Keith Whitfield, PhD, FGSA

Patricia D'Antonio, BSPHarm, MS, MBA, BCGP

The Gerontological Society of America (GSA) is pleased to create opportunities for talented early career investigators from underrepresented background to have a prominent role in the GSA Diversity Mentoring and Career Development Technical Assistance Workshop (MCDTAW). Successful applicants will be awarded a financial stipend to support registration for and participation in the workshop, attendance at the GSA Annual Scientific Meeting, and networking and mentoring activities engagements that will occur throughout the year.

**Applicants are not required to be involved in aging research, or in a gerontological program, at the time of the application.** However, applicants must express their interest, plans, and commitment to contribute to the field of gerontology. Applications are open to emerging scholars from underrepresented and diverse groups who have recently obtained a doctoral degree (within the last 3 years) or are within one year of graduating with their doctoral degree. Applicants will be selected on a competitive basis. Awardees must attend the workshop in its entirety and register and participate in the [GSA 2021 Annual Scientific Meeting](#).

This workshop fellowship program is designed to empower trainees for successful career development and leadership. Comprehensive information related to mentoring opportunities, career development, professional networks and leadership will be discussed with the goal to produce a successful, well-prepared, and empowered diverse workforce to contribute to the future of aging research.

*This workshop is funded by the National Institute on Aging of the National Institutes of Health under Award Number **R13AG072884**. The content is solely the responsibility of the faculty and does not necessarily represent the official views of the National Institutes of Health.*

**For more information, please contact Patricia D'Antonio at [pdantonio@geron.org](mailto:pdantonio@geron.org).**
