

EAR DAY 2015

Department of Communication Disorders & Sciences Rush University and
Chicago Chapter of the Acoustical Society of America

November 6, 2015

Armour Academic Building 971/975

(RSVP to [Jeri-Lynn Williams@rush.edu](mailto:Jeri-Lynn_Williams@rush.edu) by October 30)

- 9:30 Coffee and light breakfast
- 9:55 – Introduction & Welcome
Valeriy Shafiro - Rush University Medical Center
- 10:00 – Induction and prevention of auditory perceptual learning
Beverly Wright - Northwestern University
- 10:30 – Learning on a musical interval discrimination task through a combination of task practice and stimulus exposure alone
David Little - Northwestern University
- 11:00 – Reactivation and anterograde disruption of recently encoded auditory memories: A variant of reconsolidation
Robert Baudo - Northwestern University
- 11:30 – 11:45 Break
- 11:45 – Aging effects on two-tone suppression
Erica Hegland - Purdue University
- 12:15 – Relationship between auditory and cognitive abilities in older adults
Stanley Sheft - Rush University Medical Center
- 12:45 – 2:00 Lunch
- 2:00 – Leveraging bilateral implants to improve cochlear implant patients' spectral resolution
Justin Aronoff - University of Illinois at Urbana-Champaign
- 2:30 – Developing a clinically feasible pitch matching task for bilateral cochlear implant users
Julia Stelmach - University of Illinois at Urbana-Champaign
- 3:00- 3:15 Break
- 3:15 – Layer-specific differences in the mouse auditory corticocollicular system: An update
Daniel Llano - University of Illinois at Urbana-Champaign
- 3:45 – Predicting the timing of natural and synthesized events by sound alone
Valeriy Shafiro - Rush University Medical Center
