

Interacting with Canvas Immersive Screen Reader

Accessing the Immersive Screen Reader

1. To open the screen reader, find and select the icon that is located on the top-right of your Canvas page **[1]**.

2. Once selected, your content from the intended page will be made visible.

Home page

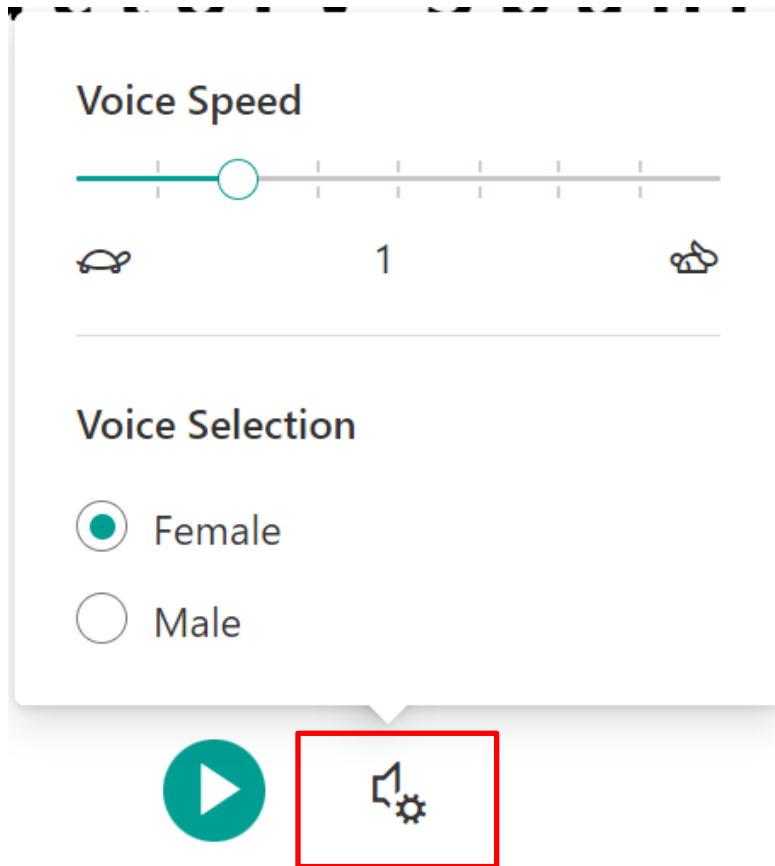

SPA 102- (Introductory Spanish II)

Fall 2019

Professor:

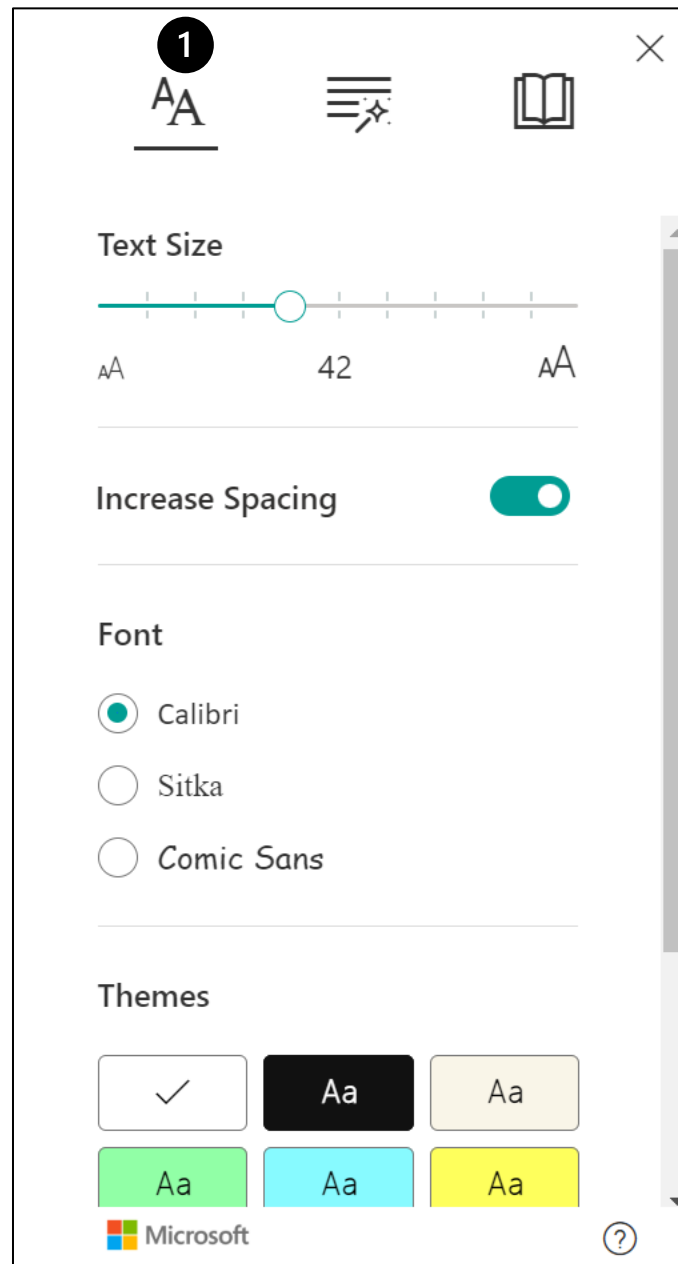

3. To adjust voice speed and selection, select the highlighted icon located at the bottom of the screen.

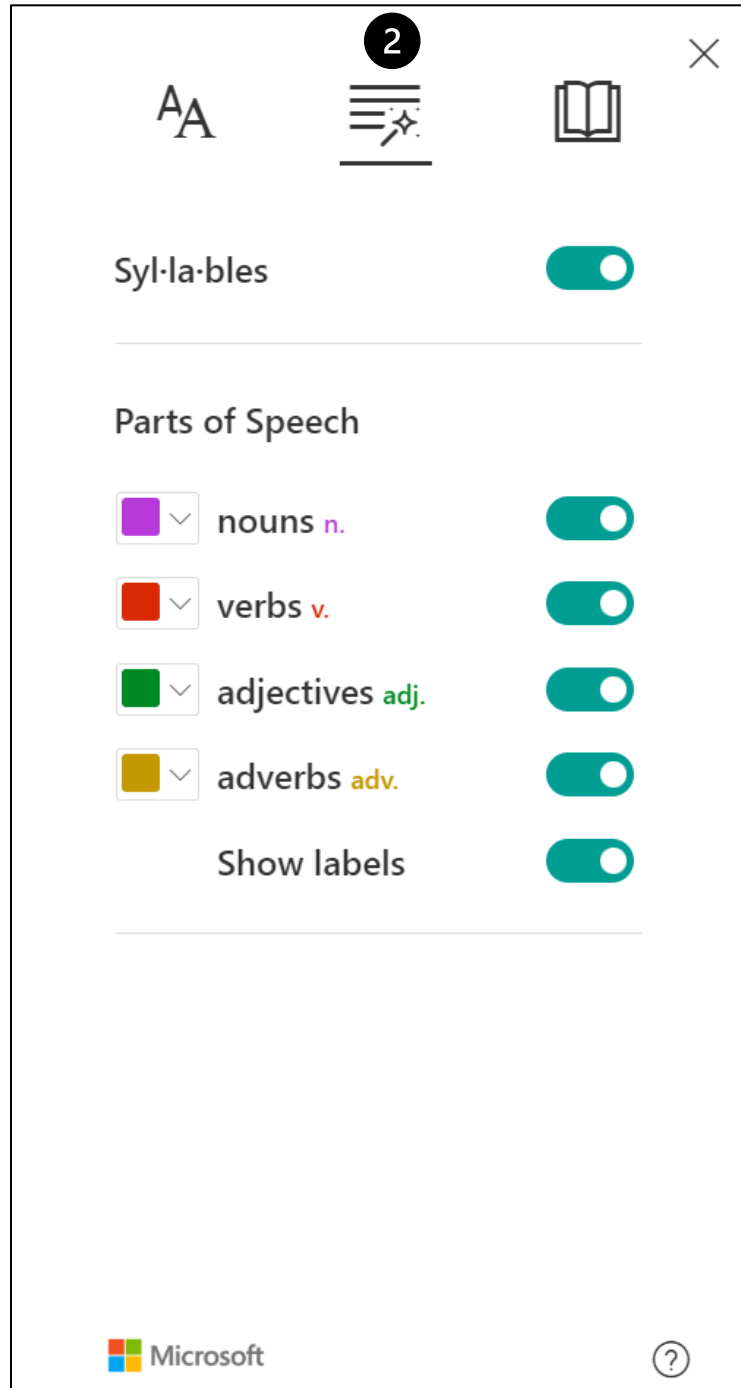

Adjusting Screen Reader Display

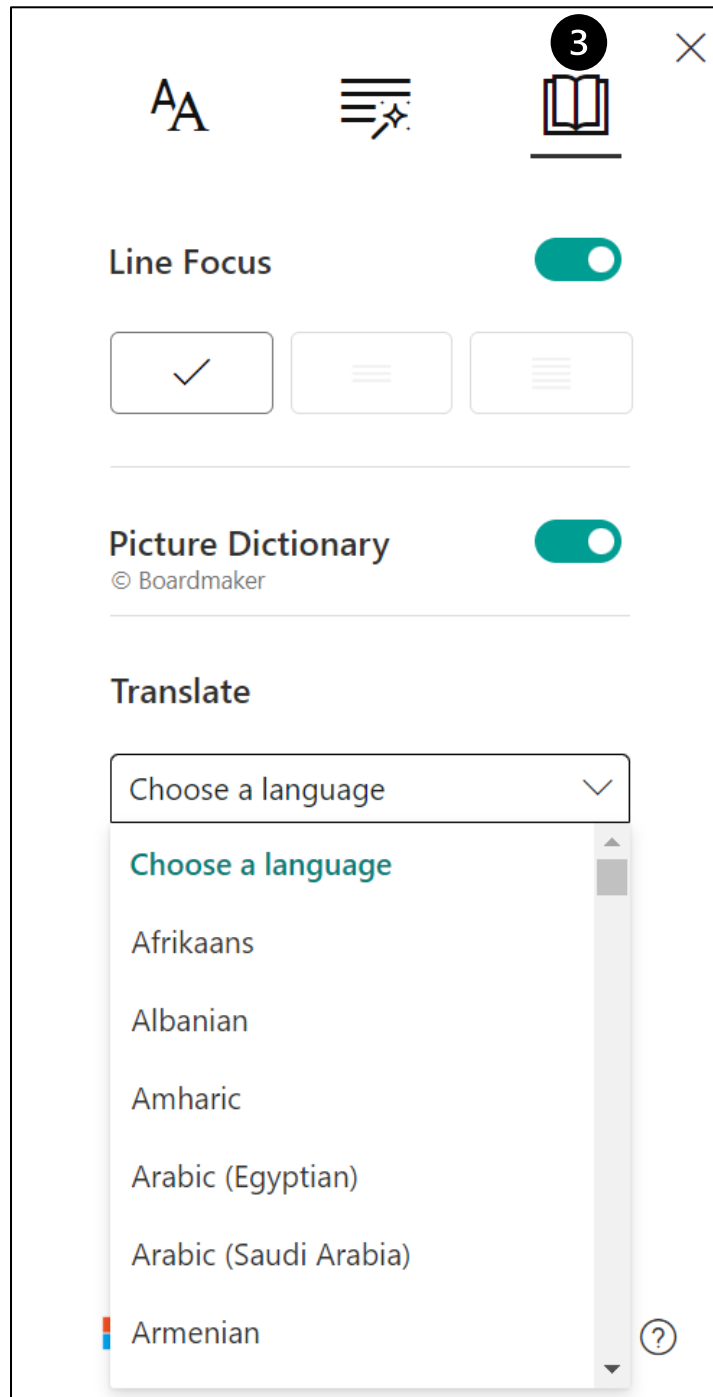

1. To adjust your display, locate the three icons on the top right of the screen. The first **[1]** will allow you to adjust text font, size, and themes.

2. The second [2] will allow you to adjust syllabic and parts of speech annotations made visible on the screen reader.

3. The third [3] will allow you to adjust line focus as well as adjust in what language the content is presented on screen and orated by the tool.

4. Once a language is selected, and syllabic and parts of speech annotations are made visible; your content will be presented and orated to you by the screen reader as such. Adjusting which features are made visible will alter the information presented on screen.
