Utilizing Canvas Accessibility Checker in Rich Content Editor

Locating Accessibility Checker and Notifications

1. To view accessibility issues, click on the **Accessibility Checker** icon [1]. Issues will be indicated as detected [2].
View Issues
Detected issues will be highlighted [1]. The sidebar displays an explanation of the issue [2].

View Additional Issues
If more than one issue is detected [1], the editor may view all issues by toggling between the Previous or Next buttons [2].
Fix Issues

Follow appropriate recommendations as noted in the sidebar to fix any issues [1]. When your desired changes are complete, click **Apply** [2].
