (EHS). Committee members include faculty from the departments of Immunology and Microbiology, Anatomy and Physiology, and the divisions of Gastroenterology and Infectious Diseases, and representatives of hospital Infection Control and the Office of Research Compliance. IBC business is conducted in standing monthly-convened meetings. The biological safety officer (BSO) pre-reviews applications to assist the investigator prior to official review by the full committee, reviews literature relevant to applications in service to the IBC, and schedules the agenda of the IBC. The IBC maintains a database of approved programs as well as an informative Web site, and submits annual reports to the NIH Office of Science Policy. A mandatory Web-based Biosafety Training Program for both investigators and their laboratory personnel has been established. Investigators or their designees are trained in the shipping of dangerous materials by EHS. Approved programs are subject to annual continuing review and a formal amendment process for all substantive

changes. All laboratories of IBC-approved programs are inspected initially and periodically by the BSO.

### **DURC and Biohazard Committees**

Rush University Medical Center is in compliance with the United States Governmental Policy for Institutional Oversight of Life Sciences Dual Use Research of Concern. This policy governs all research performed with any quantity of 14 specific pathogens and one toxin, requiring the *institutional* review of such research to determine whether a risk mitigation plan is needed to minimize the chance that the research will be misapplied. If the research meets these criteria, the risk mitigation plan must be approved and enforced. Under its approved institutional policy RA-DURCBHSD-001, Rush has established the required Institutional Review Entity (IRE) called the DURC Committee, and has named an institutional contact for dual-use research who also chairs the committee. The DURC Committee will convene quarterly to review new potential DURC research and do annual continuing review of previously approved projects. The DURC Committee has determined that no current research at Rush meets the DURC criteria to require approval of a risk mitigation plan. To oversee biological and/or biochemical hazards that do not meet the DURC criteria and also do *not* involve recombinant or synthetic nucleic acids and therefore do not require oversight by an Institutional Biosafety Committee (IBC) according to *The NIH Guidelines for Research Involving Recombinant and/or Synthetic Nucleic Acid Molecule (2016)*, the same membership of the DURC Committee will constitute a Biohazard Committee. This committee will convene monthly, or as necessary, and will review and evaluate the safety of research projects that use human or animal pathogens, exempt quantities of select agents, the Parkinson's syndrome-inducing prodrug, 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine (MPTP), nanoparticle preparations, and new, potentially biohazardous agents that may be developed.

### **Radiation Safety Program**

Rush University Medical Center has a Radiation Safety Program with a broad-based Radiation Safety Committee (RSC), as required by the State of Illinois. All routine clinical and research laboratory aspects of ionizing radiation use, such as dose monitoring, radiation protection, nuclear medicine hygiene, and radioactive waste disposal, are managed by the RSO under oversight by the RSC. A subcommittee of the RSC advises the Institutional Review Board on the informed consent language for clinical studies in which the radiation dose to prospective research subjects will be changed by participation in a study.

### **Laser Safety Program**

The Rush University Medical Center Laser Safety Program provides clinical staff, researchers, students, patients, and visitors with a safe laser-use environment by managing the selection, use, and maintenance of lasers and laser-containing systems at Rush University Medical Center and Rush University Medical Group. This program implements guidelines to ensure that no laser radiation in excess of the maximum permissible exposure (MPE) limit reaches the eye or skin of clinical staff, students, patients, and visitors. Additional guidelines ensure adequate protection against non-beam hazards that can be associated with the use of lasers: risk of electrical shock, explosions, fire, and exposure to harmful chemicals or biological hazards. The

program also conducts relevant educational programs, performs workplace inspections including those used for clinical procedures, and inspects and repairs laser equipment, documenting maintenance histories to satisfy applicable regulations. Program responsibilities are drawn from guidelines established by the American National Standard for the Safe Use of Lasers in Health Care Z-136.3-2011, and FDA CFR 1040.10. The program complies with the Illinois Emergency Management Agency (IEMA) regulations for acquisition, registration, use, transfer, and disposal of class 3b and 4 lasers. A Laser Safety Committee, (LSC), as required by ANSI and IEMA is chaired by Gene A. Ward. Its purpose is to advise on laser activity and enforcement of operational policies and procedures at Rush.

#### **iv. Division of Sponsored Programs Administration**

The Division of Sponsored Programs Administration (SPA) provides assistance to faculty and staff in obtaining and managing sponsored awards that support research activities. SPA is charged with accepting grants and contracts for sponsored programs funded by federal and state agencies, foundations and other public agencies, and providing guidance to assure proper stewardship of funds that are received. In addition, SPA prepares and negotiates sub-awards for collaborative research.

The mission of SPA is to provide superior guidance and support to faculty, staff, and administration in the pursuit of funding and collaborations reviewing and approving proposals submitted to all sponsors, for interpreting, negotiating, and for research, education and outreach.

#### **v. Division of Institutional Animal Care and Use – Comparative Research Center**

Rush is committed to the judicious and humane care and use of animals in teaching, research and testing. The use of animals at Rush is a privilege granted through the Institutional Animal Care and Use Committee (IACUC), with moral, scientific and legal obligations for humane care and treatment of the animals.

Rush will comply with all applicable provisions of the Animal Welfare Act, other federal statutes and regulations relating to animals and any state statutes and regulations related to animals. As the institution receives federal funding and has an approved *Assurance of Compliance with Public Health Service (PHS) Policy on Humane Care and Use of Laboratory Animals*, all persons will strictly adhere to the provisions of the PHS policy and the Rush PHS assurance. As the PHS policy covers all vertebrate animals, the institution's policies and procedures will apply to all vertebrate animal use, regardless of the funding source. Rush is also guided by the *U.S. Government Principles for the Utilization and Care of Vertebrate Animals Used in Testing, Research, and Teaching*, detailed in the PHS policy. All animal care and use will follow the *Guide for the Care and Use of Laboratory Animals (Guide)*. In situations where the regulations enforcing the Animal Welfare Act are specific and more restrictive than the PHS policy, these regulations will take precedence over the PHS policy.

The [Comparative Research Center \(CRC\)](#) is located in the Cohn Building. The Comparative Research Center is responsible for implementing the Rush Animal Care and Use Program and managing animal care facilities in accordance with the guide. The center's functions include procurement, care and maintenance of all animals used in research, teaching and testing, and the provision of professional advice to research and teaching staff.

Periodic assessment of the effectiveness of the CRC is provided at multiple levels by numerous sources including, but not limited to: semiannual program review and inspection of the facility by the Institutional Animal Care and Use Committee; annual performance reviews of CRC personnel; annual unannounced inspections by a USDA veterinary medical officer; triennial site visits by the AAALAC International Council on Accreditation; and annual reporting to the USDA, Office of Laboratory Animal Welfare (OLAW) and AAALAC.

#### **vi. [Technologies Supporting Research](#)**

The ORA works closely with the Office of Information Services at Rush to support key research administration technologies including the Rush Research Portal, Faculty Profiles, Inter- and Intranets for Research, LINK, COI databases, GRANITE, e-IRB capabilities, interfaces with sponsor databases, and other network and infrastructure-related needs of faculty and staff. The key technology application within the ORA is the Rush Research Portal, described as follows.

The [Rush Research Portal \(RRP\)](#) is a key methodology to manage many aspects of the clinical research and sponsored programs submission process. All new clinical research studies are submitted electronically through the RRP. IRB studies that were active prior to September 17, 2007 (legacy studies) have been uploaded into the system.

One of the many benefits of the RRP is a streamlined approach to the submission, review and approval of research projects. The system will notify department approvers, IRB staff and/or other study staff as the project advances through the system.

Coverage analysis, grants and contracts are also created and submitted through the RRP. This allows an efficient process linking the IRB study, coverage analysis, grants and contracts in one central location. Finally, a module that will facilitate submission and administrative oversight of clinical studies conducted at Rush that use a central IRB is being built. This module will facilitate instances in which the Rush IRB is acting as a central IRB of record for other institutions.

To obtain a login ID for the RRP, all users are required to attend training. Training is available every Friday in the lower level of the Annex building at 11 a.m. Additionally, all users are required to complete their mandatory training prior to having their study reviewed by the IRB. The mandatory training is accessible through the [Rush Leap OnLine system](#).

## Research Core Facilities

All the scientific cores have pricing structures that are advantageous for Rush investigators and will therefore allow greater productivity per grant expenditure than comparable external facilities operated by neighboring universities or commercial laboratories. With rare exceptions, investigators can receive training to operate these facilities independently, thereby reducing the labor charges associated with larger projects.

1. MicroCT/Histology Core (MCTHC)
2. Flow Cytometry Core (FCC)
3. Rush Proteomics Core (RPC)
4. Rush MicroRNA and Gene Expression Core (RMGEC)
5. Rush Biomarker Development Core (RBDC)
6. Rush University Biorepository Core
7. IM Research and Drug Discovery Imaging Core
  - 7A. High-Content Screening (HCS) Systems
  - 7B. Electron Microscopy
  - 7C. Confocal and Live Cell Microscopy
8. The Biological Safety Level 3 (BSL3) Laboratory
9. College of Health Sciences Shared Laboratory
10. Bioinformatics/Biostatistics Core
11. Rush Bio Specimen Freezer Facility
12. Neighboring University Core Research Facilities
  - 12A. [University of Chicago \(Office of Shared Research Facilities\)](#)
  - 12B. [University of Illinois at Chicago \(Research Resources Center\)](#)

## **2. Intellectual Property**

The [Division of Innovation and Technology Transfer \(I&TT\)](#) is responsible for managing the intellectual property assets generated by research and educational activities at Rush. The I&TT division seeks to guide technologies through the various stages of the commercialization process by providing services that include evaluation, protection, marketing, and licensing of intellectual property.

The I&TT division protects faculty interests while advancing discoveries toward commercial development. A high-performance team with a broad range of subject matter expertise provides a full suite of support services to ensure that Rush inventions reach their fullest potential. The I&TT division assists Rush faculty by:

- Evaluating research results and inventions for patentability and navigating it through the patenting process
- Protecting intellectual property while protecting academic priorities, interests and values
- Effectively transferring discoveries and inventions from the laboratory into commercial development

- Helping form collaborations with industrial partners for new sources of research sponsorship
- Negotiating, structuring and executing license agreements and other relevant technology transfer related agreements to ensure the development and commercialization of Rush technologies
- Helping with startup formations by facilitating access to the entrepreneurial ecosystem that includes mentoring, incubators and accelerators as well as investor network

The I&TT division is passionate about its role at Rush and continues to endeavor to see Rush has a strong impact on the next generation of biomedical technologies that will improve patient lives.

### **3. Research Compliance**

The [Office of Research Compliance \(ORC\)](#) promotes a culture of compliance, research integrity, and high quality research within the Rush community. Oversight of the regulatory (federal, state and local), ethical and compliance aspects of research conducted at RUMC is a complex multidimensional undertaking, and the ORC divides the responsibility for managing these dimensions across operational areas. The areas targeted for evaluation of compliance with conducting research include but are not limited to:

- Human Research Protection Regulations
- Effort Reporting
- Financial Conflicts of Interest in Research
- Clinical Trial Billing
- Scientific Misconduct
- Intellectual Property
- Sponsored Research/Grants/Contracts

**Compliance Oversight Mechanisms.** The ORC incorporates the seven fundamental elements of an effective compliance program (issued by the Office of Inspector General (OIG)) through reviewing and implementing of policies and procedures, conducting effective education and training, routine and for cause audits, establishing a hotline and responding promptly to detected offenses and undertaking corrective action. Directed audits are conducted in response to identified concerns to assess research compliance with federal, state, and local laws, as well as Rush policies.

The Evaluation Quality Improvement Program (EQuIP) identifies areas of investigator/research team vulnerability regarding adherence to regulatory requirements, protocol, organization, and record-keeping. This audit/review process highlights areas requiring education, and fosters enhanced communication between research administration and the research community. Data gathered during the EQuIP project provides ORC with an understanding of gaps in knowledge that can later be addressed through policy and training programs for the research community. Results of EQuIP, directed audits, and periodic compliance reviews are reported to the chief

compliance officer, the associate provost for research, and the Institutional Review Board (IRB) in cases involving human subjects research, and in certain instances, to the Audit Committee of the Board of Trustees.

#### **4. Research Conflicts of Interest (COI)**

The [Office of Research Compliance](#) is responsible for the administrative collection, review and management of financial and other interests that have the potential to impact an individual's professional or research responsibilities at RUMC. The goal of this program is to develop and maintain processes for identifying and managing external interests in conjunction with the Conflict of Individual and Institutional Interest in Research (COIIR) Committee that have the potential to impact an individual's professional or research responsibilities.

#### **5. Scientific Misconduct**

The director of research compliance serves as the research integrity officer (RIO) for RUMC and is responsible for reporting annually to DHHS's Office of Research Integrity about allegations and investigations of scientific misconduct. Scientific misconduct means fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results. Reporting suspected research misconduct is a shared and serious responsibility of all members of the academic community. Any person who suspects research misconduct has an obligation to report the allegation to the RIO. Allegations are handled under procedures described in RUMC's policy titled [Research Misconduct: Policy For Review and Reporting Allegations](#). All reports are treated confidentially to the extent possible, and no adverse action will be taken, either directly or indirectly, against a person who makes such an allegation in good faith.

### **C. Student Matters**

#### **1. General**

To find information on student policies, review the [Rush University Catalog](#), which is published as a guide for the faculty and students of Rush University. The University reserves the right to add, amend, delete or deviate from any specifications herein at any time and to apply such changes to registered and accepted students. Policies as stated in the catalog supersede policies in departmental student handbooks.

#### **2. Students with Disabilities**

The [Office of Student Disability Services](#) works at keeping with its goal to promote diversity among the student population. Rush University is committed to attracting and educating students who will help to make the population of health care professionals reflective of the national population, including individuals with disabilities. In addition, Rush University is committed to ensuring equal access to its facilities, programs and services are available to

students with disabilities. The University provides reasonable accommodations to all students on a nondiscriminatory basis consistent with legal requirements as outlined in the Americans with Disabilities Act of 1990, The American Disabilities Amendment Act of 2008 and the Rehabilitation Act of 1973.

Faculty are encouraged to refer students seeking more information about accommodations to the manager of the Office of Student Disability Services or visit the office

Website: <https://www.rushu.rush.edu/students-disabilities>.

If the Office of Student Disability Services determines that accommodations will be issued to a student, faculty will receive notification via email stating the student's accommodation plan at Rush University.

### **3. Faculty/Student Relationships**

The relationship between teachers and learners should be based on mutual trust, respect, and responsibility. The expectations for maintaining a professional teacher-learner relationship are relevant to all faculty, residents, staff, and students who participate in educational activities in the classroom, laboratory, research, or clinical settings where there is a focus on education, patient care, and ethical conduct.

## **D. Evaluation of Faculty Performance**

### **1. Annual Evaluation**

The performance of each faculty member is ordinarily evaluated annually by his/her immediate supervisor and/or the chair/dean of the corresponding department and college. In colleges with departments that have no additional organizational structures/units, the departmental chairperson completes the evaluation. In large departments with additional organizational structures, such as divisions, sections, or programs, annual evaluation is performed by the head of the organizational unit in which the faculty belongs. In colleges without departments, deans and academic supervisors may do evaluations directly. The annual evaluation is expected to be comprehensive, providing an opportunity to discuss faculty performance, academic standing, career development opportunities, career advancement, and next year performance goals. It includes a self-evaluation of annual performance by the faculty member and an evaluation of the faculty member's annual performance by the departmental chairperson or academic/administrative supervisor and/or the dean.

The University has an approved faculty evaluation form that reflects the purpose of the evaluation process as stated above. The faculty member is invited to complete the faculty

portion of the evaluation form and electronically submit the form required and other supplemental materials that the faculty member believes will be helpful for an adequate assessment of performance. The faculty immediate supervisor or departmental chairperson, or in colleges without departments, the dean and academic supervisor, completes the form and schedules a conference with the faculty member to review the evaluation. Portions of this process may be done electronically, but in no case will the evaluation process be considered complete until the conference has taken place and the faculty member has signed the form (or acknowledged it electronically) indicating that he/she has seen the supervisor's comments and recommendations. This annual evaluation form and appropriate supporting materials become part of the faculty member's official file which is retained in the faculty management database. It is expected that at the time of annual performance evaluation, the faculty updates his/her curriculum vitae. A faculty member may access the annual evaluation form at any stage of the evaluation or thereafter. While annual evaluations play a role in determining faculty compensation, they are not the sole determining factor.

## **CHAPTER 2: FACULTY BENEFITS**

### **A. Benefits**

Rush offers a comprehensive employee benefit program to help employed faculty members enhance their health, prepare for retirement, protect against the unexpected and maintain a work/life balance. A full description of current benefit programs is available under the Benefits Home page, which may be accessed on Rush's Website at <http://inside2.rush.edu/departments/hr/Pages/BenefitsHome.aspx?catkey=1>

The Benefits Portal has a fully searchable table of contents, is updated annually and provides essential information about all faculty benefit plans. In addition, each benefit program is described in detail in Rush's plan documents and summary plan descriptions, which are available for review in the portal or through the Office of Human Resources. The provisions of the plan documents and summary plan descriptions are periodically updated and amended.

- LEAP  
As part of Rush University Medical Center's commitment to employee development and education, it offers tuition assistance to employees who want to take healthcare, business or vocational courses, as well as many on-site development programs. Log on to LEAP to find out more details about participating and being reimbursed for attending a development program.

## **CHAPTER 3: NONDISCRIMINATION POLICY**

Rush University Medical Center and Rush University appreciate the diversity of human beings, and believe that equal opportunity, diversity, and affirmative action in employment, education,

and the delivery of health care are essential and are to be encouraged and celebrated. This is a continuation of a perspective that emanated from the Hospital charters of 1865 and 1883, and the documents governing the establishment of Rush University in 1972. The prohibition against discrimination, harassment and unequal treatment explicitly delineated in this policy is considered to be a component part of all other Medical Center and University policies and supersedes all prior or contemporaneous policy statements to the contrary. To view the nondiscrimination policy, view Operational Policy type, Patient Right and Organizational Ethics category at <http://inside2.rush.edu/policies>.

The Medical Center has adopted the policy that strictly prohibits all forms of unlawful discrimination and harassment of and by any member of the Medical Center community, including but not limited to students, members of the faculty, employees, volunteers, guests and vendors.

Furthermore, Rush University Medical Center is committed to complying with Title IX of the Higher Education Amendments of 1972, which prohibits discrimination on the basis of sex in educational programs or activities, admission and employment. Sexual Misconduct (and its various forms, as defined below) constitutes sexual discrimination and is also covered under this policy. To view the prohibition against harassment, discrimination and sexual misconduct policy, search under Human Resources Policy type, Code of Conduct category at <http://inside2.rush.edu/policies>.

## **CHAPTER 4: SELECTED UNIVERSITY RESOURCES FOR FACULTY**

### **A. Library**

The [Library of Rush University Medical Center](#) enjoys a rich history of serving the education, patient care and research needs of all students, faculty and staff at Rush. Through the [library home page](#), faculty, students and staff have access to more than 8,513 full-text electronic journals, 112 databases, and more 5,968 electronic books. Off-campus access is also available. For more detailed information about the library, read our [Library Guide](#).

#### **Access to Library Materials**

All registered users of the library can check out materials and use online resources. To register, stop by the Library Services Desk (fifth floor, Armour Academic Center) or fill out our [registration form](#).

#### **Remote Access to Library Materials**

Using a free proxy account, students, faculty, and staff of Rush University Medical Center may access library resources online such as full-text journals, databases, and electronic textbooks from off-campus. Proxy accounts are for access to library resources only. All students are issued a library proxy account at orientation. Users with a Rush Network ID or EPIC ID may use that information in place of a proxy account.

### **Interlibrary Loan**

Books, journal articles, and audiovisual materials not held by the library can all be requested from other institutions. Depending upon availability, interlibrary loans are processed via ILLiad or the Illinois' statewide library sharing program's (I-SHARE) module, which is part of the library's online catalog. Books and audiovisual materials obtainable through the I-SHARE module generally arrive the quickest; however, nearly 80% of all requests are filled within 3 business days. There is no charge to Rush faculty, students and staff for this service. Under I-Share arrangements, Rush library account holders can also walk into any I-Share library (including the University of Illinois at Chicago) and check out materials with their Rush ID. For details call (312) 942-5950.

### **Reference Librarians**

Reference librarians are available to answer your questions by phone or email at (312) 942-5950 or [Lib\\_Ref@rush.edu](mailto:Lib_Ref@rush.edu). The Reference Department provides information services to all members of the Rush community. By appointment we offer individual assistance with our databases, bibliographic management software, etc. Please call the Library Services Desk at (312) 942-5950 to set up an appointment for assistance. All workshops and consultations are free. Help is available in person Monday-Thursday, 9 a.m.-7 p.m., and Friday, 9 a.m.-5 p.m.

### **Curriculum-Based Instruction**

Librarians can meet with your students to provide an introduction to library services, the research process, searching databases and more. Classroom sessions can also be tailored to fit your student's needs and course assignments. Library tours are also available. Contact (312) 942-2279.

### **Reserves**

Rush faculty may place required or recommended readings on reserve. Our electronic reserves system, [ERes](#), allows students to access their required readings online via our home page. Items may be read online or downloaded for future use. Reserve materials are also available at the Library Services desk, located on the fifth floor of the library. The length of the lending period depends on the particular item. Second copies of reserved books may be loaned out overnight if they are checked out after 5:00 p.m. These items are due one hour after the library opens on the next day (including weekends). The fine for an overdue reserve book is \$5.00 per hour. Contact (312) 942-2272 for more information about reserve procedures.

### **Purchase Requests**

The library accepts book and journal purchase recommendations from faculty and offers a form faculty can complete to [recommend an item](#).

### **Faculty Publications List**

The library also manages the [Rush Faculty Publications List](#). This list contains publications by Rush authors and affiliates by fiscal year. Entries have been edited to reflect the Rush author, Rush department, and college. Data for this list is gathered monthly from Scopus. It includes articles, books and book chapters, and conference proceedings. Articles are only included if an author was affiliated with Rush at the time of publication.

For further information on any of the above services/resources, please contact the library at (312) 942-5950 or [Lib\\_Ref@rush.edu](mailto:Lib_Ref@rush.edu).

### **B. The McCormick Educational Technology Center (METC)**

The McCormick Educational Technology Center (METC) provides media, computer and educational support to Rush University faculty, staff and students. Its mission is to facilitate university teaching and learning through the use of audiovisual materials, computer software and instructional design.

- [McCormick Educational Technology Center \(http://rushu.rush.edu/metc\)](http://rushu.rush.edu/metc)

The METC manages Rush University's collection of physical and online media. The METC's collection also includes clinical kits, computer hardware and audiovisual equipment. The METC is home to three multimedia classrooms, a computer lab, and three media viewing rooms. Rush University faculty and staff may reserve multimedia classrooms for classes and exams. Students may reserve viewing rooms for media viewing and group discussion. The METC's computer lab (AAC 917) is accessible 24/7/365 to Rush students with a valid Rush student ID badge.

METC staff assist faculty in locating, previewing, and acquiring commercially produced software and media for academic use.

The METC provides instructional design assistance to faculty who wish to provide world-class instructional materials. The METC can help faculty produce and deploy richly interactive content aligned with course- and program-level curricular goals in RULearning (Blackboard), Rush University's learning management system.

## **METC Services for Faculty**

### **Borrowing from the METC**

The METC's collection includes:

- Media in VHS, DVD, and streaming formats
- Clinical kits
- Computer and audiovisual hardware
  - iPads and laptops
  - Projectors and A/V carts
  - USB and wireless microphones and headsets, including wireless microphones used in Armour Academic Center lecture halls (AAC 539, 540, 994 and 976)
  - Adapters and cables
  - DVD and Blu-ray players
  - Handheld digital audio recorders

Circulating media and equipment may be borrowed by Rush University staff, students and faculty.

- [Multimedia, Software & Equipment](http://rushu.libguides.com/borrowing/multimedia)  
(<http://rushu.libguides.com/borrowing/multimedia>)

### **The METC Computer Lab**

The METC's main computer lab (AAC 917) is accessible 24/7/365 to Rush students with a valid Rush ID badge. The lab is open to the public during the METC's normal business hours. Computers in AAC 917 provide the Microsoft Office suite, exam security software, SPSS (statistical software) and other software requested by faculty for academic use.

Printing is available in AAC 917 for a modest charge.

### **Computer classrooms and media viewing rooms**

The METC is home to three multimedia classrooms, AAC 902 (capacity: 10), AAC 903 (capacity: 40) and AAC 908 (capacity: 16), and three media viewing rooms (AAC 911, 913 and 918). Media viewing rooms can be reserved at the METC Service Point. To reserve multimedia classrooms, please use the Astra room scheduling system.

- [Astra Room Scheduling](http://roomscheduling.rush.edu) (<http://roomscheduling.rush.edu>)

METC computer classrooms provide the Microsoft Office suite, exam security software, SPSS and other software requested by faculty for academic use.

### **Testing in the METC**

Instructors may reserve METC computer classrooms (AAC 902, 903 and 908) for online assessment. Students may use the METC computer lab (AAC 917) for unproctored assessments. Computer classrooms (AAC 902, 903 and 908) and the computer lab (AAC 917) are equipped with the Respondus LockDown browser and ExamSoft's SofTest application. Other exam security software can be installed on request.

## 1. The Academic Testing Center

The Academic Testing Center opened in the Triangle Office Building (Suite 135) in June 2015 and is coordinated by the McCormick Educational Technology Center (METC). The center is comprised of a testing room, which can accommodate up to 75 examinees, and a multi-purpose waiting area.

- [Academic Testing Center \(http://rushu.libguides.com/metcservices/testing\)](http://rushu.libguides.com/metcservices/testing)

The testing room offers full function, small form-factor computers running the latest version of several browsers and specialty testing software. The design of the testing room is to ensure academic integrity and examinee comfort. The waiting room is a collaborative workspace with seven interactive whiteboards and can accommodate up to 77 people in small group, roundtable or lecture format.

To reserve the testing room or the collaborative workspace, please use the Astra room scheduling system.

- [Astra Room Scheduling \(http://roomscheduling.rush.edu\)](http://roomscheduling.rush.edu)

If you have any questions or would like to set up an appointment for a tour of the Academic Testing Center, call (312) 563-4929 or email [AcademicTesting@rush.edu](mailto:AcademicTesting@rush.edu).

### **Accommodated Assessments**

The METC works in partnership with the Office of Student Disability Services to provide testing accommodations for Rush University students.

- [Accommodated Assessment \(http://rushu.libguides.com/metcservices/accommodated-assessment\)](http://rushu.libguides.com/metcservices/accommodated-assessment)

### **OMR Exam and survey processing (scanning)**

The Academic Testing Center processes optical mark recognition exams (also known as OMR, Scantron or "bubble" exams). For security reasons, exams can *only* be accepted or disbursed by METC full-time employees on weekdays between 8 a.m.- 5 p.m.

- [Exam Scanning \(http://rushu.libguides.com/metcservices/scanning\)](http://rushu.libguides.com/metcservices/scanning)

Scheduled exams are guaranteed a 24-hour turnaround time. **Unscheduled OMR processing requests take at least 48 hours to complete.**

The Academic Testing Center provides support and consultation for Rush University faculty and staff collecting research forms (e.g., surveys), including print, OMR, online evaluations and surveys for University courses. If scheduled in advance, the guaranteed turnaround time is two weeks.

Blank OMR sheets are available from the METC Service Point (AAC 919) any time a full-time METC staff member is available.

For more information or to schedule exam or survey processing, call (312) 563-4929 or email [AcademicTesting@rush.edu](mailto:AcademicTesting@rush.edu).

### **Instructional Design**

The METC provides the services of instructional designers who can offer consultation and assistance on best practices in instructional design: defining learning objectives, planning and designing instructional activities that align with defined learning objectives, developing curricular projects with technology integration, and assessing learning outcomes.

- [Instructional Design Services](http://rushu.libguides.com/metcservices/instructionaldesign)  
(<http://rushu.libguides.com/metcservices/instructionaldesign>)

### **Audiovisual/Software Review and Selection**

The METC is budgeted to support the purchase of audiovisual and educational software for course instruction. Expert guidance, including the addition of a software evaluation lab, is provided to faculty in the research, evaluation, and implementation of these educational materials. Please refer to the METC's Website for more information.

### **Reserve Materials**

Faculty can place a request to add audiovisual items owned by the METC to their course reserves.

- [Course Reserves Information for Faculty](http://rushu.libguides.com/reserves/faculty)  
(<http://rushu.libguides.com/reserves/faculty>)

### **RULearning**

RULearning is Rush University's learning management system, an online tool used to meet course instructional goals.

- [RULearning](https://rulearning.rush.edu) (<https://rulearning.rush.edu>)

Instructors use RULearning to provide students with course materials, discussion boards, online exams, group assignments, and more. The degree to which RULearning is used in a course varies. Some courses may be conducted entirely online through RULearning (asynchronously), without any on-campus sessions, while others may use RULearning as a supplement to synchronous sessions.

Support for faculty and students can be accessed from within RULearning and through the RULearning Support portal.

- [RULearning Support \(http://rulearningsupport.rush.edu\)](http://rulearningsupport.rush.edu)

### **C. Faculty-Staff Profiles**

The Rush University Website includes faculty profiles. Faculty, at the instructor level and above, fill out a template ([available online](#)), which is given to the departmental/college Web page manager. The department/college Web page manager will add faculty profiles after a faculty member submits a completed profile template document.

From this [Web page](#) you can search for faculty profiles by name, college/department, and academic or GME program.

### **D. [Rush U Portal](#)**

Rush U Portal is Rush University's internal Web portal. The Rush U Portal was implemented to facilitate communication and collaboration within and between departments, as well as make the online experience easier and more convenient for faculty, staff and students.

#### **Integration**

One of the goals of the portal is to bring together the most used information and applications into one centralized location for users.

#### **Communication**

Another primary goal of the portal is to engage users through current and targeted internal communications. The portal provides a centralized location for information pertaining to University events, with the goal of increased attendance at University events and decreased reliance on email for communications.

#### **Collaboration**

Perhaps the most powerful feature of the Rush University Portal is its potential for collaboration. This is done through personalized team sites. Sites can be requested by committees, special project teams, departments, student organizations, etc. These sites are

accessible only by their members, and, unlike read-only information sites, members can contribute content.

### **Course Management**

Course instructors also use Rush U Portal to view class rosters, submit grades, and view the student photo book.

**Forgotten passwords:** If you forget your Rush U Portal password, you can reset it at <https://resetmynetworkid.rush.edu>. Please keep in mind that this will also reset your Rush login and Outlook email passwords.

## **E. Information Services**

### **Email**

To obtain any user account to Rush's electronic systems, the account request form must be submitted by the user's Rush manager or sponsor. Upon receiving the application, Information Services facilitates the creation of accounts and will communicate the system user IDs and passwords to the requesting manager via email. The Rush network is accessible throughout the Medical Center as well as from off-site locations using remote access authentication.

Access the [Information Services Webpage](#) to get an [account request form](#):

If you need remote access to the Rush network, your manager/department chair can request this access through the account request form. There is a one-time fee for this license and a cost center must be identified on the application.

### **Email Account Eligibility**

Rush Information Services provides all Rush employees (with employee numbers) and physicians (with Rush doctor numbers) with email and network accounts.

### **Email Client Software**

Microsoft Outlook is the official corporate e-mail software for Rush.

All multifunctional terminals (MFTs) and mobile computers on the patient care units have Internet access and are able to access Outlook email via the [Web email](#) version of their account. The URL is [webemail.rush.edu](http://webemail.rush.edu).

### **Email Policies**

The following [policies](#) cover aspects of your use of any Rush-provided email account.

### **User name/password**

When you receive an email account, you are given a user name and a unique password. Sharing your account is not permitted. Attempting to gain access to another's password could subject you to disciplinary action. The posting of email messages with sexually explicit images, or

posting of emails containing language which may be construed as harassment or disparagement of others based on their race, national origin, sex, sexual orientation, age, religious beliefs, or political beliefs could also be cause for discipline.

User account passwords must contain a minimum of eight characters and contain at least three of the following four characteristics:

- One lowercase alphabetical letter (e.g., a, g, q)
- One uppercase alphabetical letter (e.g., A, G, Q)
- One number (e.g., 1, 5, 9)
- One special character (e.g., @, #, %, !, .)

### **Spamming**

Indiscriminate sending of large amounts of unsolicited email (or an unsolicited email such as on a controversial topic which will provoke a large amount of feedback) to promote a product, service, or idea is not allowed. Doing so could result in suspension of your login and password.

### **Responsibility**

Whenever you send an email message, your email address and message origination host name are included in the message. You are responsible for email originating from your account.

### **Interference with others' email**

Email belongs to the recipient. A user's mailbox is treated in the same manner as any other file belonging to that user. Attempts to read, delete, copy, or modify the email of other users could subject the user to disciplinary action.

Faculty should be aware that Rush University creates an email account for each student when the student registers for his/her first quarter. Students are expected to check their email accounts with regular frequency since Rush University considers email an official means of communication. Often, students are notified of important news and deadlines (such as financial aid, registration and graduation information) via the campus email system. Students are also instructed to use their Rush email account to communicate with faculty and staff versus sending an email using a personal email account. Should a student send you email from a personal account, please remind them that they should use their Outlook account to communicate with you.

Except where specified, Rush University students will have all accounts terminated upon graduation and/or when they leave the University, including their email accounts.

Should problems arise with your email account, contact the Help Desk at (312) 942-4357 or via email at [help@rush.edu](mailto:help@rush.edu).

### **Clinical Systems accounts:**

Faculty members with clinical responsibilities will also need to get access to the various clinical systems (e.g. EPIC) and should contact the Information Services Help Desk at (312) 942-4357 or via email at [help@rush.edu](mailto:help@rush.edu).

### **MyRushPC**

MyRushPC provides users access to a complete PC anywhere, anytime, from any device. Just like any traditional desktop, MyRushPC provides users the tools they need to do their work such as Microsoft Office, Internet browsers, SPSS, network storage, and Outlook email.

Users can also perform other typical computing tasks, such as printing to local printers and saving to their network drives. A Rush employee or student can log on to their MyRushPC by visiting <http://Myapps.rush.edu> from any Web browser.

To access MyRushPC from outside of Rush, users will need to use Duo, an authorization system that adds another layer of cybersecurity for remote access to the Rush network. Each time users log on remotely to the Rush network through [myapps.rush.edu](http://myapps.rush.edu), they will be prompted to retrieve a special passcode before proceeding to their Rush workstation. Users will be need to enroll in Duo the first time they access [myapps.rush.edu](http://myapps.rush.edu) remotely; screen prompts will guide users through the process. If users need assistance, please call the Help Desk.

### **F. Rush Photo Group**

Rush Photo Group is an in-house multimedia department specializing in professional photography, videography and motion graphics. Our work can be seen in print literature, brochures, publications like *Rush News* and *Inside Rush*, social media postings, as well as on the Rush campus monitors. Videos are used for patient education, recruitment and people profiles, to name a few areas.

In tandem with the Marketing/Communications Department, Rush Photo Group collaborates with departments throughout the Medical Center and University to effectively visualize the Rush brand.

Rush Photo Group is unable to take walk-ins. If photography/video services are needed, please call for information and/or make an appointment.

*Please Note:*

*Rush Photo Group no longer prints research posters and/or poster boards. This service has been transferred to Quick Copy located in Armour Academic Center in Suite 780. Please submit your request to [quick\\_copy@rush.edu](mailto:quick_copy@rush.edu) or call 2-6697.*

*We also no longer take passport photos. These can be obtained at select Walgreens or CVS stores.*

*For filming of PowerPoint presentations and classroom lectures please contact McCormick Educational Technology Center (METC). Call (312) 942-6799.*

At Rush Photo Group we are experienced in the following areas:

### **Photo Services**

- Headshots/Portraits (in-studio)
- On-Location Portraits
- Groups
- Event Coverage
- Clinical
- Annual Reports

### **Video Services**

- Patient Care
- Recruitment
- Training
- Event Coverage
- People Profiles
- Community Outreach/Programs

### **For More Photo Information:**

- Phone: Extension 2-8278
- Email: [Photo\\_Group.rushu@rush.edu](mailto:Photo_Group.rushu@rush.edu)

### **For More Video Information:**

- Phone: Extension 3-6375

## **G. Rush Center for Clinical Skills and Simulation**

The [Rush Center for Clinical Skills and Simulation \(RCCSS\)](#) is a state of the art, award-winning, multidisciplinary simulation training center available free of charge to all faculty, students, and staff of Rush University Medical Center to conduct educational and research activities. RCCSS provides services for the integration, practice, and evaluation of user knowledge, interpersonal communication, and clinical skills through the use of immersive instructional technology. RCCSS includes a Web-supported data annotation system for simulation encounters, 3 high fidelity simulation labs, a 4-bed clinical skills training center and a smart classroom. The available technology includes 8 high fidelity simulators and an assortment of low fidelity mannequins and task trainers for skills such as lumbar puncture, and insertion of invasive monitoring lines.

- Human Patient Simulator
- Emergency Care Simulator
- METI Man and iStan portable simulators
- Noelle Expectant Mother Simulator
- Child Simulator
- 2 Infant Simulators
- Laparoscopic Simulator
- Endoscopic Simulator
- Glide Scope
- SonoSite X-Porte Ultrasound

If faculty members are interested in scheduling use of the lab, contact [simscheduling@rush.edu](mailto:simscheduling@rush.edu) to set up a planning meeting. The meeting will help develop clear objectives, develop scenarios and understand the best techniques for debriefing.

Simulation sessions should be scheduled at least six weeks in advance. At least one month before the session, faculty meet with RCCSS staff to review their session.

Click here to view the [cancellation policy](#).

## **H. Rush University Bookstore**

The [Rush University Bookstore](#), located on the ground level of Armour Academic Center, is a health sciences bookstore serving the needs of students, faculty and staff at Rush University Medical Center. The bookstore stocks the required and recommended textbooks for courses offered at Rush University, as well as an assortment of reference and review books. Special orders are handled by the bookstore and will generally be received in one or two weeks. Lab coats and medical-surgical equipment are also stocked. School supplies, greeting cards, computer software, and Rush insignia items are also available.

To contact the bookstore, call (312) 942-5845 or email [rushbookstore@matthewsstores.com](mailto:rushbookstore@matthewsstores.com) with questions and order requests. Items may be purchased from the bookstore with cash or using a departmental or office accounting unit.

### **I. Office of Alumni Relations**

Rush University [Office of Alumni Relations](#) connects its alumni with their alma mater through events, programs and communications. If you are interested in having an alumnus serve as a speaker or preceptor, obtaining alumni lists, or sharing your research with the alumni community, you may contact the Office of Alumni Relations at (312) 942-7199 or [alumni@rush.edu](mailto:alumni@rush.edu). Visit [www.rushu.rush.edu/alumni](http://www.rushu.rush.edu/alumni) to learn more.

### **J. University Relations**

As part of [Marketing and Communications](#) at Rush, University Relations manages brand consistency for all aspects of University content, design and visual identity. University Relations collaborates with college-, department- and office-level communicators, as well as with other marketing professionals across the institution, on external and internal University communications. That includes Web, social media, and internal channels such as University-wide emails, monitors, flyers and posters.

University Relations is available to consult faculty on their communications needs and, on a project-to-project basis, provides support services that may include the following:

- Copyediting and proofreading
- Copywriting
- Multimedia services
- Project management

### **K. Office of Faculty Affairs**

The mission of the [Office of Faculty Affairs](#) is to create a supportive, respectful and inclusive environment for the diverse faculty of Rush University. Our focus is on institutional integration, specifically but not limited to faculty satisfaction and engagement, implementation of the

strategic plan, pursuit of diversity goals, support for accreditations, and faculty management including onboarding, appointments and promotions.

As part of faculty development, we provide resources to ensure faculty academic success through education, mentoring, professional and leadership development, advocacy, communication and recognition.

The Office of Faculty Affairs oversees the Office of Mentoring Programs and the Office of Global Health.

### **L. Rush Mentoring Programs**

The Research Mentoring Program was established in 2006 to prepare junior investigators to lead funded translational research programs. The program is open to residents, fellows and all faculty members at Rush University. The program is designed to enable mentees to:

1. Develop testable, health-related research questions
2. Develop novel and fundable methods to study complex biomedical and behavioral health problems
3. Work collaboratively on interdisciplinary research teams that include basic, clinical and community-based population scientists as well as experts in biomedical informatics
4. Conduct funded original research synthesizing basic and clinical science specific to the research topic
5. Develop a funded, sustainable program of translational research that will directly improve the health of the nation
6. Facilitate dissemination of scientific knowledge

#### [Research Mentoring Program](#)

The program has two translational research tracks: clinical research (outcomes, behavioral interventions, decision-making, communication, patient safety, and population-based), and laboratory research. More than 70 senior faculty members with research, teaching, and clinical expertise serve as mentors. A wide range of resources are available, including data management, statistical support, professional grant-writing and manuscript-editing, graphics/presentation consulting, and other research support. The program also offers regular workshops and seminars in a variety of areas, such as identifying funding sources, grantsmanship and writing skills, statistics and databases, and career development.

Residents, fellows and all faculty members interested in joining the Research Mentoring Program are required to have at least 20 percent protected research time from their departments. Each mentee must also agree to dedicate an additional 25 percent effort and

work very closely with a senior mentor. Each mentee's entry into the program depends upon program leaders identifying an appropriate mentor match.

#### [Educational Mentoring Program](#)

The Rush Educational Mentoring Program (REMP) provides experienced and dedicated mentorship for educators and educational scholars who engage in educational scholarly activities in support of Rush University's mission. It offers a comprehensive range of resources designed to strengthen the educator's teaching portfolio and/or to support educational scholarship. The program has two tracks: an education track focused on teaching and learning and an educational scholars' track focused on conducting educational research, publishing, and acquiring funding.

Mentees who wish to join the REMP should be nominated by their department and be currently involved or plan to be in education and/or educational research. They should notify the Office of Mentoring Programs and information about the next REMP Group meeting will be provided.

#### [Postdoctoral Mentoring Program](#)

Rush Postdoctoral Society (RSP) was founded in 2013 in order to provide support to postdoctoral fellows in their independent career development and to facilitate community building for postdocs at Rush University. RPS is the representative for the National Postdoctoral Association (NPA) at Rush University.

#### [Women Mentoring Program](#)

The objective of the Rush Women Mentoring Program (RWMP) is to create and sustain a comprehensive environment that facilitates women faculty members' pursuit of specific career and professional development goals at Rush University. This program:

- Fosters interpersonal and interprofessional networking
- Builds a sense of community among women faculty members
- Supports a culture conducive to interprofessional collaboration and partnership
- Assists women faculty in their promotion through academic ranks and into leadership positions
- Increases visibility of women faculty and their successes within the Rush community
- Facilitates development of policies and concrete tools to promote work flexibility and work/life balance among women faculty

#### **M. Interprofessional Continuing Education**

The office of [Interprofessional Continuing Education \(IPCE\)](#) is an integral part of Rush's efforts

to provide the highest quality learning activities that lead to excellence in patient care, and it oversees all accredited continuing education at Rush. Its specialty is in providing interprofessional continuing education, which means developing education by and for the healthcare team. IPCE also works with Rush's faculty and clinicians to develop and deliver accredited profession-specific continuing education in all of the following: medicine, nursing, nutrition, occupational therapy, pharmacy, physical therapy, psychology, respiratory therapy, social work, and speech-audiology. Rush is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC). Accreditation by other disciplines and/or specialties can be obtained with IPCE's assistance.

Whether developing a profession-specific CE event or an interprofessional event, multiple steps are required for accredited CE. IPCE has processes and staff in place to assist faculty organizers in completing the process and offering CE credit for Rush employees and/or for learners from other institutions. Here is an overview of the process at Rush:

- Identify learning need(s) -- The learning needs of your audience are dependent upon your identification of gaps in practice
- Visit IPCE web page for training materials (optional) -- <https://www.rushu.rush.edu/education-and-training/interprofessional-continuing-education/tutorials>
- Contact IPCE -- Telephone: (312) 942-7119; email: [CE\\_office@rush.edu](mailto:CE_office@rush.edu)
- Complete application materials, including Conflict of Interest Disclosure forms, and submit to IPCE -- <https://www.rushu.rush.edu/education-and-training/interprofessional-continuing-education/application-materials>
- IPCE reviews application materials and assesses for compliance – allow ten days for review
- IPCE qualifies the material for appropriate forms of CE – you cannot advertise credit until it is formally approved
- At minimum, IPCE assists in managing commercial support and assessing learning outcomes – also available is an online registration site, and assistance in applying for grant funding
- After completion of the CE event, IPCE issues credit and archives it for all participants -- <http://cmetracker.net/RUSH/Login?sessiontype=C&nc=1412273544680&FormName=SeArchCreditInput>

If you would like to develop an accredited course in any or all of these professions, contact Interprofessional Continuing Education, Rush University, 710 S. Paulina, JRB 234, Chicago, Illinois 60612. Telephone: (312) 942-7119; email: [CE\\_office@rush.edu](mailto:CE_office@rush.edu)

Resources and Support offices for Research

#### **N. Office of Institutional Research, Assessment and Accreditation**

The [Office of Institutional Research, Assessment and Accreditation](#) (OIRAA) serves Rush University by providing leadership and support in the areas of institutional research, accreditation, assessment, and regulatory mandates. The OIRAA:

- Provides comprehensive information to support institutional planning, policy formation, decision-making and evaluation of effectiveness
- Coordinates responses to external accountability mandates and a wide range of internal and external requests for information and data about the University
- Provides guidance and coordination support for campus-wide and unit-level assessment of academic programs and administrative processes to support the university's quality improvement efforts
- Guides and facilitates the process of reaffirmation of accreditation and substantive change reporting
- Provides evidence of institutional effectiveness

Visit the webpage for contact information of the OIRAA team.
