BBBRC Notice of Funding Opportunity

MATTER is working with The Discovery Partners Institute on a grant proposal as part of the federal Build Back Better Program. The opportunity is for a large-scale (up to $100M) center focused on the development and commercialization of digital health technologies. This link BBBRC Notice of Funding Opportunity will provide a sense of the opportunity.

MATTER has asked Rush to participate in this center and your digital health project could potentially be included in the center proposal. Please consider this opportunity. Rush is collecting projects that fit within the broad Program umbrella. The contribution guidelines are detailed in the link above. Please consider participating. If you are interested, Rush would need your one-page contribution by Friday, October 8, 2021 via this link.

Contribution guidelines
We welcome contributions from faculty towards this effort. Please examine the BBBRC Notice of Funding Opportunity.

Contributions should be no more than one page and must include the following:

- PI Name, affiliation and email address
- Project title
- Brief abstract
  - In your abstract, address how the project addresses one or more of the review criteria in Sec E1 of the solicitation.
- Collaborators and partners
- Rough budget dollar amount (Phase I, $500k in total for regional hub), (Phase II, up to $100M in total for regional hub) with a line or two of justification
